Soft-Nosed Bullets Used by Mexican Bandits in Killing Americans—Small Detachment of Carranzistas Accompany Special Train Bearing the Bodies.

EL PASO, Jan. 12.—The funeral train bearing the bodies of the 13 Americans killed by Mexicans, arrived this morning. A silent crowd of several hundred gathered at the station and watched the removal of the covered corpses into auto trucks. The bandits used soft-nosed bullets that tore great, ragged holes and shot away the skulls of three of the Americans. Each body was riddled by from two to five shots. The American rescuers were escorted by a small detachment of Carranzistas who insisted on stopping the special train frequently and reconnoitering for bandits. When the scene of the massacre was reached, mounted Villa forces stood less than half a mile away. Unmounted Carranzistas made no attempt to pursue the suspected men. When the bodies were loaded into a box car, the train backed into Chihuahua.

It is reported from Walla Walla that the snow fall in this section is heavier than any for 12 years past.

RUSSIAN IS FOUND GUILTY OF FORGERY

TAKES JURY ONLY 20 MINUTES TO DECIDE CASE AGAINST ZENEBEK.

It took the jury only 20 minutes yesterday afternoon to reach a verdict of guilty in the case of the State vs. Nich Zenebek, the Russian charged with uttering a forged check. The state had built up a strong case against him and this, added to his refusal to defend himself, sent the jury to the jury room almost of one mind. Not only was the \$450 check, to which the name of C. P. Bowman had been forged, in evidence, but half a dozen or more other checks alleged to have been passed by the man were produced. All bore the signatures of former employers of the man. His system of operation, it is said, was to work for a man, secure a check in payment of services and then to imitate the signature. The checks ranged from \$100 to \$500. Deputy Prosecuting Attorney R. L. Keator handled the case for the state.
