YOU CAN DO BETTER AT  WE LEAD OTHERS FOLLOW

Science reveals the known to us and attempts to trace a true line from cause to effect. Christianity reveals the unseen in life, and demands that we exercise our faith. In this way our Faith makes the unseen real to us. Science can explain material things but has never been able to account for man's spiritual nature. God is a spirit and they that worship Him must worship Him in spirit and in truth. Therefore our spirit nature naturally turns to Him if we will only allow ourselves to be guided by it. We learn that God so loved the world that He gave His only begotten Son, that whosoever believeth on Him might not perish but have everlasting life. Come and surrender your life to Him tonight.

YOUR EYES ARE DEFECTIVE

If you cannot easily read the fine print below with each eye separately when held at 14 inches.

Caution About Use and Selections of Spectacles

"Persons having normal vision will be able to read the print of a distance of 25 inches from the eyes with ease and comfort. You will be able to read it with each eye separately. If unable to do so your eyes are defective and should be examined by a specialist. When the eyes become tired from reading or sewing, or if the letters back behind or in front of the eyes appear blurred, the glasses should be looked. The lenses set in the frame should be of optical quality and have perfectly ground surfaces. Careless grinding of lenses and poor frames will result in positive injury from the constant strain upon the muscles of accommodation to supply defects in the glass."

If your vision does not meet the above requirement there is some defect that should have immediate attention. If you are wearing glasses, make the test with them on.

PASSENGERS WHO LIVED IN TERROR ON SINKING THESSALONIKI

Kallistratos Givas, Greek Priest, Who Prayed With Passengers.

This is a group of Greek immigrants to the United States who lived in terror for days on the steamer Thessaloniki, which was finally abandoned in the Atlantic ocean. They came in with the story that the captain of the vessel had refused aid from others when his ship was almost sinking. Kallistratos Givas, a Greek priest of Cedar Rapids, Ia., went among the immigrants and prayed when the storm was at its worst. He also helped calm them when they made threats against the captain.

Treasurer G. W. Bradley this morning received from the secretary of state a statement of the amount due Umatilla county from the state treasurer as her portion of the fees received from owners of motor vehicles. It cost \$572.19 to collect fees and issue licenses, leaving a balance of \$4307.81 coming to the county. Multnomah county paid in \$45,958, and Marion county was fourth with 4468, and Lane fifth with 4468.

29 Members Have Been Added During Revival Services

CHRISTIAN CHURCH MEETINGS CONTINUE TO DRAW LARGE AUDIENCES.

(Contributed.)
There were two more adult accessions to the Christian church last night, bringing the total number up to twenty nine. The special music consisted of a duet by Mr. Peters and Miss Nellie Anibal. Tonight the boys' chorus is to sing a special number. Mr. Hidenour will sing and also give the fifth and last reading from Sheldon's book, "In His Steps." Mr. Hubbell's sermon subject tonight will be the same as last night, "Reasons for being a Christian." Last night he said in brief:
Some people have confused Christianity and Science, and a few have gone so far as to declare that Science contradicts Christianity, but this is not true. True Science and true religion will naturally align themselves. To be sure the speculations of Science may not always agree with Christianity but that is because these speculations are not correct, when facts of Science are compared with facts in Christianity, they are found to agree. We should be very careful and not confuse the facts of Science with its speculations.

Alluding again to the uniform excellence of
BUICK CARS

WE WILL SHOW YOU, gladly, the mechanical reasons why Buick cars give such uniform satisfaction. BUT FOR PROOF that they do give this satisfaction we'd rather you'd ask any Buick owner that you know. WE KNOW what they will tell you, and because it comes from a disinterested source it will more profoundly impress you.

A JURY'S VERDICT must be unanimous, or else it carries no weight. THE VERDICT OF BUICK OWNERS is unanimous—that is why we have no hesitancy in referring you to ANY Buick owner.

BUICK CARS GIVE SATISFACTION—not just occasionally, but invariably—not merely under careful handling, but under all conditions.

PROVE THIS TO YOUR SATISFACTION, and then let us show you the "why" of Buick excellence.
