NEWS OF PENDLETON

Daughter Is Born.
A eleven and a half pound baby girl was born yesterday morning to Mr. and Mrs. Tom Robertson.

Taken to Hospital.
Mrs. Grover Traylor, wife of the local parcels post carrier, was taken to St. Anthony's hospital today to undergo an operation.

Seeds for School Kids.
County Superintendent I. E. Young today received from Senator Lane 2000 packages of garden seeds for distribution among the school children of the county.

Breeding Is Recovering.
Alex Beding, who made an unsuccessful attempt upon his own life early Saturday morning, is reported to be recovering from his wound at St. Anthony's hospital.

Will of Mrs. Tachella.
The will of Maria Wills Tachella, who died in 1905, was probated Saturday. She left an estate of \$5000 and her heirs are her husband, Peter Tachella, and two children, Guguvain McKinley Tachella and Maria C. Tachella.

Exams for Clerk and Carrier.
Competitive examinations for the position of clerk and city carrier in the local office will be conducted by the U. S. civil service in Pendleton on February 26. Information relative to requirements may be had at the postoffice.

Attending Insurance Conference.
C. E. Nelson, district manager of the Equitable Life Assurance Society, C. E. Heard, local agent, and Carl Kupers, Helix agent, went down to Portland yesterday morning to attend a meeting of the Oregon Century Club of the society.

Motor Turned Out.
The burning out of a motor in the basement of the Gritman Bros. store early yesterday morning called out the fire department on a still alarm at 5:13. No damage to the building or stock was done but the firm will have to secure a new motor.

Pleads Not Guilty.
Charles Mortimer of Weston, arrested some months ago on a charge of larceny and indicted by the last grand jury, has entered a plea of not guilty. Basil Parr, charged with the larceny of a gelding, has entered a similar plea.

Woman Evangelist in Pulpit.
Mrs. D. Willis Coffey, the evangelist who has been assisting in the services at the Methodist church, occupied the pulpit both morning and evening yesterday and there was a large attendance at each service. She will occupy the pulpit tonight also.

Cryder to Portland for 6 Wks.
W. W. Cryder, supervisor of the Umatilla forest, will leave the first week in February for Portland where he will remain for six weeks in charge of the district forester's office. District Forester Mackenzie has been detailed to Washington for that period and Mr. Cryder will take his place.

Yeggs Held as Vags.
James Morgan, Harry Carrier and George Howard, the three men arrested by the police last Friday evening and suspected of being professional yeggers, are being held in jail on vagrancy charges while the officers investigate further to learn if possible where they secured their loot.

Mexican Passes Away.
Rep. Montiel, a Mexican, died at the county hospital Saturday after a few days' illness from pneumonia. He was sent to the hospital by Dr. McFaul of this city when it was seen his condition was serious. He was employed as a laborer but nothing is known about his relatives. He was about 42 years old. The funeral was held this afternoon.

Alleges Error in Contract.
N. K. Bott has filed suit against Harriett Campbell and the other heirs of Charles Campbell, deceased, to secure a correction in a contract for the lease of land which he made with the deceased. He rented 1000 acres of land for five years and, by an error which he alleges the scrivener made in drawing up the contract, he is required to summer-fallow 500 acres and seed 500 acres in 1916 without receiving compensation. He alleges this was not the intention of the contract and claims the defendants are trying to hold him to the literal interpretation. His attorneys are Raley & Raley and W. M. Peterson.

Car Was Snowbound.
Walter Freeman, popular young barber at the Reetz shop on Alta

street, will have a photo of a snow-bound auto to send to out-of-town friends. He had Walter Bowman photograph his car in front of the city hall this morning and the picture will show that it was almost completely covered by a bank of snow. However, the bank did not come there naturally. Freeman was unable to get the car started this morning and left it standing in front of the city hall. At once certain persons, the police and firemen suspected, got shovels and proceeded to bury it, then they tacked on it a regular train schedule that used to hang in the police office. It was after 11 o'clock before Freeman was able to extricate his car.

Will Take Men Below.
Sheriff T. D. Taylor expects to leave tonight for Salem with several of the men sentenced to the penitentiary.

Dr. Ringo Going East.
Dr. and Mrs. R. E. Ringo expect to leave tomorrow for a three months eastern trip. They will go to Chicago and New York among other points and the doctor expects to take advanced work in surgery.

Ashes Thrown in Streets.
Complaint came into this office today of the practice of certain residents in throwing their ashes into the streets during the cold weather. Several punctured tires have been caused by this practice which is a violation of the city ordinance.

Entrance Is Changed.
The entrance to the office of the Hartman Abstract Co. and of the Puget Sound Warehouse Co. is being changed by workmen. The portion of the floor space which heretofore has served as an open lobby and a seltzer in the time of storm to all passersby will hereafter be included in the offices, giving the occupants considerably more room.

Judge Loses Chickens.
If the man who stole six hens and a fine Black Minorca rooster from the home of Judge Charles H. Mars a few nights ago ever comes into the judge's court he would probably be given life imprisonment. The judge has been whetting his own teeth for some time in preparation for a big chicken feast and his wrath in consequence of the theft is something fearful.

Foreigners Need License.
A shotgun was taken from an Italian at Pilot Rock Junction yesterday. The name on the man's hunting license was not the same as that by which he is known on the O. W. R. & X. time book and he will be required to show his naturalization papers in order to prove his citizenship. All foreigners who have not filed their first papers and thus declared their intention of becoming citizens of the United States must take out a \$25 gun license before purchasing firearms of any kind and it is a misdemeanor for a foreigner to have a gun in his possession either in the home, camp, or field without having such a license. Before hunting game birds or game animals he must also take out a hunters license.

PLACE FOR SPOONS.
A young man and his best girl entered a well known cafe and asked for tea for two. The waitress brought the tea, but omitted to provide them with two spoons.

A short time after she passed along for the purpose of clearing other tables, and the young man said to her: "Can we have a spoon, miss?" "Oh, certainly. I am just going, and you will have the room to your selves."—Answers.

Representative William S. Howard of Georgia is going after the banks which, according to the controller of the treasury, have charged usurious rates of interest. He wants the controller to name the banks he had in mind when the charge was first presented.

A COLONY OF CELLS.
Our bodies and the bodies of all physical life are composed of cells; man's body is a great colony of cells, each cell having its own work to do to keep the colony alive.

These body cells are among the tiniest things in nature; being, of course microscopic and about 1-4500 of an inch in size. One can scarcely imagine anything so tiny, and these cells are made of protoplasm, which is like the white of an egg.

Bones, muscles, blood, nerves and body tissue—all are made of just such cells, and they increase their number by dividing themselves. When cells become too old to divide any more they grow into the shape they are to keep.

In all plants the sap is carried to the different parts of the plant by passing on from cell to cell. A muscle cell builds muscle; a tissue cell tissue. Some cells make blood; others carry it where it is needed, and others still—the nerve cells—help transmit sensations.

All of this is most wonderful, though we knew nothing of it until something over a decade ago, when a famous German doctor named Virchow gave the wonderful world the cellular theory which substituted reason for fancy, and accuracy for speculation.

Dr. Virchow stated that he believed that all disturbances of health were due to some disturbance of the individual cells of some particular organ.

If you should hurt your arm or your foot it heals by new cells forming on the injured places and taking the place of the old ones.

New protoplasm is a strange thing, made of four natural elements—oxygen, nitrogen, hydrogen and carbon. These are called dead elements and no one of the four by itself can be alive but when they are all combined in the wonderful form called protoplasm, the combination is alive.

When our bodies die they separate in these four same elements again. The very lowest form of life we know at present is composed of only one cell. This animal is called the amoeba, and it lives in water, slugs and mud. If you should put a bit of mud or slime on a dish and look at it under a strong microscope, you would see a tiny moving mass that resembles transparent jelly, and it

A Few Suggestions for You

From the big busy store will again remind you that we can save you money on every purchase you make. Our every day prices you can always afford to pay.
