Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incum-bustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which is not completely eliminated from the system—each day, becomes food for the millions of bacteria which infect the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headaches, colds, influenza, constipation, others who wake up with head-ache, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store and begin practicing internal sanitation. This will cost very little but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

Hogs Reach \$7.60 in Portland Yards With Market Firm

(Courtesy The Journal.)
PORTLAND, Ore.—Hogs were advanced in the North Portland market as expected, and in fact, forecast on Saturday. There was a further decrease in offering as compared with the previous Monday's run, and this had a good effect upon the situation generally. Some sales were made early at \$7.50 for tops, or a little above the previous extreme, but hogs in some instances were asking more money. Later sales were made at \$7.55 to \$7.60.

General hog market range:
Choice light weights.....\$7.50 to \$7.55
Good light weights.....7.30 to 7.40
Medium weights.....7.15 to 7.25
Rough and heavy.....6.00 to 6.50

Cattle Situation Quiet.
While there was a more liberal run of cattle in the yards over Sunday than for the same period a week ago the situation was just about steady; in fact, some indications of weakness were noted. Early in the day some pulp fed steers sold at \$7.50, but for selected quality holders were asking 10 to 15c above this. A sale of a good bunch of pulp fed cows was made at 16.25.

General cattle market range:
Choice pulp fed steers.....7.50
Choice grain fed steers.....7.40 to 7.50
Ordinary grain fed steers.....7.10 to 7.30
Choice hay fed steers.....7.25 to 7.35
Good steers.....6.75 to 6.90
Ordinary to common steers.....6.00 to 6.50
Choice cows.....6.25 to 6.35
Ordinary to common cows.....5.50 to 6.00
Choice heifers.....6.25
Ordinary to good heifers.....4.00 to 5.75
Choice bulls.....3.75 to 4.50
Good to fair bulls.....3.00 to 3.50
Ordinary to common bulls.....2.00 to 2.75
Best light calves.....8.00
Good calves.....7.00 to 7.50

Mutton Run Limited.
It was a very limited run of mutton and lambs that started the sheep trade in the face of the opening of the week trading at North Portland.

General trade conditions are naturally very strong; in fact so little is available prices are scarcely given a test.

General mutton and lamb range:
Choice weight lambs.....8.50

Good to common lambs.....5.00 to 6.25
Poor to fair lambs.....4.50 to 5.25
Choice yearling wethers.....7.50 to 7.75
Good to common yearlings.....6.75 to 7.00
Old wethers.....6.25 to 6.50
Choice light ewes.....6.50 to 6.75
Good to common ewes.....6.00 to 6.25

WILL PROVE ENVIRONMENT THEORY

FUJI ADAMSON.

PHILADELPHIA, Jan. 21.—Mrs. William P. Boulder, Adamson, wife of a wealthy manufacturer, who lives in the exclusive Villanova section on the main line, has a theory that environment is stronger than heredity and is attempting to prove it with a wee Japanese tot which she has adopted. Little Fuji Adamson is but four years of age and was born at Stoke Hall, the Adamson estate, where her father was a gardener. Her own father and mother have bought a little farm in New Jersey. Fuji knows no other parents but Mr. and Mrs. Adamson and it is expected she will remain with them until her twenty-first birthday, when she will be allowed to choose her own life.
