### Searching for son.

### Schools Resume Work.

### Minor in Pool Hall Fined.

For misrepresenting his age, an 18-year-old youth whose name is withheld and who was found yesterday by Chief of Police Gurdane playing cards in the Round-up Pool Hall was arrested and this morning, upon his plea of guilty, was fined \$10 in police court. Jay Moser, proprietor of the pool hall, was fined \$20, Judge Fitz Gerald taking the position that the fact that the young man had represented himself as over 21 did not excuse the proprietor under the ordinance. The boy's father made the complaint.

### Drops Headon in Snowdrift.

Milton is not the only city in the county that can spring a story about a man buried in a snowdrift. Thanks to Bill Lane and a slippery roof, Pendleton has such a story right at home. Yesterday Bill, who tops the scales around 250, climbed upon the roof of his paint shop to clean off the snow. A slip, a loss of his equilibrium and Bill did an acrobatic backward half-flip off the roof, diving into a pile of snow. His father heard the noise and went out to discover only his son's boots about the snow.

There are now 11 visiting Indians, 15 adults and six children, in attendance at the special services being held at Tutuilla. Most of them are from the Nez Perce reservation. ### Cleaning Out Gutters.

The street committee has a gang of shovelers at work today keeping the gutters clear so that the melting snow may run off. The necessity of this is emphasized by the fact that, within a short time after a gutter clogs, the water is over the curb and onto the walk.

### Takes Local Position.

Will Lowell, son of Judge and Mrs. S. A. Lowell, arrived this morning from Boise, to take a position on a local newspaper. Mr. Lowell for the past few years has been on the staff of the Boise Statesman. His wife, who is a niece of Mrs. James A. Fee, will join him as soon as he can find a house.

### Enjoy sport of skiing.

A number of Pendleton young men yesterday built skills and enjoyed the sensation of sliding down hill on two long, narrow planks. Some of them were able to remain upright during their descent and others left their imprints on the snow. The south Main street hill was used principally by the skill men.

### Habeas Corpus Hearing Delayed.

The habeas corpus proceedings brought to secure the liberation of the three alleged seamen arrested here recently, have been again held upon account of train delays. This morning Sheriff T. D. Taylor made a further showing as to his reasons and authority for holding the men, among other things the warrant issued for the men in Idaho. Judge Phelps continued the hearing until Friday morning.

### Committee Making Plans.

ST. LOUIS, Feb. 7.—The committee, arranging for the democratic national convention in June, meets here tomorrow. Stone is being boomed for temporary chairman. ## MANY MINISTERS ARE AT TUTUILLA CAMP MEETING

### SOCIAL COMMITTEE ARRANGES SOCIAL PROGRAM FOR NEXT TUESDAY.

The following ministers and visitors have registered at the Tutuilla campmeeting. Rev. Wm. Wheeler, Okonaha, Ida.; Rev. Moses Moneth Kamiah, Ida.; Rev. E. J. Connor, Lapwai, Ida.; Rev. James Hayes, Kamiah, Ida.; Rev. J. G. Dickson, Sutes, Ida. From other places in Idaho these men and women: Mr. and Mrs. Johnny Frank and daughter, Willie Moody, John Walker, J. W. Martin, Starr J. Maxwell, Helen Isaac, Ellen Jackson, Mary Johnson, Mrs. John Allen, Charlotte Hines, Matilda Levi and daughter, Mary Outman, Lucy D. Williams, Julia Sturgis and daughter Rose, Annie Monteith, Helen Moffett. The meetings are well under way and the three feet or more of snow has been no damper whatever to the interest and enthusiasm as most of the congregation and many friends from the local reservation are living at the church in the houses that they have built for such purposes. The visiting ministers preach in a rotary system method that has been their custom for many years in such meetings. One minister conducts the meeting as chairman and another does the preaching and exhorting for that service. The arrangement and order of ministers is in the hands of the minister or moderator of the church where the meeting is being held. Besides the regular evangelistic services special meetings in the interest of temperance and Christian Endeavor work will be held. The social committee of the Endeavor society will give a social Tuesday afternoon (of the 8th) to which all are invited. A short program will be rendered after which light refreshments will be served. The program of the social follows:

## Fund is Raised Here For Relief of War Sufferers

### MONEY WILL BE USED TO HELP JEWISH PEOPLE AFFECTED BY THE WAR.

A fund of \$104.73, raised yesterday at the services held at the Presbyterian church, was dispatched today to Rabbi Wise who is in charge of the state fund being raised for the relief of the Jewish sufferers in Europe. Of the total \$64.50 was raised by R. Alexander prior to the services and the balance at the church. Others have been contributing today. The services yesterday morning were well attended despite the weather, many local and visiting Jews being in the congregation. Rev. J. E. Snyder preached a powerful sermon upon the subject, "What Christianity Owes to the Jews."

He reviewed the history of the Jewish people back into the ages and showed their rich heritage, not only to Christianity but to all civilization. Seldom has the Jew asked help from the people of other religions, said the speaker, but often has he contributed richly to charity, regardless of the religious beliefs of the sufferers. Rev. Snyder made a strong appeal to all to contribute toward saving the desolated Jews of war-stricken Europe.

that height under the influence of the fast-melting snows, it would get into many of the docks and would result in much damage to property.

All that government weather officials were able to predict last night was that the rise of the river would depend entirely on weather conditions of the next few days. They were certain the river would rise but could not tell how rapidly.

Several Days' Respite Ahead. It will probably be several days before the full effects of the flood water up the valley will have much effect in swelling the stream here and it will all depend on weather conditions between now and that time whether the water will reach a dangerous or disastrous level.

Portland has not had a disastrous flood since the Winter of 1911-12 on January 16, 1912, the water registered 17.5 feet. Many docks were flooded and great damage was reported to property stored in docks and warehouses along the river.

The river has not reached a dangerous stage at any period this winter. It was over 13 feet at one period early in the winter and for a time threatened to reach the danger mark, retreating, however, as rapidly as it came up.
