### ABOUT 300,000 BABIES DIE BEFORE ONE YEAR

The Census Bureau estimates that 300,000 babies died in this country last year before the age of one year, and it is stated that one-half of these deaths were needless if all mothers were strong and infants were breast-fed.

Expectant mothers should strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No alcohol, Everydrugist has it. Insist on Scott's—the white-fish-oil medicine. No advanced prices. Scott & Bowne, Bloomfield, N. J.

### CHINA PHEASANTS AT HERMISTON REPORTED ENDANGERING TREES

BIRDS ARE SAID TO BE EATING THE YOUNG BUDS IN THE ORCHARDS.

Flocks of them roost in the fruit trees despite fact that farmers have been feeding the birds all winter—quail have suffered much from severe storm.

(Special Correspondence.)

HERMISTON, Ore., Feb. 8.—China Pheasants, in the eastern end of the project, are causing considerable damage to the orchards by eating the new buds from fruit trees. Even though the farmers of this section have been feeding and housing the birds, flocks of them may be seen, in many instances, roosting in the fruit trees and their claws are filled with fruit buds.

Quail have suffered greater than any of the birds in this section. Reports from outlying districts every day tell of numbers of quail found dead along the roadside. In cases where there is an open stack of wheat or rice straw great flocks of them are congregated and taring well through the long winter.

It is believed that the menace to the farmer from the jackrabbit will be comparatively small this new year. Hundreds of them have been found along roadways and trails, especially on the west side of the river where there is little foliage. The successful poison campaigns which were waged on them and the club and gun drives have greatly reduced the rabbits of this section.

However, tons of alfalfa hay have been eaten from the lower part of the stacks. In cases they have eaten back six feet and higher than a foot. In these places poisoning has been impossible, owing to the stock being fed in the fields.

In the Umatilla river, three miles below this city thousands of ducks have made their winter stopping place. During the severe weather they kept a small area above the diversion dam open. The flocks consisted of black mallards against the background of snow.

The stamp placed over and under the package, which keeps out air, thereby preserving the quality of the blended tobacco. By inserting the fingers as illustrated, the stamp is broken without tearing the tin foil, which folds back into its place.

### FRENCH BILLIARDIST CHALLENGES HOPPE FOR WORLD'S TITLE

NEW YORK, Feb. 8.—Through the Brunswick-Balke-Comander Company, Firmin Cassinard has challenged Willie Hoppe to play for the world's billiard championship. Cassinard is willing to play either 14.1 or 14.2 style, both titles being held by Hoppe. As the present time Willie is somewhere in the west giving exhibition matches.

In commenting on the prospect of the Frenchman against Hoppe, one of the billiard experts remarked that while Cassinard is one of the best players in the world when he is playing the game for fun, his temperament is such that he would be fairly easy for Hoppe playing for money. The challenge Cassinard has sent is as follows:

"I herewith wish to challenge Willie Hoppe for the championship of the world at 14.1 or 14.2 ballgame style of billiards. The time and place of holding said match, as well as all other details, to be mutually agreed upon. Inclosed please find check for \$100 which I put as forfeit

### K C Gold Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine. 1 cup butter; 1 cup sugar; yolks of 4 eggs, beaten light; 1 cup flour; level 2 level tablespoonsful; 2 level teaspoonfuls K C Baking Powder; 1 cup milk; grated rind of 1 orange.

Sift flour and baking powder together three times; cream butter and sugar, beat yolks of eggs, add these to creamed mixture, and lastly add the moisture and flour alternately, beating batter until smooth. Gold Cake can only be made successfully by beating yolks of eggs, very, very creamy and light lemon colored, using a rotary beater. The rotary beater is the only beater that will do justice to the yolks of eggs. The beating kills all egg taste and improves the texture of the cake.

Cocoanut Frosting Beat the whites of 2 eggs dry; gradually add in half a cup of sifted confectioner's sugar and continue the beating until the frosting is smooth, thick and glossy; then beat in grated cocoanut, fresh or prepared, and spread upon the cake. This frosting is made thick by beating rather than by sugar. Save this recipe. You will want to use it frequently. Or better, send us the colored certificate packed in each 25-cent can of K C Baking Powder and we will mail you "The Cook's Book" containing this and 89 other baking recipes equally good—all by Mrs. Hill. Jan. 25. Mfg. Co., Chicago.
