DEFEAT OF LOCALS IS A SURPRISE TO LA GRANDE PLAYERS

OPPONENTS GET LEAD AT START AND MAINPAIN IT THROUGH-OUT THE GAME.

Speaking of the Pendleton-La Grande basketball game in La Grande Thursday evening the La Grande observer of yesterday says in part as follows:

"La Grande high surprised even her most rabid supporters last night and defeated Pendleton high in basketball—a trick rarely turned by the visitors of the blue and white. Final score, 23-21. La Grande took a snort at the start and kept it throughout the margin of her lead slightly in the second half but being never pushed hard for the foremost position. As a representation of the interior sport it was probably as good as the high school gym floor has ever had played on it. The plays were fast and furious on both sides and while both teams got up some pretty good points, the home boys, however, manifested just the tactics bested both at combination play and with accuracy in hitting the basket. Jones, Rosenbaum's ability to give the ball on one throw was in a large measure responsible for the victory. Peterson scored 26 points on La Grande and of this even one score. Foster contributed nine points as compared to Rosenbaum's stellar performance of making 12 points out of 15 trials—something of a performance indeed. "Crackie" McDonald was one of the line-up and though a covek a substitute did valiant work both on the floor and in throwing baskets, the absence of the bulky forward hurt La Grande's chances considerably. With the tall shooter in the lineup La Grande should win as decisively in Pendleton a week from tonight as she did last evening.

"The audience was the largest of the season and was screaming under the excitement all the while. With the terrific speed developed on both sides, roughness was prone to crop out but there was little intentional rough play. Referee Peterson banishing Adcock for a display of temper late in the game. Albert Pendleton complained against Peterson's work, the fact remains Pendleton has the long end of the deal in number called, and the old veteran doesn't seem to waste any sleep over his decisions—he was pre-eminently fair. The matter was not only Pendleton but all teams that play under his refereeing is that he sees just about all that goes on which a referee as a 'size fender.' It is that faultily coupled with his firmness and fearlessness in calling them that has made Peterson the ideal referee that he is."

Foster made 12 points for Pendleton (Bollen, 4, Hubert and Gardner each 2).

Score Held Up in Saloon.

PHILADELPHIA, Feb. 18.—Two masked men, for whom the police of the entire city are now searching, held up a score of patrons in the saloon of E. R. Van Hook, at 427 East Clearfield street, rifled the cash drawer and made their escape, with \$75, after shooting Harry Biehl, an employe of Van Hook, through the thigh. The holdup was most daring. The customers, 28 in number, were lined up along the bar when the front doors of the place swung open and the bartender quickly vanished from sight. The patrons turned around to find themselves looking into a pair of revolvers held by two men, whose faces were concealed by black cloth masks. The robbers backed the crowd against the wall and threatened to shoot the first one who moved. Then one of them went through the pockets of the customers while the other searched them with two guns. Biehl was shot underwriting his escape from the saloon. He was taken to the Jefferson Hospital.

PLUG CHEWING A WHOLESOME HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

"SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco.

"I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of all the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form."

"Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I choose Spear Head because I have found that this brand is exceptionally pure, being made in a factory that's run strictly according to pure-food rules."

Spear Head is made of sun-ripened Burley, which is acknowledged to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and luscious flavor of the choice Burley to the supreme degree.

A chew of Spear Head has a wholesome refresh that is not found in any other chewing tobacco. In 10c cuts, wrapped in wax paper.
