

# SWITCH ON THE LIGHT!

There are a lot of things about the coffee business that the public doesn't know.

There are a lot of coffees of the "ten-karat" variety masquerading as the "eighteen-karat" kind.

There can be no better coffee than—

## Royal Club Super-Quality Coffee

It sells regularly at 40c. No "first quality" coffee should sell for more.

There might be times when a higher price would be justified—but not now.

"Green coffee" prices fluctuate just as does sugar or flour and any other staples. Due to a decreased demand in Europe, coffee has been "down" for a whole year past. During part of this time the "best" coffee could be retailed, with a reasonable profit, at 35c in the home market and 40c in distant markets. During that time we sold **ROYAL CLUB** at the reduced price. Recently prices have advanced—the regular price of **ROYAL CLUB** is now 40c, and it's worth it.

The coffee roaster who maintained a price of 40c to 45c, during this "low market" period, charged you too much—he robbed the public of thousands of dollars. They were entitled to share in this saving just as they do on sugar and flour and other staples.

The Coffee Roaster who charges you an unreasonable price fifty-one weeks out of the year, for coffee no better than **ROYAL CLUB**, and then reduces his price for one week to what it should have been all the year does not deserve your patronage.

We will challenge all competition. **ROYAL CLUB** has no equal in quality or price. We will not be undersold—no, not for a single day.

We will allow no "outside" coffee roaster to unload his surplus stock on the unsuspecting public at what he claims to be a marvelous reduction.

For two weeks you may buy **ROYAL CLUB** at reduced prices to meet all competition. Buy it in any quantity at these prices. You know it is the best that money can buy. You know it is fresh—for it's roasted daily in Portland and delivered to your grocer in small quantities just as he needs it. You can be certain that it has not lost its strength in warehouses or in transit.

### LAST OF ROCK IS LAID ON MILTON END OF NEW ROAD

MACADAM HIGHWAY FROM PENDLETON IS NOW NEARING COMPLETION.

Last Monday the last of the rock was laid on the Milton end of the Weston-Milton stretch of the macadam road from Pendleton. This would have been completed last fall but for several delays due to bad weather. Then, the exceptionally heavy winter made it impossible to do any work until a couple of weeks ago, and construction has been pushed as rapidly as possible since that time.

When the remaining part of the Weston-Milton stretch of the road, about a mile and a half, is completed, there will be continuous macadam from Pendleton, Oregon, to Wabburg, Washington. Construction is under way between Wabburg and Dayton, Washington, and will soon be from Pendleton to Pilot Rock Junction, and it is hoped that it will be only a matter of a few years until there will be continuous macadam or hard surfaced roads from Spokane through the great Panose country, through Walla Walla, Milton, Pendleton, and down the Columbia to connect with the Columbia highway. Good roads from Walla Walla to the Columbia and from Pendleton to the Columbia are practically assured within the next two or three years.—Milton Eagle.
