SOCIAL AND PERSONAL

Mr. and Mrs. C. S. Jackson celebrated their 20th wedding anniversary last night, by entertaining with a banquet at their home, followed by an evening of impromptu entertainment. Their guests were old time friends from eastern Oregon, who passed several days with the Jacksons as house guests.

The table decorations and appointments were unusually artistic and novel; a large vase filled with exquisite pink Ophelia roses was surrounded with smaller vases containing buds of the Ophelia roses, this in turn being circled by a wreath of coral, sage bouquets of pink buds, pink sweet peas and lilies of the valley. Each bouquet was tied to a pink ribbon, extending to the places, and as the guests pulled their ribbons they captured one of the dainty bouquets. Covers were placed for Mr. and Mrs. F. E. Judd, Mr. and Mrs. C. E. Roosevelt, Mr. and Mrs. J. F. Robinson, Dr. and Mrs. F. W. Vincent, Mr. and Mrs. Leon Cohen, Miss Nova Lane, Mr. and Mrs. H. F. Jackson, Mr. and

Mrs. T. C. Taylor and the celebrants. Mr. and Mrs. Jackson will further entertain their guests during their visit here with a theater party tonight, motor trips and dinner at the Crown Point Chalet to be included in the program of festivities—Portland Oregonian.

ROADS IN MULTNOMAH COUNTY HOLD UP WELL

J. F. ROBINSON, INVESTIGATING PAVING, IMPRESSED BY WHAT HE SEES.

President J. F. Robinson of Multnomah County Good Roads Association who is now in Portland looking over the road situation down here has the following to say regarding the hard-surface roads of Multnomah county: "By virtue of its recent bond issue, Multnomah county ward surfaced in the most permanent way 40 miles of main trunk roads. Despite the stress of weather of the past two months, when unusual conditions prevailed, Multnomah's trunk roads are in splendid condition. Not only were the roads open for all sorts of traffic throughout the heaviest weather of the winter but the damage they sustained is trifling.

Roadmaster Yeon estimates after going over the various trunk lines that all slides that came down during the heavy storms on the Columbia river highway and the other hard surfaced roads of the county can be removed at a cost not to exceed \$200. Nor is this all. The roads permanently improved were of such substantial construction that not a fill settled, there was no washing away of earth from beneath the hard surfaces anywhere and at no point were streams of water running over the road because careful attention had been given to prevent just such a contingency and drainage was perfect.

This is indeed a high tribute to Roadmaster Yeon and his construction forces who had an eye single to permanent work that should serve the future. Under old conditions, miles of earth and macadam roads would have been impassable for weeks following the severe weather of the winter. Repairs would have amounted to a considerable sum, on top of which would have been added the annual maintenance charge of \$1000 per mile, which is in addition to the first cost of the roads.

"Hard surface main trunk high-

ways not only increase the comfort and well being of the public generally by a percentage hard to estimate but certainly running in to the hundreds, but it is also good business, certain to appeal to the man who figures the annual cost of maintaining the old roads, which at their best were but indifferent transportation mediums as contrasted with the new and perfect highways running throughout the county.

"Almost the whole interest charge on the county's bond issue was saved in the difference in the cost of maintenance. Besides, the public had the enjoyment and use of perfect roads during that time."
