### Splendid Laxative for Elderly People

HAS BEEN PRESCRIBED BY WELL-KNOWN PHYSICIAN FOR MANY YEARS.

The infirmities of age are especially manifest in a tendency to constipation, and call for treatment that will afford relief in an easy, natural manner. The rapid action of cathartic remedies and purgatives that shock the system should be avoided, more especially as the relief they offer is only temporary and is usually more than offset by disturbance to the vital organs caused by their violent action.

Nearly thirty years ago Dr. W. B. Caldwell, Monticello, Ill., prescribed a compound of simple laxative herbs that has since become the standard household remedy in thousands of homes. It acts easily and gently, yet with positive effect, without griping or other pain or discomfort. Mrs. Rachel Allen, Galesburg, Kans., is seventy-one years old, and after using a bottle of Dr. Caldwell's Syrup Pepsin, wrote that it had done her a world of good and that she intends to keep it in the house always.

MRS. RACHEL ALLEN

Druggists sell Dr. Caldwell's Syrup Pepsin for fifty cents a bottle. It is a splendid remedy, and should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 214 Washington St., Monticello, Ill.

The Fallacy of Paraffine Base: Eastern oil manufacturers have long extolled the superior virtues of paraffine-base motor oils. But Pacific Coast motorists have proved that Zerolene, made from selected California crude, asphalt-base, gave best results. Their experience is now supported by the testimony of international experts. Lieut. Bryan stated before the Am. Soc. of Naval Engineers: "Oils made from the asphalt-base crudes have shown themselves better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene received highest competitive awards, San Francisco and San Diego Expositions. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

### HIGH SCHOOL NOTES

A vote will be taken this afternoon at the high school to decide the changing of the school hours. Two plans will be submitted. One is to take up school at eight o'clock and go through the eight sessions without the noon hour; the other places six periods before noon and two after noon.

By doing either way the students hope to avoid study during the warm afternoons. Besides this, several students who work their way through high school would be able to secure a better paying job, as several local business men want help from among the students.

The annual high school athletic carnival will be held on Friday night, March 24. Wilbur Badley who has charge of the program is working hard to make it a big success for the school.

All classes of sports will be put on, such as rope climbing, boxing, wrestling and basketball shooting.
