Interesting Program of Entertainment Is Given; Refreshments Served and Men on Duty Are Furnished Nice Lunch; 4th of April of Its Kind at the New Town.

(East Oregonian Special.) PILOT ROCK JUNCTION, Ore. March 24.—Do we know our neighbor now? We certainly do since the get acquainted social held at the school house Monday night, the first social function in the history of our existence in this lively little city. The almanac was not consulted in selecting the date and as a result the equinoctial semi-annual storm came near being disastrous to the occasion, but nevertheless, a good crowd assembled and proceeded to make merry with music and speeches, followed by the "eats," and more talk. Just a few notes of what we learned might make some of those sorry that could not be there.

Mrs. Radd can play the violin and produce a beautiful strain for the whole crowd to sing by. R. D. Bunnell can guess the exact number of peanuts in a bag without looking. Mayor Laine can talk better and with more ease to individual ladies than to a whole crowd, although he told us very plainly and humorously what the future needs of our city were.

Rudd's dog got loose several times and came near biting several persons. Geo. Geanakopolis says he is going to commence selling lots soon and make this a big city right away. The work of the domestic science class on display was very much admired, especially by the gentlemen present.

Plenty of eats for all and those working nights and unable to be present were remembered with a beautiful midnight lunch.

Mr. Harrison can skip the rope in regular exhibition style and put the younger set on the blink. In conclusion, a vote of thanks was extended to the school board for their generosity in permitting the use of the school house.

To Miss Cain for the entertaining music furnished with his graphophone and Gray Bros. Grocery Co. for the liberal donation of coffee.

To Mr. Caldwell and Mr. Harrison for a liberal supply of cream to flavor the other goodthings with.

At a late hour the good night song closed the first but by no means the last of the social affairs of our city.

Foreman G. M. Ring with his gang of carpenters, has been busy engaged in putting new roof coverings on the various box cars used as living quarters and none too soon as was proven during the rain of the past few days.

They wish to notify all the farmers or users of combined harvesters to call and see them, with reference to what they may need for the coming season's use, the sample machine is set up and ready for operation and can be operated to show the working points and all advantages of this wonderful gas combined Side Hill Harvester.

The machines are made Side Hill and Standard. The Side Hill is of one size—30 in. cylinder, 42 1/2 in. separator, with 40 h. p. engine. The three standard rigs are of three different sizes, 30 in. cylinder, 42 1/2 separator, 40 h. p. engine; 35 in. cylinder, 48 1/2 separator, 45 h. p. engine; 40 in. cylinder, 54 1/2 separator, 50 h. p. engine, therefore, before placing your orders for any other make of machine, do not overlook the opportunity of seeing one of the strongest and best built combined harvesters on the Pacific Coast.

NEW YORK, March 23.—Orders were received by the United States depot quartermaster here for 125 water purifiers to equip the American troops in their campaign against Villa in Mexico. Mix the Breakfast Biscuits the Night Before—

Set Them Away in a Cool Place and Bake them Fresh in the Morning

If the family do not all eat breakfast together, you can bake a few at a time. If you are having hot biscuits for supper, mix and cut out enough more for breakfast. They will be much nicer freshly baked than warmed over.

Of course you can't do this very successfully with sour milk and soda or with any of the old-fashioned, single acting baking powders, but this convenient way of making hot biscuits and muffins for breakfast is entirely satisfactory if you use

KC BAKING POWDER
