John Maloney, of St. Rita's Catholic Club, Philadelphia, took the first prize in the featherweight class; John Karpenski, of the Cleveland Athletic club, won in the middleweight class, and William Spangler, of the Union Settlement, New York, gained the first honors in the heavyweight class in Norway. Maloney and Karpenski won the Danish championships.

The most remarkable fire recorded in Minnesota was that which burned out the entire interior of a Thier riveted out, leaving the exterior under Falls home the other day and then scorched, a phenomenon which theorists who overlook one trifling property of flame explain by declaring that frost had hermetically sealed the walls and cut off all fresh supplies of oxygen.

Does Newspaper Advertising Pay?

A large paint manufacturer asked this question of retailers throughout the country:

NO. 3 SAID:
"I believe that advertising in the local paper brings new customers into my store and that it keeps the old ones trading here. I do not trace any per cent. of sales directly to this kind of advertising."

"I know that everything that I put in the paper is read, as I have the people tell me about it. I do know that I bought almost as much paint in 1915 as in the two years previous, and that I did much more advertising in the paper in 1915."
