

# GIVING SERVICE

You hear a good deal about "service" in business these days. It's something you want, of course.

But what service means to you, in the case of any given business, depends entirely on what it means to men in that business.

We'd like to have you know what it means to us in this great business.

It means having goods that you can depend on to be full value for what you pay for them.

It means your satisfaction guaranteed; your money back or other goods in exchange, as you prefer, for anything we sell that isn't wholly satisfactory.

It means giving our best knowledge, experience, our time and thought, to supplying your needs, according to your wishes; not what we want, but what you want.

It means being glad to see you, and show you what you want to look at, as cheerfully when you don't buy as when you do.
