

# A Mistake!

A great many people think they can not pay cash. This is a mistake. When you pay cash you are entitled to the savings in cash, and saving money is what we are all trying to do. When you say you CAN'T pay cash you admit you can't save any money, and it's a fact you can not get ahead very far on the old out-of-date credit system. The people that have ready money to buy with, are the ones that have bought their goods for cash.

## Thankful For Relief Remedy Brought Her

SAYS FRUITOLA AND TRAXO POSSESS ALL THE MERIT THAT IS CLAIMED FOR IT.

After completing the necessary treatment, Mrs. S. S. Cole, Lampass, Texas, was so well pleased with the results that she wrote the Plus laboratories as follows: "Fruitola and Traxo are all you claim. It removed a quantity of gall-stones and I feel sure it saved my life. I am well now and thankful to you for the great good your medicine has done me.

Fruitola is a powerful lubricant for the intestinal organs and one dose is usually sufficient to clearly demonstrate its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering and expels the accumulated waste to the great relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to regulate and restore the system that has become weakened and run down from constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

Fruitola and Traxo are prepared in the Plus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Pendleton they can be obtained at Tallman & Company, 623 Main street.

## The Weakly Bulldogger

MONDAY, APRIL 17, 1916.

The Ultimate Consumer Pays the Bill. Councilman Phelps last Wednesday recommended that the city require a fee for issuing building permits.

"What's the use?" said Councilman Murphy. "The contractor will just add that much to his bill."

A little later Councilman Penland recommended that the council appropriate \$100 for installing lights on the hospital driveway and that the additional \$40 necessary be contributed by the doctors who use the drive more than anyone else.

"What's the use?" said Councilman Phelps. "The doctors will just add that much to their bills."

#### Not So.

Recently County Judge C. H. Marsh received two letters from the same man and both were addressed to the "County Jug." We wonder if that was meant as a reflection upon his capacity.

#### No Objection at All.

An automobilist recently wrote to the Pendleton Commercial association as follows:

"Dear Sirs—I am writing to know whether I can go from Pendleton to La Grande by auto?"

Assistant Secretary Kirkpatrick indicated the following answer:

"Dear Sir—Answering your recent letter beg leave to advise that you have our full and free permission."

However, on second consideration he didn't send it.

#### WILSON BANQUET.

(Continued from page one.)

esta grew with unparalleled rapidity, and the sea was dotted with these white winged messengers of peace, bearing the rich fruits of our fields and factories, and spreading the gospel of American liberty and standards throughout the world.

"During 50 years of so-called republican rule, our ships have not been driven from the seas. We have not had sufficient ships to carry our own goods to market. I say this to our shame and disgrace.

"What benefit will our bountiful crops be if we cannot sell them to the people who need them, now more than ever?"

"We cannot ship in foreign vessels belonging to the warring powers, because of liability to confiscation and capture.

"Let me cite a few facts as an illustration:

"In 1912 we were carrying a smaller percentage of our products to foreign shores in our own vessels than we were when the government was established in 1789.

"In 1913, 80 American vessels cleared from American ports for Europe, while 4636 foreign vessels cleared.

Senator Weeks of Massachusetts, candidate for the republican nomination for the presidency, said in an address at a luncheon in Chicago, on November 15, 1915:

"There is a universal agreement that some action should be taken which will build up our merchant marine engaged in foreign trade.

"We are paying to steamship lines owned in other countries, \$300,000,000 a year for the purpose of transporting our products to market.

"If it were not for the supremacy of the English and French navies we would have been unable to deliver a part of our products which we have sold to Europe during the past year.

"Yet in the face of these startling facts, a leading United States senator, now seeking the republican nomination for the presidency led the filibustering which resulted in the defeat of the measure designed to increase our merchant marine.

reading "The Battle Cry of Peace" stretched across Main street to advertise the big picture which he has booked. A leading citizen spotted it and asked what it meant. "It's to advertise a feature film," answered another citizen. Said the first, "I thought perhaps it was advertising the Woodrow Wilson banquet tonight."

#### So Would We.

Judge Fitz Gerald says if he were ever able to read his own signature he would know it was a forgery.

#### Echo Answers Why.

Od Teel of Echo has registered as a Whig which seems to us to furnish justification for men calling him Od.

#### Heard at the Ball Game.

It was in the eighth inning yesterday and a Weston runner was on first.

"Why don't you steal?" yelled a Pendleton roofer.

"He comes from a town where they don't steal," answered a man from the Weston bench.

"That's the reason you haven't got anything," sang back the local man.

#### Registered Women.

"Are you registered?" asked the candidate of Mrs. ——— this morning on the street.

"Sir, how dare you class me with animals?" replied the woman indignantly.

#### Federal Reserve Act.

"Since the passage of the federal reserve act, there is no danger of another panic in this country.

Under the old system a few men, by interlocking directorates, absolutely controlled the entire money system of the United States. Through their banks, they were directing the monetary policies of this country. Indeed, this money trust had become more powerful than the federal government itself.

"Even in a time of profound peace and prosperity, a handful of men could create a panic over night and spread ruin and disaster from Maine to California. Between the rising and setting of the sun this could be done.

New York City was the seat of financial government. From Wall street, as from a throne, the kings of money wielded their despotic power and ruled the land with an iron hand. These facts were substantiated by sworn testimony brought out by the investigation of the money trust by the democratic congress. This testimony showed:

"That 18 financial institutions in New York, Chicago and Boston have a voice in the management of 134 corporations with an aggregate capital of 26 billion dollars.

"That these 18 institutions have 188 partners who hold 325 directorships in 41 banks having deposits of \$2,835,000,000.

"That they hold 50 directorships in 11 insurance companies with total assets of \$2,645,000,000.

"That they hold 155 directorships in 31 different railroad systems capitalized for over \$12,000,000,000.

"One banking firm in New York controls, directly and indirectly, over \$11,000,000 of wealth. This is more than the wealth of 11 southern states.

Our system of finance permitted these things to be done. The sole purpose of all this organization, concentration and combination was to control credit and thereby control the money. Imagine the power of 180 men binding themselves together, pledging themselves to no one and responsible to no one, controlling to

# ALEXANDERS

a very great extent, if you please, the bread and butter of 95,000,000 of people.

"Under the old financial system of the United States, Morgan, Rockefeller and a few other great financiers exercised control over \$40,000,000,000 of wealth, or one third the entire wealth of the United States.

"It devolved upon a democratic administration to redeem the situation by the passage of what is known as the federal reserve act. This is conceded to be the most constructive piece of financial legislation that ever passed an American congress. It provides for an elastic currency to be issued upon the security of commercial paper. It provides for a federal reserve board empowered to fix discount rates. It inaugurates a system under which we began banking business with millions of capital directed by the government itself. It ushers in a new era of financial freedom, and makes impossible another artificial panic.

#### International Affairs.

Under the wise and sane leadership of President Wilson, reforms have been instituted which the people have demanded for two decades and more, and for which heretofore they have appealed in vain. I have tried in a general way to outline the great changes that have been accomplished, but the review would not be complete without a survey of the resident's position as it relates to the chaotic condition of international affairs.

"This nation has never had a president whose ideals have been higher, or who has been actuated by loftier impulses than Mr. Wilson. None has had a deeper conception of American nationalism—a more conscientious regard for the sacred rights of humanity. That has been his guiding star in the conduct of affairs at home and abroad. He has placed clearly before the American people, as no president since Lincoln has done, their duties and responsibilities as citizens; and in his dealings with the nations involved in war, he has shown that what applies to the individual should, with equal force, apply to nations in their dealings one with the other.

No president has been so burdened with the cares of state, or has been called upon to solve such perplexing problems affecting the welfare and prosperity of the people—the very existence of the nation and the maintenance of its sovereign position, preserving peace.

With more than half the civilized world war-crazed, through the clash of arms unprecedented in the history of mankind—when international law has been ruthlessly overthrown, and the contempt for human rights and the laws of both God and man has been marked, Mr. Wilson has not been swayed from the right. He has kept his poise and has been the one outstanding figure to urge the rule of reason and of humanity. No one has been able to force him into a step which would violate the declared neutrality of this country. He has been guided by an inborn instinct of justice and right, and this has been the secret of his dignified and firm courage.

#### Defends American Rights.

At times of jingo counsel and bitter partisan attack, he has deliberately investigated, and when once his course was made clear, he has pursued it, and the dignity and honor of the nation have been preserved without resort to arms. He has succeeded by peaceful means in maintaining American rights and privileges, and today in Europe he is recognized as the foremost figure in the world.

As a result of his firm stand, we are at peace with ourselves and the world, while the continent of Europe is torn asunder, and the carnage of war is resulting in the greatest slaughter in the history of the human family.

diplomacy and appeals to humanity are settling great international questions, and they will be the guideposts for the maddened monarchs in

the European struggle when peace is finally restored. President Wilson has won more victories by peaceful methods than all the generals engaged in the war will win on the field of battle.

His will be the glory of achievement for unselfish ends, and his name will illuminate the pages of world history when the names of the men responsible for this bloody conflict shall have been forgotten."

### Give your Child

## Dr. King's New Discovery for Coughs and Colds.

Dr. King's New Discovery is a Doctor's Prescription used for over 45 years. It is pleasant and children like it.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation.

"I have used Dr. King's New Discovery for the past three years and use it continually in my family. My children are very fond of it for it keeps them free from cold. I can't say too much for it, and take pleasure in recommending it to my friends." Mrs. A. S. Hines, Fremont, N. H.

Don't put off treatment. Coughs and colds often lead to a chronic cough, pneumonia and other serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All druggists.
