## Paige Economy is Intelligent Economy

Be sure that you buy MOTORING when you buy your motor car.

The price of the five-passenger Fleetwood "Six-38" is \$1050. How long we shall be able to keep it as low as \$1050—with the continuous increase in the cost of materials—we cannot say—because we do not know. We urge you to order a Fleetwood at \$1050 TODAY and protect yourself.

But that price—\$1050—was decided upon last December as the minimum price for which we could sell genuine, unequalled, indisputable Paige Quality.

We don't GUESS that the Fleetwood "Six-38" and the Fairfield "Six-46" will "stand up." We KNOW it.

There is nothing "experimental" about these cars. There are no radical engineering theories in them. They are the incontestable proof of a season's driving.

Paige Sixes are designed and built on the principle of EVOLUTION—not REVOLUTION.

Suit Won is 90-Cent Loss.  
OREGON CITY, Ore., April 22.—In the eyes of the law, W. M. Ponce won his suit against John W. Ferguson, but when it comes down to mere finances he lost.

Ponce, an Estacada livery stable keeper, sued Ferguson for a buggy

broken when in the care of the defendant, and a jury gave him a judgment for \$30. The verdict, however, is less than \$50 and under the law the defendant can recover costs from the plaintiff, which in this case amount to \$30.90. Therefore Ponce will pay Ferguson 90 cents and the affair will be settled. The case was brought in the circuit court.
