CHILD WELFARE TO BE TOPIC AT A PAN AMERICAN CONGRESS

For the first time in history a Pan-American conference has been called for the purpose of considering matters distinctively and specifically related to child welfare in the countries of the western hemisphere. It is to be known as the First Pan-American Child's Congress for child welfare. Such congresses have been heretofore held in the United States the scope of which was intended to be international. In March, 1908, a congress was held in Washington, D. C., which called itself "The First International Congress in America for the Welfare of the Child." It was held under the auspices of the National Congress of Mothers, and invitations to participate therein were sent to practically every civilized country. This congress was followed by a second in 1911 and a third in 1914, and the National Congress of Mothers in each instance stressed the international character of these meetings. In reality, however, foreign governments failed to support these congresses by sending official delegates, although several countries were unofficially represented and various others sent greetings and messages. It was the intention to make these congresses international in the broadest sense, and invitations were not restricted to the countries of the Americas. The congress to be held in Buenos Aires, therefore, may justly claim to be the first Pan-American Child's Congress.

"The purpose of the congress," according to an editorial note in the Bulletin of the Pan-American Union, Washington, W. C., "as outlined in the official program which has been published in Spanish and in English and which is being distributed throughout the countries of Pan America, is to study all matters relative to the child itself, in its relation to the family, to society, and to the state. The program provides for the division of the multifarious subjects to be considered into seven principal sections, viz: Legislation, Hygiene, Education, Psychology and Anthropology, Aids to Mother and Child, Sociology and Industrial Legislation. Each of these sections will be provided with a presiding officer who is a specialist in that particular line of study, and with a special secretary."

VOTES OF WOMEN.
Do women realize that they already vote in the most effective way on important questions?

Every time a woman buys an article it is a vote, backed by money, for that article, a sincere approval of its merits.

So the women have been voting on the question of health. When they have suffered from woman's ailments their vote has been overwhelming for Lydia E. Pinkham's Vegetable Compound, which they have bought and used with satisfaction.—Adv.

RUSSIANS EXILED FOR KEEPING GERMAN NAMES

NOBLES ARE SENT TO SIBERIA BY GOVERNMENT FOR DISOBEYING.

(By United Press.)
PETROGRAD, April 29.—Premier Sturmer is about to change his name. He will adopt his wife's—Panin. Sturmer is a German name; Panin is Russian. That's why. Many Russian nobles with German names have been sent to Siberia because they refused to exchange them.

Ex-Procurator of the Holy Synod Sabier recently made a similar change. So did Councilor of the Empire Neldhardt. So have many other Russian dignitaries, civil and military, who here German patronymics.

The anti-German wave throughout Russia is not purely a war sentiment. The war just gave it a chance to manifest itself. It is a popular reaction against a German tutelage which has lasted for generations and is generally held to have been largely responsible for the government's severity.

It is not known that pressure was brought to bear on Sturmer, Sabier and Neldhardt to change their names, but this actually has been done in many other cases and possibly, secretly, in theirs. Barons von Brumer, Stempel and von Rennekampff lost government posts not long ago because they declined to make the required change.

Baron Hahn and Count Fahlen, who were marshals of nobility respectively at Mitau and another Courland district, have been asked to resign their positions and leave for districts not in a state of seige.

Baron von Mirbach, marshal of nobility at Dvinsk, Mayor Pfeiffer of the same place, Count Kayserling, Barons Meyendorff and von Heyking, who held high posts under the czar, and many other noblemen of the Baltic provinces have actually been sent to Siberia for the duration of the war.

All business either wholly or partly owned by Germans and, in some cases by Russians of German descent, have been closed, compulsorily wound up or placed under government control.

Home Celebration of Wonder Interest

The arrival of a baby in the household completely changes the entire aspect of the future. But in the meantime, during the anxious period of expectancy, there is a splendid remedy known as "Mother's Friend" that does wonders. It is for external use, relieves the pains of muscle expansion, soothes and quiete the nerves, extends its influence to the internal organs and removes to a great extent the tendency to worry and apprehension. It is a natural treatment, safe for the mother, has no drug effect whatsoever and for this reason exerts a most beneficial influence upon those functions directly connected with motherhood. In a very interesting book the subject is fully discussed and a copy will be mailed free to all expectant mothers by Bradfield Regulator Co., 400 Lamar Bldg., Atlanta, Ga. Get a bottle of "Mother's Friend" today if any druggist. Use as directed and you will then know why mothers for nearly half a century have used and recommended this splendid aid to motherhood. Their letters are messages of cheer, that breathe comfort in every word.

Many Peace Telegrams Received.

WASHINGTON, April 28.—One hundred and fifty thousand peace telegrams have flooded congress this week demanding that there be no break in diplomatic relations with Germany. Messages are still coming, though the numbers are lessening. It is estimated they cost a quarter of a million dollars. Senator Hastings desires to know who ordered the telegrams stopped immediately after he had suggested a probe of the source of the funds. Shortly after San Francisco reported 10,000 such telegrams, the senders suddenly ordered them cancelled.

Treat Proves Expensive.

SOUTHAMPTON, Eng., May 1.—Accused of treating his wife to a glass of wine in a Southampton "pub" (saloon), Robert Andrew Smith explained as follows: Mrs. Smith handed her husband six pence to pay for her own drink. Instead of passing that particular coin to the barmaid, Smith tendered a half crown (about 60 cents) in payment for his own and his wife's drinks and received change for it. He was fined 1 pound (about \$5). Mrs. Smith was fined a second pound. Dorothy Brown the barmaid, was fined 5 pence. That's the way they enforce the "no treating" regulation in England.

Train Kills Old Soldier.

ROSEBURG, Ore., April 29.—A. M. Harrison, an inmate of the Oregon Soldiers' home, walked in front of a train at Wilbur and was instantly killed. He was past 80 years of age, and appeared demented.

The Fallacy of Paraffine Base: Eastern oil manufacturers have long extolled the superior virtues of paraffine-base motor oils. But Pacific Coast motorists have proved that Zerolene, made from selected California crude, asphalt-base, gave best results. Their experience is now supported by the testimony of international experts. Lieut. Bryan stated before the Am. Soc. of Naval Engineers: "Oils made from the asphalt-base crudes have shown themselves better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene received highest competitive awards, San Francisco and San Diego Expositions. Dealers everywhere and at service stations and agencies of the Standard Oil Company.
