"What do You Want for Commencement?"

THE INVARIABLE ANSWER IS, "A GEM SET RING."

BOTH boys and girls want gem-set rings for their commencement presents. More than ever this year are set rings in demand, for set rings are now the vogue. Wherever you see pretty women, smartly dressed, you'll see that they wear their jewels in rings.

This preference for rings springs from the desire to be well-adorned, which is every woman's right. A ring set with stones adds one more touch of beauty to the most beautiful of hands.

Then, too, a set ring carries more suggestion and sentiment than any other token. It is more personal, closer, more treasured, better loved—for a ring may be ever-present.

Miss Crawford is the daughter of Mr. and Mrs. James Crawford and the granddaughter of Mr. and Mrs. James Crawford, formerly of this city.

Gypsies Travel in Autos.

Traveling in three big automobiles, a marked contrast to their time honored custom of journeying, a band of Gypsies, 17 in number, arrived in Pendleton today enroute east. Their machines were all of recent model and of high power, one being a six-cylinder Buick and the other two Cadillac. The seventeen members traveled in the three cars and besides carried their entire camp outfit. They are telling fortunes as they go, and, inasmuch as the price of gasoline is soaring, they are very eager to have their palms crossed with silver.

Roanoke's second officer, made flat charges that the steamer was overloaded when it left on its fatal voyage Monday. The body of Dennis was found drifting in a lifeboat yesterday. Mrs. Dennis declared that the Roanoke's interior was sawed away so as to make room for an unprecedented cargo. She said that on Monday a gang of carpenters removed the beams and braces to make room. She asserted that her husband did not believe the Roanoke would arrive at its destination and promised to quit the ship at San Pedro.

BUICK

PROOF

THESE 52 car-owners have expended \$64,425 for 1916 Buick sixes, since August 10th, 1915.

They are successful in their individual lines of business, because of their good business judgment—they have used this same judgment in the selection of their motor car. Many have bought from experience with different makes of cars, the others after a thorough investigation of the merits of each.

What further or more conclusive proof could be demanded that BUICK is the car to stand the hard tests of Umatilla County's rough roads and steep hills?
