HARMONY COMMITTEE WILL CONTINUE ITS EFFORT AT CHICAGO

REPORT IS MADE YESTERDAY
THAT NO AGREEMENT HAS
YET BEEN REACHED.

CHICAGO, June 9.—The harmony conference committee of the republican and progressive conventions reported without agreement when the conventions met yesterday morning. The progressives recommended further report to the republicans.

"Your committee has met the conference committee consisting of Messrs Perkins, Johnson, Bonaparte, Wilkinson and Parker. The conference was frank and free and most friendly. The conferees were of one mind, believing that the good of the country, and perhaps its repute and influence for years to come, depend upon the control in the executive branches of the government by those firmly believing in the policies of the republican and progressive parties alike. The progressives are unanimous in urging, with temperateness and fairness, the opinion that Roosevelt is the most desirable candidate upon whom to unite. Your conferees agreed to report these facts to the convention."

The progressives reported as follows: "Your committee met in conference with the republican committee consisting of Messrs. Smoot, Crane, Borah, Butler and Johnson. The conference was most friendly. Immediately upon assembling your committee proposed Roosevelt as the joint nominee of both conventions. The republican committee did not name any candidate, nor attempt to refute the arguments relating to the availability of Roosevelt. There were several hours of friendly discussion, during which the republican conferees advanced no concrete proposition, except that of a further conference, perhaps desirable this afternoon or evening."

GREEKS TURN FORTS OVER TO BULGARIANS

LONDON, June 10.—The Greek cabinet is preparing to issue a demobilization decree disbanding the 12 senior classes of the army, according to a Reuter correspondent at Athens.

The British foreign office yesterday announced that because of the aggravated situation in Greece, made more acute by the withdrawal of the Greek forces from three frontier forts and their subsequent occupation by the Bulgarians to the distinctive menace of the allied forces on Greek soil, it had been found necessary to adopt certain restrictions and to take precautions with respect to Greek shipping.

The foreign office issued the following statement:

"The attitude of the Greek government in connection with the situation created by the surrender of Greek territory to the Bulgarians has made it necessary for the allies to take certain precautionary measures.

"The government is taking certain precautions relative to the export of coal and to Greek shipping to and from British ports. The object of these measures is to prevent supplies from reaching the enemy.

"The question of restrictive measures is to prevent supplies from reaching the enemy.

"The question of restrictive measures at Greek ports is under consideration of the allies."

The New House Dresses

READY FOR YOUR APPROVAL

We have just unpacked a new lot of "Good Looking" house dresses of the better-than-ordinary grade that should attract the attention of any woman who wishes something just a little better. The development of these garments in the past few years has been remarkable. No longer are they strictly "house dresses." They have taken unto themselves the dignity and beauty, or at least the neatness and prettiness, conveyed by the terms "Porch" and "Neighborhood" dresses. In other words, if the door bell is rung announcing an unexpected caller, one may appear without mental perturbation, clad in a dress like one of these. Priced \$1.25, \$1.50 and \$1.75.

Ban on St. Paul Cattle.
SALEM, Ore., June 10.—All cattle shipped into Oregon from the St. Paul stockyards must undergo a tuberculin test and be accompanied by a certificate of good health before they will be admitted to the state, the Livestock Sanitary Board decided when it met here in annual session.

The quarantine order is made necessary, Dr. W. H. Lytte, state veterinarian says, because it has been learned that the St. Paul yards have been receiving large numbers of infected cattle from Wisconsin, and some of this stock is being shipped west.
