prune interests for the more favorable sizes is not above 6 1/2-c a pound in the Willamette valley and in Clarke county, Washington, as high as 7c basis has been offered in a limited way during the last 24 hours, reflecting a much stronger tone in the general situation.

While the prune crop of Idaho has been Willamette, according to reports, both the Willamette valley and the Vancouver, Wash., sections will likely have the largest output for several seasons. The aggregate production for the northwest is therefore expected to be somewhat above the normal.

This means that prune growers of this section are in line for much greater profits than for a number of years. The condition for the prune market throughout the country is rather favorable at this time, and an early movement of the crop of the northwest is anticipated.

Prune crop prospects are thus given by the Brokers' Information Bureau of California:

"Since the date of our last report our correspondents have quite generally reported an improvement in prune crop prospects. Tulare and Kings counties now promise a full crop, the largest on record, according to some reports.

"In considering this report it should be borne in mind that according to

the state horticultural commission, this whole district does not comprise 4 per cent of the bearing acreage of the state. The crop appears to be looking better in several sections of the Santa Clara and Sacramento valley districts.

"There is little change for the better in the Sonoma and Napa sections. All things considered, an estimate of 75 per cent of last year's crop of 170,000,000 pounds is probably a fair one at this time."

HARDING MAKING KEYNOTE SPEECH

Snapsheet of Warren G. Harding as he appeared while making the keynote speech at the republican convention at Chicago last week.

Ruling Has Hurt the Flour Trade

PORTLAND, Ore., June 16.—The ruling of the state railway commission in putting up the minimum weights on flour to 36,999 pounds from 36,000 pounds, has hurt the flour trade. The ruling goes into effect July 1.

Millers assert that the action was taken without even consulting them and that the raising of the minimum means that the average country buyer of flour will suffer. Few country buyers purchase more than 15,000 pounds of flour at a time and up to a short time ago these were given the carload freight rate. Now such buyers must either overstock themselves or else pay a higher freight rate.

The market for flour is extremely quiet at the moment, but no change in prices is indicated.

Barley market here is firmer as a result of tighter holding by California growers. Growers of the south have been the cause of the weakening of the northwest markets, but now with general holding in California for high prices, the situation here is stronger in the spot trade.

Broomhall cabled from Liverpool that the wheat market was weak with American decline and continued free import offers. Spot 1d to 3d lower, with demand very quiet. Cargo market weak, winters 6d and Manitobas 1c lower and later Manitobas declined to 1d 3d lower than yesterday. Export offers continue large. Stocks increasing. Indian offers sharply lower.

Australia—Dryness continues over a wide area and average to wheat is smaller than earlier estimated. Tonnage very scarce and shipments almost wholly government contracts.

Greece—Crop prospects fair. France—Weather now very favorable, acreage smaller, spot wheat 1d held at 54s 8d, against 54s last week. Import needs will be large during the war.

Russia—Crop condition fair. Acreage will show a large decrease.

Italy—Acreage sown to wheat will show a decrease of fully 15 per cent, as compared with last year.

Flour—Selling price: Patent, \$5.00; Willamette valley, \$4.50; local, \$4.00; Montana spring wheat, \$5.00; exports, \$4.20; 4.50; whole wheat, \$4.45; Graham, \$5.50; rye flour, \$5.25 per barrel.

Hay—Willamette valley timothy, fancy, \$20; eastern Oregon-Idaho fancy timothy, \$21.90; 22; alfalfa, \$21.00.

Grain sacks—1914 nominal No. 1 Calcutta, 13c in cyploads; less amounts are higher.

Roller oats—\$5.50@6.75 per barrel.

Millets—Selling price—Bran \$26; shorts, \$29 per ton.

Roller barley—Selling price—\$31.00@32 per ton.

CATTLE MARKET IS SHOWING BIG LOSS

PORTLAND, Ore., June 16.—Weakness is showing in the market for cattle and values are at least 25c lower than the start of the week. Extreme prices now showing in the market for grass steers is \$7.75 and it takes exceptional quality to bring that price.

Lambs Only Are Firm

While there is weakness in the sheep market generally, the trade in lambs remains firm and former prices continue in effect at \$9 for extreme tops. The feeling in regard to yearlings is softer and prices in general are showing around \$7.25@7.50, with ewes around \$5.25 generally, although something extra good may perhaps go to the half mark.

General shorn mutton and lamb range:
Select spring lambs \$ 9.00
Best yearlings 7.25@7.50
Good to common wethers, 6.70@7.00
Best ewes 5.50
