## Here's A 'Tip' On Rheumatism Follow It

AN ACCURATE DESCRIPTION  
When your arm or your leg feels "all knotted" with rheumatism, when you feel as though your muscles were "tied up with a rope," you are really describing your pains accurately. Rheumatism is a condition of the body when acids and other deposits of impurities are actually "tied up" the strands of muscles in your body, or strangling the nerves and thus producing the awful shooting pains of sciatica, lumbago, etc. Medical authorities agree that these acid deposits are carried and deposited by the blood in the various parts of the body. It stands to reason, therefore, that local applications such as rubbing with so-called remedies can't do any permanent good. At best they can relieve the pain a little and only for a little while. The only way to effect a real cure is to attack the real cause—the blood. It is cleansed from the troublesome deposits by S. S. S., the reliable blood-purifier that is now eating the pains and healing the ill of the third generation. S. S. S. "gives after" the impurities in the blood as relentlessly, as eagerly and as thoroughly as a ferret goes after rats; pursuing the poison into every vein and artery, into every nook and corner of the body, and chasing the troublesome substances out of the system. The blood thus cleansed, carries off the acid and other injurious deposits and "filters" them out of the body through the kidneys. S. S. S. is not a drug. It is a purely vegetable blood-purifier. You can get S. S. S. at every drug store. But if in addition you should like to have the advice of the doctors in charge of our laboratory, do not hesitate to write us. You will receive free, conscientious and confidential advice. This is in line with our policy to make every effort to insure the best results from S. S. S. in every sufferer. Get a bottle at your drug-cist's today. If you wish special advice, write to Medical Department, Room 45, Swift Specific Company, Atlanta, Georgia.
