ANTI-SALOON LEAGUE TO MEET IN INDIANAPOLIS

WESTERVILLE, O., June 21.—Those in charge of the program of the Anti-Saloon League of America's convention to be held in Indianapolis June 26-28, report that one of the strongest speakers on the program will be State Senator John P. Willacy, of Texas. Not only will he make a good speech, the committee announces, but the fact that formerly he was the foe of prohibition and the Anti-Saloon League will make his appearance on the platform doubly interesting.

Willacy for a long time honestly fearlessly fought prohibition. Finally, however, he came to be one of its foremost champions. His participation in the program will be a parallel to that of Major Dan Morgan Smith, of Chicago, who, for a number of years, was general counsel of the Model License League, but who decided, after much investigation and experience, that prohibition was the only solution of the liquor traffic.

It is pointed out by league leaders that the convention, coming on the heels of the national gathering of the political parties in Chicago and St. Louis is a fact that will contribute to the attendance of the League meeting and the attention that will be paid to it. The anti-partisan, non-partisan character of the league is well known. The organization has never sought to accomplish its purpose through party help or party endorsement.

But the individual is supported or opposed, regardless of his party affiliation, accordingly as he favors or opposes the things for which the league stands. By the time the league opens its sessions the great political campaign of 1916 will be in full swing. The attention of the temperance forces will be drawn to every candidate for office, from the greatest to the least, and none will escape the "once over" of the careful voter.

All traffic associations have now announced a rate of two cents a mile to and from Indianapolis for the convention. Superintendents of a number of state leagues are arranging caravanseries of automobiles from principal points in their states to Indianapolis. Chicago is expected to send no fewer than 200 machines. Cincinnati, Toledo, Columbus, Ft. Wayne, St. Louis and other cities will make great use of gasoline-driven conveyances.

Airships Offered Militia.
SAN FRANCISCO, June 21.—The Pacific Aero Club telegraphed Adjutant-General C. W. Thomas of the California state militia, an offer of eight aeroplanes, three balloons and the immediate service of three aviators. The balloons belong to Edward Enger, a balloonist.
