Chautauqua Speaker Points Way to Better City; Attacks Present Municipal System

Pendleton was hit between the eyes yesterday afternoon and liked it. Dr. Charles Zuebelin of Boston was the sifter and his chautauqua lecture, "The New Civic Spirit," was his blow. His lecture, or a part of it at least, might have been labeled, "What's the Matter With Pendleton?" and the answer of the several hundred people who heard him was unanimous. The speaker pointed out so many progressive things that this progressive city has left undone or partly done that they could not but agree with him.

PETROGRAD, June 29.—The Germans have begun a series of sudden and violent attacks against Kurapatkin's entire front from Riga to Dvinsk, through Jacobstadt. It was believed that Hindenburg is launching the offensive in an effort to divert the Russians from the Galician and the Volhynian campaigns. Virtually all of Kurapatkin's forces are under the bombardment. German raiding parties are harassing the Russian lines. It was unofficially reported today that the Russian lines are within 10 miles of Kolomea, a strategic railway center.

PARIS, June 29.—The newspaper Echo de Paris declared today that the Russians have captured Kolomea. A communique says the Germans have shifted their attack west of the Meuse and are assaulting near Avoucourt with liquid fire. The first attacks were repulsed with frightful losses. In one place the Germans carried the first line of fortified works where all the French occupants were killed. The French recaptured the position with brilliant counter attacks.

Hawley Supports Bill for a Naval Base at Astoria

DECLARES THAT IN CASE OF WAR WITH ENGLAND COAST WOULD BE HELPLESS.

WASHINGTON, June 29.—Supporting the bill for the establishment of a naval base at Astoria, Representative Hawley declared before the naval committee that every American vessel leaving the Bremerton yards passes under the guns of British forts. "In case of a war with England, the Bremerton would be useless," he declared, that the northwest, with an area as large as Germany and capable of supporting sixty or seventy million people, is in danger of occupation unless the mouth of the Columbia is strongly guarded. He said that if foreign troops ever occupied the territory, controlling the mountain passes, they could not be dislodged. Padgett reminded Hawley that the naval bill provided for a commission of naval experts to study the Pacific coast with the idea of establishing another base.

MORE ITALIANS CALLED TO JOIN ARMY IN FIELD

New Classes are Summoned to the Colors in Accordance With Policy to Carry War to Victory.

AUSTRIANS ARE HURLED BACK

People in Rome are Enthusiastic Over Progress Being Made in Trentino Region; Offensive is Spreading to Other Sectors; Austrians Make Stubborn Resistance.

ROME, June 29.—Fulfilling the promise of a more vigorous prosecution of the war, the ministry has called the classes of 1882 to 1895 and the third categories of the classes of 1882 and 1883. The call adds large forces to the Italian armies, though the exact number has not been made public. The people are aroused to high enthusiasm at the steady advance of the Italian armies in Trentino. There are indications that the offensive is spreading to other sectors. For the first time in several weeks, marked activity was reported along the Isonzo, particularly around Gorizia. The Austrians are stubbornly resisting the Italian advance in Trentino.

BERLIN, June 29.—The starting of a new Italian offensive in Isonzo and the steadily increasing violence of the British assaults leave little doubt in Berlin but that the allies are in the early stages of a grand offensive. Vienna dispatches announce that the Italians have attacked Gorizia, where their armies were idle for many weeks. Attacks on the Trentino front continue. The British are cannonading the German front impartially in order to bring a systematic fire to bear on the whole line to the Somme. The same procedure preceded the allied offensive in September when the entire German front was bathed in fire before attacks were launched at Loos and Champagne.

IMPATIENT AT DELAY OF CARRANZA IN REPLYING TO U.S. NOTE, LANSING ASKS THAT DE FACTO HEAD HURRY

Secretary of State Tells Mexican Ambassador Designate at Washington to "Speed Up" Answer; Immediate Statement Originally Requested; Officials Think That Carranza is Delaying in Hope That Situation Will Calm Down.

CARRANZA ISSUES STATEMENT

MEXICO CITY, June 29.—The foreign office this afternoon issued a 2000 word statement in reply to Lansing's note. It contained a strenuous denial of many of the charges and made counter charges against the United States, but does not repeat a demand for the withdrawal of American troops.

Replying to the charges that Americans were murdered in Mexico, it says that Mexicans also suffered from depredations of bandits and declares it unreasonable to expect that foreigners are immune from internal disturbances. It reiterates the declaration that every effort was made to punish everybody guilty of outrages against foreigners. It says the victims of the Santa Ysabel massacre were fully warned that the country was infested with Villistas but insisted upon entering the danger zone despite protests. It declares that the Mexican authorities notified Americans several days before Villa's raid on Columbus that Villa was moving toward the border, giving Amer-

icans ample time to safeguard their towns. The foreign office resents the charge that the constitutionalists failed to cooperate with the Americans in hunting Villa. It stated that after the Columbus raid a Mexican force took the field in pursuit of the Villistas, scattering them. The statement that Carranza never gave permission for Americans to enter Mexican territory is reiterated. The blame for the Parral encounter is laid upon the commander of the American forces, who entered the town without permission from the Mexican authorities. It points out that several of the alleged outrages which the American government complains of occurred before the United States recognized Carranza and says it therefore is improper to bring complaint now. (The cable dispatch does not make it clear whether the statement was an actual answer or merely a comment preceding the delivery of the note.)

WASHINGTON, June 29.—Lansing today told Arredondo to speed up Carranza's reply to the last American demand. He said frankly that the patience of the United States was nearly exhausted. He declared that he had asked originally for an immediate statement of Carranza's attitude. Several days have now elapsed. Officials thought that Carranza was delaying, hoping that matters would calm down, while he framed an answer satisfactory to the United States. Only brief consideration was given to the Mexican situation by the cabinet today. The president was anxious to catch a train for New York where he speaks tonight. Horses and equipment belonging to the American Carrizal prisoners were turned over to the Americans at El Paso today. Officials thought that the danger of a war was waning fast. Nevertheless, militiamen poured steadily southward. The administration still is preparing for eventualities. A United

press dispatch from Mexico City stating that Carranza's reply was nearly completed and was of a satisfactory tone, buoyed up hopes. Meanwhile congress continued setting aside the biggest military appropriations in the history of the nation. Officials awaited detailed stories of the American troops captured at Carrizal and refused to comment on the story of Lem Spillbury who blamed the American officers for the battle. The possibility of further clashes depends upon the attitude of Carranza's reply. If conciliatory, few doubted that the president would relieve Carranza as much as possible if irritating influences were attached to the presence of American troops. Although he would not withdraw troops new orders might cover the movements of Pershing's column, making a recurrence of the Carrizal fight impossible. Some reports indicate that Pershing may have orders to leave towns where trouble might occur. The president evidently intends to cling to his own ideal to let Mexico work out its own problem, if possible.

REPLY TO NOTE IS REPORTED TO BE PACIFICATORY IN TONE

MEXICO CITY, June 29.—The foreign office practically has completed its reply to the last American note. It may be given out in a few hours. It was generally believed that the reply is pacificatory, relieving the possibility of war between Mexico and the United States. The majority here believe there will be no hostilities. They base their belief on the attitude of Wall street and London financial interests, which war would affect. Trevino's report that Pershing had evacuated Namsiquipa strengthened the belief of a peaceable outcome. So strong is the feeling of confidence for a peaceful settlement that few Americans were disturbed at the receipt of a message from Lansing temporarily warning all Americans to quit Mexico immediately under penalty of assuming grave responsibilities. Those remaining feel assured of protection. The Pacheca mines have resumed operations.

JACK DILLON OUTPOINTS MORAN IN 10 ROUND BOUT

NEW YORK, June 29.—Although outweighted by fully 25 pounds, and having a disadvantage of nearly six inches in height, Jack Dillon, the Indianapolis light-heavyweight, showed a stout front and outpointed Frank Moran, the Pittsburgh heavyweight, in nine rounds of a ten-round bout at the federal league baseball grounds, Washington Park, last night. Moran's weight was announced as 24 pounds and Dillon's 183. Dillon went on the scales in fighting togs, while Moran was stripped. The Indianapolis man was in fine condition, but Moran looked fat.

An eagle recently seen near Bath, Me., with a bell hung around its neck, has been identified by Edward Brohm as one of the number of these birds caught by W. W. Dole near Harpswell more than 12 years ago and released after he had attached bells to their necks.
