MILITIA OFFICERS QUARREL

PENNSYLVANIA REGIMENT COMMANDERS CHARGE EACH OTHER WITH THURKERY.

EL PASO, July 29.—The Pennsylvania militia officers are quarrelling among themselves. The officers charged that Colonel Williams, McKeen, commander of First Pennsylvania, forced his own appointment while state senator of Pennsylvania. The adjutant general is reported as attempting to force certain militia commanders to sign for supplies not received. The quartermaster of the Seventh Pennsylvania says he'll never sign for supplies not received.

EAGLE SHOOTER GETS SUSPENDED SENTENCE

S. J. Lockwood Promises to Stuff Bird and Present it to Fish and Game Com.

PORTLAND, Ore., July 29.—On the agreement of Samuel J. Lockwood, the county motorcycle officer who shot an eagle last Monday not knowing that it was a law violation, that he would pay the cost of stuffing the bird, about \$12, for presentation to the collection of the Fish and Game Commission, the charge against him before District Judge Dayton yesterday was continued indefinitely.

Mr. Lockwood could not plead guilty to the charge without automatically resigning from the employ of the county, for conviction of the crime charged against him by State Biologist W. L. Finley is cause for his immediate removal from office, according to the statutes of the state.

The motorcycle officer shot the bird, thinking it was a hawk, though he admitted that he did not know that it was illegal to shoot an eagle.

There are practical as well as sentimental reasons for protecting the American eagle," explained Mr. Finley yesterday. "In addition to the fact that there is a sentimental reverence for the bird and that it is an attraction to the Columbia river highway, there remains the fact that it is not a serious menace to the farmer."

ST. LOUIS BIG FAVORITE

In Chicago They Tried to Do Everything to Victory, Says R. D. Blake.

WASHINGTON, July 27.—"When it comes to selecting a convention city in 1920, I shall be for St. Louis," observed R. D. Blake, a delegate to the recent Democratic convention, at the

Baltimore. "Before going to my own convention at St. Louis I stopped in Chicago to see what the republicans were doing and how they were being treated. The continued rain, of course, interfered with the plans of the Chicago officials to make the convention visitors comfortable, but it did not compel the hotelkeepers and others to impose upon their guests. The difference between the two conventions was this: In Chicago they tried to do everything to the victors, whereas in St. Louis they tried to do everything for the visitors."

St. Louis had an elaborate program of entertainment, which included automobile trips, luncheons and dinners for newspaper men and delegates, while in Chicago the only entertainment I saw provided was a lot of fireworks, which were set off on the last night of the convention."

Constipation and Indigestion "I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. Chamberlain's Tablets are mild and gentle in their action. Give them a trial. You are certain to be pleased with the agreeable effect which they produce. Obtainable everywhere.—Adv.

Playing Him Alive—Discussion of appointing by our candidate.

EXPERT REPORT ON THE COLUMBIA NOT NEEDED

Official Recommendation as Naval Base Will be Given Without It.

WASHINGTON, July 29.—The Columbia naval base is looking up, as the result of conferences held today. The Oregon house delegation interviewed Captain McKean of the bureau of naval operations, who declares emphatically a report of experts need not be awaited to determine that a submarine base should be established on the Columbia. Lane's amendment should stay in the bill, he says. McKean at the same time declared opposition to a complete naval base.

Bringing further influence on the conference, the house delegation will see Secretary Daniels late today and ask him to send a written recommendation of the Columbia base to Chairman Edgett of the house conferees. The secretary has already indicated to Senator Lane he will do this.

Talbot, Estopinal and Butler, three of the five house conferees, are now believed favorable to the Lane amendment. Roberts is hesitating over his lack of expert recommendation, but a letter from Daniels to Chairman Edgett, if obtained, is expected to secure his support, as well as that of Edgett.

MEACHAM LUMBER MILL IS FORCED TO USE A NIGHT SHIFT

EXTRA LABOR NECESSARY TO FILL RUSH ORDERS—OTHER NEWSY NOTES.

(East Oregonian Special.) MEACHAM, Ore., July 27.—The Casey Lumber Co. is rushed with orders and so has been running a few hours night shift to fill up orders.

Mr. and Mrs. Joe Parkes of Pendleton are at their summer home here.

Laurence and Clarence Hawes went to the races at La Grande last Sunday.

Ed Wetzel and R. W. Williams were here on Sunday from La Grande to try their luck at fishing but did not catch any.

Jim Beard, manager of the Popular Cash Store of Pendleton, spent Sunday with his family who are here for the summer.

Jim Baker went to La Grande Sunday morning and returned the next day after attending to some business.

J. D. Casey went to Pendleton on Wednesday to attend to business.

Bert Smith and family left on Wednesday to motor to Wallowa for a week of 18 days outing trip.

Mrs. Chre Dyer moved to Kamela on Saturday to join her husband, who is working there as an engine wiper.

Miss Marjorie Kline of La Grande came down on Sunday to spend a while with the Hilyard family.

C. P. Loneragan and E. Gillanders of Pendleton, were up Sunday checking up the wood of Mr. Gillanders.

Mrs. Henderson and children are up from Pendleton spending the summer camping.

The families of E. J. Riddle and Fred Riddle who is sawyer at the Casey mill, arrived on Saturday from Wallowa to reside here.

RACE RECORDS SHATTERED

Review of Important Speed Events Shows Fast Traveling to Be the Rule.

A review of the important automobile races during 1916 to date shows lightning speeds to have become the fashion.

On March 5th, at the Ascot Speedway in Los Angeles, Pullen in a Mercedes took the 100 mile nonstop at over 68 miles an hour over a loose surfaced macadam track which was unusually hard on tires.

O'Donnell in a Duesenberg, two weeks later on the same track won a 50 mile race at over 62 miles an hour.

On April 8th at Corona, Cal., O'Donnell again plucked the highest honors in a 200 mile race at 88 1/2 miles an hour without a single stop for tires. The record for this course of 37.8 miles per hour was made in 1911 by Pullen in a Mercedes. Prior to the last race, however, six cars did better than 100 miles per hour in tryouts.

Again at the Ascot Speedway on April 16th, O'Donnell took the 150-mile thriller at 65.6 miles per hour.

Hughes in his Omar Special at Bakersfield, Cal., on May 7th, traveled the century over a dirt track to the tune of 61.6 miles per hour without a tire stop.

At Sheephead Bay, New York, on May 14th, Aitken drove a Peugeot 20 miles at over 105 miles an hour, with three other drivers behind him, each doing better than 100 miles. In the 50-mile, Mulford in a Peugeot made nearly 100 miles an hour without tire trouble, while Rickenbacher in his Maxwell did the 150-mile event at over 96 miles per hour without stopping.

Indianapolis, on Decoration Day, saw Resta in a Peugeot cover 200 miles on a brick track at over 83 miles an hour, while D'Alene in a Duesenberg and Mulford in a Peugeot followed hot at his heels.

Resta again, on June 11th at Chicago, took the 300-mile event over a 2-mile board track, at close to 99 miles per hour with but one stop. The next eight drivers in this classic, all did over 90 miles an hour.

At Des Moines on June 24th, De Palma in his Mercedes traveled a one-mile board track 150 times at nearly 93 miles an hour, while Rickenbacher, in a Maxwell, took the 50 mile race at over 94 miles per hour.

De Palma at Minneapolis drove his Mercedes home, the winner in the 100-mile brush at 91 miles per hour.

The latest races have been those at Sioux City, Ia., on July 8th, where D'Alene in a Duesenberg garnered the money in the 10-mile race in 7 minutes, 31 seconds, while Wilcox rode a Premier to victory in 15 minutes, 3 seconds for 20 miles, and also negotiated the half century in the space of 41 minutes, lacking one second, and at Omaha, July 9th, where five new world records went on record on the mile and a quarter track.

Resta driving a Peugeot, hung up 119 miles an hour for 5 miles as the mark for others to aim at, while Rickenbacher made the Maxwell hum around the oval at a speed that shattered all previous 10, 15, 20 and 25 mile records, his average for the latter being 103 miles per hour.

Biliousness and Stomach Trouble. "Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.—Adv.

Why the square end?

Have you ever noticed how many expensive cigars from Cuba have the square-end shape? Of course you know there is a reason for that. The reason is this:

Of all cigar shapes, the square-end is the one most likely to give a free-drawing, even-burning smoke. You can see that this is so in the case of the OWL.

Notice that the blended leaves of the OWL filler run all the way down to the burning end. When you light the leaves evenly, you know they're going to burn evenly. No air-holes or torn ends of leaves to deflect the draught and make the OWL gutter. That square-end cures that.

Notice, too, that you get the full flavor of the OWL from the first puff. Not an over-balanced taste of wrapper, but the full balanced flavor of the cigar.

We selected the square-end shape of the OWL as we select the leaves and the Sumatra wrappers—to make the OWL a good cigar.

The Million Dollar Cigar

M. A. GUNST & CO. INCORPORATED

SENATE PASSES RESOLUTION FOR CASEMENT CLEMENCY WASHINGTON, July 29.—The senate voted forty-six to nineteen, passing the resolution asking that British exercise clemency toward the Irish political prisoners.

BRITISH ARMED STEAMER TAKEN BY GERMAN BOAT BERLIN, July 29.—It is announced that a German cruiser captured the British armed steamer Eskimo. They bottled an hour southeast of Arlanda Thursday.

At the touch of a match

All the conveniences of gas—better cooking and a cleaner cooler kitchen

Bakes, broils, roasts, toasts. More efficient than your wood or coal stove, and costs less to operate. Your cooking is better, too, because you have heat-control like a gas stove.

NEW PERFECTION OIL COOK-STOVE

The New Perfection gives a clean, odorless, pollution-free flame because of the long blue chimney. Cuts out the drudgery of wood or coal. Keeps your kitchen cool. In 1, 2, 3 and 4-burner sizes, ovens separate. Also cabinet models with Fireless Cooking Ovens. Ask your dealer today. Standard Oil Co. (California)
