Each Side Confident of Victory in Struggle Over Librarianship

Although August 1 was the limit set in which Miss Sabra Nason, county librarian, could have the privilege of resigning her position she has not availed herself of the privilege and it is thought she will not do so but will await the action of the board at the regular meeting Thursday night. Miss Nason says that the action of the board was irregular as not all of the board members were notified and the meeting was called on a ten minutes notice on a pretense of conferring with a furniture man in regard to ordering fixtures for the new library. The rules say that a meeting can be called by the president or any two members. Miss Nason says the reason why she has been asked to resign was because she has failed to sign the contract. The faction in favor of removing Miss Nason say she has not been civil to the patrons of the library and has done many things in connection with the library without seeking the advice of the board. Some members of the board are at present out of the city and may not attend the Thursday meeting. Mrs. A. J. Owen, secretary of the board, is in Portland and it is understood will not be here in time to be in attendance. There is considerable interest in the contest over the librarianship and people on each side are asserting the outcome will be favorable to the side they espouse.

were not allowed to pass at that hour. I offered to stop, but he said I might as well go on, as I was by a large part of the work, and the next thing I was arrested, for the first time in my life.

Local officials were considerate and Dr. and Mrs. Catterson were allowed to go to a local hotel. After an exchange of telegrams between the local officials and Sheriff Harburt, the charge was finally dismissed and Doctor and Mrs. Catterson proceeded on their way.

FOOTBALL HOPES OF P. H. S. ARE BOOSTED BY NEW STUDENTS

Pendleton high school football hopes were boosted several notches Saturday when "Mose" Sax, stellar Jefferson high school football man, dropped in here with expectations to remain. Sax intends to register at Pendleton high school in September and will probably graduate from the local school. Sax was a consistent performer at Jefferson high school last fall and was chosen on the mythical all-star eleven. Sax is a backfield man. He will be a most welcome man as the high school lost a number of valuable men by graduation last June. Sax was accompanied to Pendleton by Henry Jones, also of Jefferson, who will enter Pendleton high school. When the Jefferson high school team played Pendleton on last Tuesday day, Sax was so impressed with the town that when he decided to graduate from some foreign school the Portland boy at once hit upon Pendleton.

MOTORISTS BREAK BARS ON COLUMBIA HIGHWAY

Spokane Couple are Arrested at Hood River but Released After Explanations.

HOOD RIVER, Ore., July 31.—Dr. and Mrs. T. L. Catterson were arrested on arrival here by Sheriff Johnson and City Marshal Carson on advice from Sheriff Harburt of Multnomah county, the motorists having been charged with breaking through Columbia River Highway barricades near Bonneville, when en route from Portland to their home in Spokane. Dr. Catterson, a prominent Spokane physician, admitted that he had passed onto the section of road being worked by crews of men. "I followed other cars, the occupants of which were going to a grocers' picnic at Bonneville," said Dr. Catterson. "On reaching the picnic grounds I was accosted, and asked for 50 cents. When I explained that I was not a grocer but a traveler en route to Hood River, the ticket seller directed me back to the Columbia Highway. After I had reached the road a workman told me machines

WHAT THE FRENCH ARE DOING

The sketch map shows roughly the extent of the Noyon salient, a nearly perfect semi-circle described about the town of La Fere. From Craonne, the eastern end of the salient, to Peronne, the northwestern, is fifty miles; from La Fere the axis of the circle to the front west of Noyon is about twenty-five miles. The shaded portion of the map, in the upper left hand corner shows the extent to which the French have so far been able to push in the salient and the arrow the direction of the main thrusts. The marks XXX indicate the villages on the front which were attacked by the French some days ago with material success, the villages of Barleux and Vermandovillers.

ICED TEA

Of all the summer beverages that are prepared for home consumption, Iced Tea is probably the most widely popular as well as the most refreshing. Your favorite tea is brewed in the usual way—preferably by using a pierced silver tea ball so that the spent leaves can be readily removed from the pot instead of being left to ruin the fine flavor. Pour the tea into a serving pitcher, add sugar, and cool at once to the desired temperature. Serve with a slice of lemon to each glass and add cracked ice if desired. It is customary and proper to serve Iced Tea and drinks of a similar nature in a long thin glass. For stirring liquid refreshment served in this fashion a special spoon is required, having a long handle but with a bowl of about the same proportions as that of a tea spoon. Unless these are provided the beverage must be served in a different manner than that prescribed by custom, and one's self or one's guests may be placed in an embarrassing predicament through awkward efforts to manage a spoon that is too short. Many things besides convenience have contributed to the popularity of Iced Tea Spoons. They are long, slim, and graceful, ideally designed for use with any tall glass, and on account of their length, handy for other household purposes that will suggest themselves. They are not expensive, and the ones we have in silver plate would appear to good advantage on any table. Your inspection of our assortment of Iced Tea Spoons is cordially invited.
