HARD LUCK HENDRIX.

CLAUDE HENDRIX

If any pitcher ever seemed to be panned by hard luck that pitcher is Claude Hendrix, of the Chicago Cubs.

He is pitching exceptional ball but the errors and poor support of his teammates prevent him from winning his games. All "breaks" seem to be against him. In one week, for instance, he pitched a two-hit game and a one-hit game, but lost both because of his team mates' fooling.

of the Employees' Annual Picnic to be held at Gibbon. Agent F. N. Luse and Yardmaster G. P. McKee made a house to house canvass Wednesday forenoon, not only inviting but insisting that everybody that could possibly get away should avail themselves of this opportunity for a day of enjoyment and recreation. A fine program of sports has been arranged by the committee in charge. A special train will leave Umatilla at 7 a. m.; Rieth at 1:30 a. m., to accommodate the people from this end of the di-

vision and returning will leave Gibbon at 7:30 p. m.

Bring your picnic baskets and have a good time. Those not providing their own lunches can purchase same on the grounds at the various lunch stands.

The big event of the day will be the fat men's race to be participated in by such men as Assistant Superintendent Buckley, Special Agent Harmon, Agent Luse, Conductor Parkhurst, Engineer King, the senator and others.

It is a true saying if you want to advertise anything get the people to talking about it, arouse their curiosity to the point where they will ask all kinds of questions. The Round-Up is enjoying its share of the above since Agent F. N. Luse donned a Round-Up hat of the latest design and is never too busy to answer the question, "Why the hat." Such enthusiastic boosters is what brings success to such exhibitions. Let 'er buck!

MEXICO'S OUTLOOK IS BRIGHTEST IN MANY YEARS TRAVELERS SAY

CONDITIONS ARE IMPROVING RAPIDLY AND SITUATION IS BUOYANT

SAN ANTONIO, Aug. 10.—Americans coming from Mexico declared that the conditions are improving, confidence in Carranza is growing, and the situation gaining buoyancy. Carranza's money is gaining in value and business is improving. J. P. French, head of the Mexican Sewer Pipe Company, displayed a telegram from the Mexico City office saying: "Come back. Things are going well. Trains are running regularly between here and the border."
Robert J. Phillip, American head of the Mexican Asphalt Co., signed a contract for repairing Mexico City pavements. The work is proceeding rapidly. Alameda Park is more beautiful than any American park and is kept in the best condition. All the stores are open. Americans dine at the American club. Meats are fifty cents in gold. Laborers are receiving advanced wages on every line, although prices are not rising.
An experienced American said: "Mexico always starts to bounce back if left alone. She's doing it now."
Mines are reopening. Unprecedented rains are assisting the crops, and money is rising. The presidential election is near. The Mexican outlook is the brightest in several years.

Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.—Adv.
