

TIME is money, an' the two years invested in maturin' VELVET makes VELVET rich.

VELVET is rich and not with a richness acquired by artificial means. The method used to bring out VELVET'S Nature-given mildness, aroma and "body" is the ageing method (all rights reserved by Mother Nature herself).

Every ounce of VELVET is given not less than two years proper ageing in great hog-heads. It takes longer, of course, than any hurry-up method, but it's the way to take out any "bite" without injuring the rich smoking qualities of Kentucky's choicest Burley tobacco.

You'll discover pipe satisfaction in VELVET that you'll not find in any other smoking tobacco.

Apply the pipe test to VELVET—the test that has already made hundreds of thousands of regular VELVET smokers.

MAN IDENTIFIED AS ACCUSED IN CRIME COMMITTED LONG AGO. SAN FRANCISCO, Aug. 21.—Five

San Francisco Murder Case Puzzles Authorities—Mistaken Identity Claimed. witnesses identified James Gaffene as Pietro Tortorici accused of murdering

Biaggio Gilardo here nine years ago Gaffene walked confidently before each witness but dropped as the identification was made. The case is a puzzling one. Patrolman James Deuser's testimony favored the defense. Deuser said Kaffene resembled Tortorici as Tortorici looked eleven years ago. Gaffene claims a case of mistaken identity.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

Dr. E. Sauer, a well known Specialist who has studied widely, both in this country and Europe, said: If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin, another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are dizzy and tired all day; some fancy and irritable; some skiny and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fading vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of or-

GENERAL'S DAUGHTER GIVES BLOOD FOR BABIES

MISS HOUSTON SCOTT. Miss Houston Scott, fourteen-year old daughter of General Hugh I. Scott, chief of staff of the United States Army, has given five ounces of her blood for serum to prevent infantile paralysis in other children. She had the disease several years ago. The operation was performed Saturday, Aug. 12, in Washington, and was kept secret till public health officials there asked that it be made public in order to encourage others to give their blood.

ANSCO CAMERAS & SPEEDEX FILM. 'I DON'T SUFFER ANY MORE' says Mrs. Hamilton. 'Feel Like a New Person,' says Mrs. Hamilton. New Castle, Ind.—'From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month.'—Mrs. HAZEL HAMILTON, 822 South 15th St. When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit? If you want special advice write to Lydia E. Pinkham's Vegetable Compound Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
