to control him and they want to

If that is the purpose back of the railroad maneuvering then they are playing a damnable, game. It is treason to the nation's welfare and they deserve to fail. Every citizen of the land should stand back of Wilson and demand that congress save our people from this calamity. The Brotherhood men should go slow about starting a strike while the legislative program is being worked out.

The highest welfare of the country calls for peace and the welfare of the country should take precedence over the wishes of those on either side of the labor controversy. **********
