**FOREST RANGERS ON
DUTY UNTIL OCTOBER**

Shortage of Rain Makes Extra Fire Precautions Necessary — Equinoctial Storms Will Aid.

The forest rangers on the Umatilla forests will be kept on duty until October 1 at least, according to W. W. Cryder, supervisor of the Umatilla forest reserve. Very little rain has fallen in the mountains up to this time and the worst time for a forest fire is said to be from now until October 1st.

The equinoctial storms which are due at any time now will be a great prevention to any possible fire that may break out. This season so far has been very free from fire.

**WOMAN DIES AFTER
SERIES OF OPERATIONS**

LA GRANDE, Sept. 8.—The wife of C. A. Small, republican nominee for representative from this district, died Monday afternoon after having been operated upon seven times at the local hospital. She suffered from complicated bowel trouble and was operated on some weeks ago, but it was necessary to perform six additional minor operations, the effect of which she was not able to overcome.

SATISFY!

—what does that mean?

It means that NEW quality, in a cigarette, that does for your smoking exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do far more than just "please" you—it must let you know you've been smoking.

That's what Chesterfields do—they satisfy! And yet they're MILD!

For the first time in the history of cigarettes, here's a cigarette that satisfies and yet is mild! Chesterfields!

Other cigarettes may be mild, but they don't satisfy.

BUT, Chesterfields satisfy—yet they're mild!

This is new enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields, can give you—regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!*

Try Chesterfields—today!
