WOMEN

Sister Picture to "Civilization"

THE MOST STARTLING SENSATIONAL MOTION PICTURE EVER CONCEIVED. A SCATHING ARRAIGNMENT OF THE HORRORS OF WAR. SHOWING IN ALL ITS BRUTAL REALITY THE SUFFERING IMPOSED ON THE WOMEN.

A Photoplay with a Purpose

The lesson it teaches might well be borne in mind at this time, when at any moment this country or ours could be drawn into that awful vortex of war which has drenched Europe with blood.

WE MUST PREPARE

to protect our Mothers, Wives and Sweethearts from the ravages of War.

A Village is Captured

The men are made prisoners, what becomes of the women? This picture will show you.

This picture is one of the most expensive and magnificent productions ever made, it is not an arraignment of any particular army or nation. It has no definite locale and contains situations that might arise in any country at war.

Actual battle scenes are not shown for this is not a war picture but is a silent plea for preparedness for the protection of the mothers, wives and sweethearts.

U. S. FRIENDLESS AFTER WAR SAYS P. ROCKEFELLER

Financial Power to Exceed Wildcat Dreams—All Nations Will Scramble for Gold.

MILWAUKEE, Sept. 30.—Percy Rockefeller addressed the annual meeting of the Chicago, Milwaukee and St. Paul railroad stockholders and directors. He declared the United States would be a friendless nation after the war and the country will face the greatest financial disturbance in history. He declared conservatism was the only hope.

"We simply must keep our heads. Every nation will scramble for our gold. It's going to take fast thinking to prevent them. Many believed America had reached its highest financial power a year ago, but this year has exceeded the wildest dreams."

OLD FRENCH ARTIST TO SEE MASTERPIECE FOR THE LAST TIME

SEATTLE, Wash., Sept. 30.—Sentiment has sent "Samson and the Lion," Leon Bonnat's masterpiece, over the sea that its creator, now 83, may see it again before he dies.

When this expressed wish of the great artist shall have been gratified the \$35,000 painting owned by Harry Whitney Treat, a millionaire clubman of Seattle, and which has for seven years hung in the gallery of the Washington state art association, may pass to the ownership of the French government. Overtures have been made for its purchase.

The painting is being taken to France by M. Louis Heritte, French consul in Seattle. Bonnat's desire to see the painting again before he died was expressed to the French government, the latter conveying the request to the consul here, who in turn took the matter up with Treat.

WOOL MARKET HAS GONE TOWARD SKIES

BOSTON, Mass., Oct. 2.—The boom in domestic wool continues, sales during the week having been nearly 10,000,000 pounds of all grades, with values of scoured territories firmer. Realizing at last that South America has the only free wool market in the world outside of the United States, because of the British embargoes manufacturers are looking for domestic

wools to supplant the fine combing grades that were imported from Australia last year.

Passaic manufacturers and others outside New England have been in the Boston market this week. Even if the British embargoes were in force prices would be nearly \$1 per pound laid down in Boston, judging by the recent colonial sales. South American offers little hope because speculators are in control. Recent Buenos Aires quotations for example are about 44 cents per pound. Arrivals during the week were 2,115,951 pounds domestic and 1,414,542 foreign.

Typical sales of territory wools were 299,000 pounds half blood Saxons at 37 cents or 80 clean, 100,000 three-eighths blood soda-springs at 37 or 83 clean; 150 bags scoured No. 1 new Mexican at 75 cents.

REMARKABLE ACTION PICTURE OF BRIDGE SPAN COLLAPSE

QUEBEC BRIDGE SPAN FALLING INTO RIVER. PHOTO BY GUY R. NEWBERRY.

Here is one of the most remarkable being raised into position from ponds pictures ever published. It shows the central span of the Quebec cantilever bridge over the St. Lawrence river, collapsing just as it was being raised into position from ponds. The span was 540 feet long and weighed more than 5000 tons. At least 20 people lost their lives when the great structure broke and sank in 200 feet of water. More than 50,000 people had gathered on the river banks to watch the ceremony of hoisting the central span into place, which was to have completed one of the most stupendous projects of the world.
