Mr. and Mrs. John Bunch have bought the Elmer Picard place.

Miss Edtrude Picard was in town Thursday.

Mr. and Mrs. Frank Krebs and Mrs. Harrah motored to Milton Sunday.

Mrs. James Chesnut and Mrs. Will Boyer motored to Athena Friday.

Mrs. McCollum was in Athena this week.

MINING IN TOLOVANA DISTRICT, IN ALASKA

During 1914 and 1915 hundreds of people attracted by the reported finding of gold in the headwater region of Tolovana river in central Alaska rushed into the district, and systematic mining began there during the summer of 1915. Although considerable prospecting was done only about 10 mines were commercially productive, but these made a gold output to the value of \$80,000. Gold-bearing gravels occur in the beds of the present streams, in buried channels, and in bench gravels, but most of the gold has been won from the deep channels on Livenood creek, which have proved to be far richer than either the stream or the bench placers. Some shallow placers have also yielded gold, notably on Olive creek, but only prospects have been found in the benches.

Catarhal Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, etc.

A report by A. H. Brooks entitled, "Preliminary Report on the Tolovana District, Alaska," has been issued recently by the United States geographical survey, department of the interior, as Bulletin 642-G, in which the facts known about this new district are stated and the general relations are illustrated by a map. This report will be distributed on request addressed to the Director, United States Geological Survey, Washington, D. C.

TERRIER IS MOTHER TO CHICKS

She Cares, Cuddles, for Kittens Until Their Mother Objected.
ST. LOUIS, Sept. 28.—Pansy, a small Scotch terrier owned by Charles Witt of 225 Converse avenue, East St. Louis, is mothering two incubator chicks. She previously assumed charge of three kittens, which led to a fight with the mother cat, in which the cat was victorious, and carried off her offspring. Pansy has added the chickens to a litter of pups which she has.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot-water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet or intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can't get feeling right are urged to obtain a quart or more of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

SWINE MARKET SHOWS INCREASE

PORTLAND, Oct. 2.—With a liberal increase in the swine supply, the market at North Portland started very slow for the week. The trade in general was a fraction weaker, although some of the stuff sold at former prices. Killers were trying to depress the market at the start, but sellers were slow about letting go.

General hog market:
Choice light weights.....\$9.50@10.00
Good light weights.....9.25@9.50
Medium weights.....8.75@9.00
Rough heavy.....8.50@9.00

Cattle Situation Steady.

For a long time the cattle market started about steady. There was a sale of a very good load of cows at an advance of 25c. Quite liberal stock of poor stuff was shown and this dragged somewhat. The run in general was heavy and early buying indicated little change in the situation.

General cattle market range:
Prime light steers.....\$6.50@6.75
Prime heavy steers.....6.00@6.25
Good light steers.....5.90@6.25
Stocks and feeders.....5.00@5.75
Prime dehorned cows and heifers.....5.50@5.75
Common cows.....4.90@5.00
Palls.....3.50@4.50
Prime light veal calves.....7.00@7.50
Prime heavy veal calves.....6.00@6.00

Most Mutton Comes Direct.

There was a fair run of mutton and lambs reported in the North Portland yards over Sunday, but as during recent days the bulk of the supplies came direct to a local meat company from its regular country buyer. Sales were made 25c higher for ewes and yearlings.

General mutton and lamb situation is excellent.

General mutton and lamb market:
Select spring lambs.....\$ 8.75
Ordinary lambs.....8.00@8.25
Fast yearlings.....7.25@7.50
Good to common wethers.....5.75@6.25
Fast ewes.....5.75@6.00
Heavy to common ewes.....4.50@4.50

Grain prices were slightly higher at the opening today, and developed strength during the early trading, making fractional gains. December wheat opened 2-8/16 up, at \$1.54 3/8, later selling at \$1.55 1/4.

The bulls now look for a better trading market in wheat and corn with September out of the way. Argentine weather and grain reports continue to be a factor in the trading here, and, according to bull gossip, damage in South American crops would change the complexion of the world's wheat supply. No definite figures can be had on the Argentine surplus of old wheat, but it is estimated at 20,000,000 to 40,000,000 bushels. The weather remains unchanged in gentine, according to late cable reports.

Outside grain markets continue very firm and bullish opinions continue to advise purchases on the break. Irregular action is expected by a number of traders.

NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.
When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once.
