AMERICAN SLANG SPURS CANADIANS IN BRILLIANT DASH AGAINST REGINA

"We Got to Jump Fritz and Beat Him to It" Cry Attackers as They Advance Swiftly Through a Sea of Mud--Many Americans Also Participate.

(By Sigma, Copyright, 1916, United Press. Copyrighted Canada.)

WITH CANADIAN FORCES. Some, Nov. 18.—Eight minutes of charging across a sea of mud, methodically advanced garrage and quick trench fighting sufficed the Canadians to take Regina trench. They assaulted in brilliant moonlight and completely won every objective. At midnight every man went over the parapet.

Under cover of gunfire a perfect Canadian was charged fifty yards behind the blasting shells, attacked the Prussian guard and Saxons. They routed the enemy in two minutes. Many Germans died attempting to flee through the barrage. Canadian bomb throwers advanced methodically up the trench, preventing counters.

A violent German barrage started afterward but it was too late. German prisoners admitted the Canadian shell fire was most deadly. Soldiers from all parts of Canada and numbers

of Americans participated. They never wavered but fought like bears.

Before the attack the Canadians occupied a trench directly south of Pys. Thousands of yards of Regina remained untaken. The space between the trenches was indescribably muddy on account of rain and incessant shelling. Two days of continuous artillery culminated in a continuous roar at midnight. A desired trench northward of Regina was the scene of a hard scrimmage. Officers ordered the fleeing Germans to return immediately. Some surrendered and some died where they stood. Nobody shouted stop.

The Canadians used American slang, saying, "We got to jump, Fritz, and beat him to it." The whole action was a model of method and cooperation in all branches. The German dead are strewn around Regina. The general commanding the Canadians is the proudest

THEATERS TO HAVE "FAMILY FILM" DAY

Arrangements Are Completed Whereby Carefully Selected Pictures, That Will Please Whole Family Will Be Given Once a Week.

"Family Films," carefully selected with the idea of giving stimulating and wholesome enjoyment to father, mother and the children, at nominal prices, will be shown weekly at one or another of the playhouses, through an arrangement made between the moving picture managers and a committee representing the women's clubs, the Commercial association, the parent-teacher organizations and the schools.

These films will probably be shown each Thursday, the playhouses taking turns in exhibiting them. Popular prices, 5, 10 and 15 cents will be charged. In the afternoon the last performance will be given at 4 o'clock to enable school children to attend and in the evening the first performance will be given at 6:45 to enable the children to get home early.

Recently a conference was held between the picture show men and the committee representing the various organizations and proved very successful in developing a plan of co-operation. The playhouse managers evinced a readiness to work with the organizations in providing special films for family entertainment. The managers will select these films themselves, for it is not the purpose of the committee to exercise a censorship. The films will be advertised in the schools with the full sanction of Superintendent Park and the school board, and the ministers will announce them from the pulpit. A committee composed of Mrs. T. R. Hampton, Mrs. C. H. Williams, Mrs. G. I. La Dow and Rev. J. E. SUPERINTENDENT PARKS HEARS GRIEVANCES OF P. H. S. BOYS

The boys of the high school student body were called into assembly yesterday afternoon for the express purpose of airing their grievances against Superintendent Park. After talking the matter over among themselves, Superintendent Park was called into the meeting and the grievances placed before him.

The grievances as stated by the boys were that he had practically broken up the student body, he had made promises but had failed to keep them, and he was unjustly removing students from offices.

As evidence of their first grievance the boys stated that Mr. Park had earlier in the year without the consent of the executive committee, ordered a tacking dummy and charged it to the student body.

To this Mr. Park replied that he was not familiar with the constitution of the student body and would not have taken the action which he took if he had known that it was against the constitution. He further stated that he had done many favors for the high school and would in the future cooperate with the students in their activities and would do his best to please them.

He said that he was glad to have had the grievances put to him in such a straightforward manner and believed that in the future these differences would be removed.

"POLISHED PEBBLES" IS ENTIRE SUCCESS

High School Play Is One of the Best Local Talent Numbers Ever Seen in Pendleton.

A good sized audience last night witnessed the high school play club's production of "Polished Pebbles." The play was one of the best local talent numbers seen here in years, the music being of good quality and the comedy being far above amateur standing.

Some of the people even thought that Charlie Chaplin was loose on the stage and were greatly surprised to find that it was only Zoe Carney, a real, genuine, high school student. He displayed such originality in his parts that Chaplin himself would have played alongside him and he had the audience in a continual roar of laughter. Via Crawford, who played alongside Carney and Fleta Hall, play-

SPANISH MISSION TO PORTUGAL IS SUCCESS

MADRID, Spain, Nov. 18.—The reformista mission to Portugal now completed has been brilliantly successful. The mission has returned to Madrid, where the good work commenced in Lisbon will be continued, the value and significance of which are far beyond what is generally believed. Actually, the mission, although unofficial, started for Lisbon with the approval of almost every party, executing those of Germanophile tendencies.

In Portugal the mission was every where received with extreme cordiality, the keenest interest being displayed throughout the country in its objects, the Portuguese being evidently keenly favorable to the improvement of Hispano-Portuguese political relations.
