

The OWL—
a dependable smoke

YOU have many friends, but there's one you depend on. You admire him. You like him. You appreciate him—he's dependable.

Smokers appreciate the OWL in just the same way.

The OWL is made from long filler leaf, cured an average of eighteen months. Its mildness and flavor are dependable.

It is carefully molded by hand. Its free-drawing and even-burning again are dependable.

Dependability is the cornerstone of the OWL'S popularity.

WILL KEEP PRISONERS IN OLD SAFETY VAULT

Equipped to Keep Burglars Out Will Be Used to Keep Them In.

WASHINGTON, Nov. 25.—While the supreme court of the district is in its temporary home, it will confine its prisoners during the day in a safety vault.

The outer door of this "prison" is equipped with all the modern appliances to guard it against burglars. The inner door is of two-inch steel equipped with double key locks.

Three feet of solid brick, lined with sheets of steel, compose the walls of the vault, which formerly was used by the auditor for the United States census bureau for the storage of documents. It is 50x20 feet square. The door was built to prevent forcible ingress. It will be utilized for the next two years to prevent forcible egress.

When prisoners are brought from the district jail they will be placed in this vault. The keeper is now trying to decide whether or not it would not be wise to have the time lock removed in order to eliminate the possibility of some practical joker forcing the prisoners to spend the entire night in the vault. He will watch out too for expert safe burglars among the prisoners.

How Publicity Helped Mrs. Thomas to Health

DOCTOR HAD DECREED OPERATION WHEN SHE READ OF MRS. DUNLAP'S EXPERIENCE.

Some time ago Mrs. R. C. Dunlap of DeKalb, Mo., wrote to the St. Joseph, Mo., News-Press telling how, after years of suffering, with stomach trouble, she had been relieved of a quantity of gall stones and restored to health through using Fruitoia and Traxo. This letter was published and read by Mrs. Georgia Coe Thomas of Lancaster, Mo., who had been told by her doctor, after months of treatment for similar trouble, that nothing but an operation would save her. Mrs. Thomas obtained Fruitoia and Traxo from the drug store, and says "By the time I had taken a month's treatment I felt like a new woman; the first dose of Fruitoia brought a large number of gall stones and I am certain Fruitoia and Traxo saved my life."

Fruitoia and Traxo are compounded from the original Epsom formula at the Pinus laboratories in Monticello, Ill., and can be purchased in Pendleton at Tallman & Co., 622 Main street; a doctor's prescription is not necessary. Fruitoia is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alterative that is usually sufficient to rebuild and restore the weakened, rundown system. A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

HEAD OF NEW HOME ARMY BEGINS HIS WORK IN BERLIN

BERLIN, Nov. 25.—Dr. Kurt Sorge, the new technical chief of staff to Gen. Groener in the department of munitions, who will head the industrial department in the new war bureau of the war ministry, and upon whom will fall a large share of the responsibility for the creation, maintenance and efficiency of the proposed "home army" that is to complement and sustain the armies in the field, has arrived in Berlin to take up his new work.

Dr. Sorge has expressed confidence that the general plan of the "home army" will prove successful. He showed a keen appreciation of the interest displayed in America concerning all economic and industrial steps which the warring nations will take.

"I am a firm believer in taking the neutral press into our confidence and working with it," he said.

FOOD PROBLEM REQUIRES A WORLD WIDE VIEWPOINT

WASHINGTON, Nov. 27.—The commerce department under the partial supervision of Secretary Redfield has started an investigation for increasing and more equally distributing the national food supply. Administration officials believe the high prices reign because last year's production was lower than usual and exportations larger.

Officials believe the food problem requires study from the entire world's viewpoint and cannot be handled as purely a domestic issue. It is officially denied that Wilson approved food embargoes.
