GUN SHOTS FROM RAILROAD TRUCK CAR

This mighty gun of 270 MM., set up in position near Verdun, is the final proof that the French have so prepared their defense there that they never will be driven back on the front of the war. When the Germans began their attack on Verdun there were only two French railroads running into the town, and these could not haul in supplies and ammunition fast enough. The Germans had secretly built sixteen roads. But since the French have progressed so far they can shoot from their railroads it has become evident they have every means of transportation.

MILTON VOTERS HOLD A CAUCUS

C. D. HUBBS IS RENOMINATED FOR MAYOR AT MEETING MONDAY NIGHT.

C. E. Samuels Named for City Recorder, T. C. Frazier for Treasurer, C. J. McKenzie and T. C. Hewitt for Councilmen—Other News Notes.

(East Oregonian Special.)
MILTON, Dec. 7.—The Milton voters assembled in the Alliance hall Monday night for the nomination of the city mayor, recorder, treasurer, two councilmen, and also to vote on what to head the ballot.

C. D. Hubbs was renominated for mayor; C. E. Samuels for city recorder; T. C. Frazier was nominated for treasurer; C. J. McKenzie and T. C. Hewitt were nominated for councilmen. The election will be December 12. There will also be two amendments to the city constitution to be voted on. One is that the city let the county sheriff collect the taxes so there will not be any controversy and they will correspond with the county taxes. The ballot will be headed the "Citizens Ticket."

The Women's lodge of Milton held a business meeting Monday night for the election of lodge officers. They were as follows: Mr. Arthur G. Hall, offered foreman; Carl Hicks, master of ceremonies; Mrs. L. B. Kicker, correspondent, and L. B. Kicker, elected chaplain. The rest of the officers of the lodge will be appointed.

The Milton-Freewater schools had an interclass debate which was won by the Sophs and Seniors. The Freshmen were against the Sophs and the Juniors against the Seniors. Both teams put up a good fight. The same teams won this that won last year.

Few men would trouble themselves to look for work if they didn't need the money.

SAYS BODY IS A POISON FACTORY

URGES EVERYONE TO DRINK GLASS OF HOT WATER BEFORE BREAKFAST

Just as coal, when it burns, leaves behind a certain amount of incandescent material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast, each morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

IMMIGRATION FROM WESTERN ASIA IS PROBLEM SAYS COMMISSIONER

WASHINGTON, Dec. 7.—The strong probability of a vast movement of immigration from western Asia to the United States within the next few years should demand attention in advance, according to the annual report of Commissioner General of Immigration Caminetti to congress today.

This movement was just commencing and was temporarily stayed by the breaking out of war, says the report, but it is only a question of time when it will begin anew, when doubtless the history of previous large immigrations will be repeated.

Immigration from eastern Asia, says the report, which has been one of our most serious problems for years, has not yet been solved. Modifications and additions to the present immigration laws to cope with this oriental invasion, are urged. A provision to the Burnett bill, which has already passed the house and been reported favorably by a senate committee, is suggested as an ideal solution.

The fact that no person of the Mongolian race, no matter how long his residence here or devotion to our country and institutions, can ever become a citizen, while a Mongolian "by accident of birth here" may become such in spite of adherence to the customs and ideals of the land of his people, is an inconsistency which detracts from the dignity of American citizenship, in the opinion of the commissioner.

Regarding the necessity for excluding aliens on "economic grounds," which question has been before the judicial and legislative branches of the government, the report says:

"It is just as desirable from the point of view of the committees affected, that an alien shall become a public charge because he cannot find a job in which he can make a living, so it is that he shall become a public charge because he is of poor physique or in ill-health or a cripple."

During the fiscal year 1914 aliens to the number of 1,218,480 migrated to the United States. In 1915 the total dropped to 326,700 and in the past year only 298,826 entered the country.

country. Increase of the medical force for the examination of immigrants is recommended, a more intensive physical examination progress shown by experiment rejects a greater percentage of those unfit for admission.

The service has been particularly active in the past year, according to the report, in combatting the evils of "white slavery." Prosecutions were instituted in 86 cases and 70 convictions secured. The corresponding figures for 1915 were 66 and 52.

Cough Medicine for Children.
Mrs. Hugh Cook, Scotsville, N. Y., says: "About five years ago when we were living in Garbutt, N. Y., I doctored two of my children suffering from colds with Chamberlain's Cough Remedy and found it just as represented in every way. It promptly checked their coughing and cured their colds quicker than anything I ever used." Obtainable everywhere—Adv.

Dated this 6th day of December, 1916.

T. B. GURDANE, City Marshal.

ALL LIVESTOCK IS REPORTED STRONG

PORTLAND, Dec. 7.—There was a rather liberal run of swine in the North Portland yards overnight and the trend of the trade is showing strength around former quotations of \$9.50 to \$9.75 for extreme top quality.

General hog market:
Prime heavy weights.....\$9.70@9.75
Prime light weights.....9.55@9.58
Good light weights.....9.40@9.50
Medium weights.....9.25@9.35
Rough heavy.....8.00@8.50

Cattle Trend is Strong.
Strength in the cattle market at North Portland is pronounced with only a nominal run in the yards overnight. The sale of fancy stuff at the start of the week around \$7.25 and on better, indicates that the demand for real good quality is keen.

General cattle market range:
Prime heavy steers.....\$7.00@7.25
Prime light steers.....6.50@7.00
Good steers.....6.25@6.40
Medium steers.....6.15@6.25
