FELIX DIAZ IS FOUND PLANNING NEW RAID

Rebel Leader Has 1000 Followers in Guatemala Ready to Invade Mexico.

WASHINGTON, Dec. 9.—Secretary of State Lansing announced today that after a search of several months state department officials had found Felix Diaz, Mexican anti-Carranza leader, in Guatemala.

He is "preparing to invade Mexico and begin a new revolution," it is reported, and has 1000 men at present.

A wide search for Diaz began last summer when reports made he was secretly furnishing Francisco Villa with supplies to resist General C. P. G. forces in Mexico. Diaz has been reported as being at the head of a rebel force in Oaxaca, Mexico, since then, but the rumors were denied in that country.

INFANT MORTALITY BIG WHERE PAY IS LEAST

U. S. Children's Bureau Head Advocates Instruction and skilled Care for Mothers.

WASHINGTON, Dec. 9.—Eight times as many babies die that are born to the poorest paid families in the country as those born in families receiving moderate wages. In the startling statement of Miss Julia C. Lathrop, chief of the United States children's bureau, in her fourth annual report to President Wilson.

"In Manchester, N. H.," she reports, "it varies from one death among every four babies where fathers earn less than \$450 a year to one death among every 16 babies where fathers earn \$1050 or more." The report refers to the effect of living conditions upon mothers and points out that the sickness or death of the mother lessens the baby's chances for life and health. Fifteen thousand mothers die year by year in this country from largely preventable causes incident to maternity, the report states, and the death rate from maternal cases has not decreased since 1900.

"The means of prevention are the instruction of the mother, skilled supervision before the birth of her child and suitable care during confinement," the report continues. "But she must also have nourishing food and sufficient rest and freedom from anxiety—in other words, decent living conditions."

FARM LOANS IN DEMAND.

Total of \$150,000,000 Could Be Put Out as Soon as Banks Are Organized.

WASHINGTON, Dec. 9.—Officials of the farm loan board announced today that more than 50,000 farmers have applied for mortgage loans aggregating approximately \$150,000,000 or more than 17 times the amount of money which will be immediately available for loans upon the organization of the 12 farm loan banks. Most of the applications have come from the south and west. They still continue to come in by hundreds every day. Requests for application blanks, contemplating requests for loans to 2000 farmers, have come from Iowa alone. Although the location of the banks

probably will not be announced before December 20, it was said today that almost immediately after organization the banks would find it necessary to issue bonds for virtually their entire capital stock to meet the demands of borrowers.

The rate of interest on bonds, is a subject now engaging the board's attention. It is thought that it will not exceed 5 per cent, and may not exceed 4 1/2 per cent.

spoke before the chamber on the importance of the highway. The forestry service will be requested to aid in the construction. PHONE COMPANY ASKS DAMAGES

Claim of \$74.20 is Filed Against Town of Pullman.

PULLMAN, Wash., Dec. 9.—A loss of \$74.20 was sustained by the Inland Cooperative Telephone association when its poles and cables were damaged through blasting incident to the street work on North State street, according to a claim filed with city officials. The blasting was done by the Washington Paving company, which has the contract for the improvement of North State street, and, while the company gave bond for damages to property, the telephone property was not included. The claim has been referred to the street and highway com-

mittee of the city council and the city attorney for investigation. To make possible the granting of the petition of College Park property owners for house numbers in that addition the council has passed an ordinance changing the name of Main avenue, in College Park only, to College avenue. This made necessary the change of the name of College avenue in Campus Park addition to Adams street. It was impossible for the residents of College Park to enjoy free mail delivery until the name of the street, which conflicted with another street in a different part of town, was changed. The city administration will provide house numbers, when Uncle Sam is expected to extend his free city mail delivery to include College Park.
