BATTLE SHIPS ON LAND

SINCE the British brought their fighting "Tanks" into use on the continent engineers have been giving attention to the possibility of a land battleship greater than the tank in size and destructiveness.

indication of the machine he has in mind: It is impossible within the limits of a short article to describe this machine which I have conceived in all its details.

"No doubt you are familiar with the military masts of our American battleships. They are latticed towers, not unlike cages. They are thus constructed so that whole sections of the lattice-work may be shot away; but the remaining portions will still support the mast.

"So I would build the wheels of my war-machine. Why not armor them instead? They would weigh far too much—thousands of tons, in fact. But the hub I would armor—and heavily. There the spokes would be concentrated so thickly that they might be shot away in great numbers.

"I am full aware that the problem of obtaining engines which will give this war machine a speed of one hundred miles an hour is not easily solved. But if thousands of horse power can be developed by the engines of pitching and rolling battleships, it is not unreasonable to suppose that competent engineers can be found to design and build steam engines of twenty thousand horse-power, fed by oil-fired boilers."

Who knows but that before the present war is over such huge juggernauts may be in use. They may even be an important factor in determining the outcome of the war and shape the conduct of future wars just as the ironclads developed during our civil war proved the forerunners of modern battleships.

Grant County Ranch Sold for \$200,000. C. J. Ragsdale of Joseph, a nephew of T. R. Hampton of this city, is purchaser.

By the terms of a deal closed yesterday by Ray W. Logan of La Grande, Or., the famed MacRae ranch of 8900 acres in Grant county, known as one of the most efficiently conducted cattle ranches in the west, has been sold by its owner, Mrs. Lillian MacRae, to C. P. Ragsdale, of Joseph, Ore., a nephew of T. R. Hampton of this city. The price was \$200,000 and the deal was cash. Mr. Ragsdale will take immediate possession.

The land is partly on the John Day river near Dayville and partly in Bear valley. It consists of 550 acres in alfalfa, 2000 acres in meadow and 5500 acres for grazing. Included are 10,000 sheep, 100 horses, 100 head of cattle and a large amount of farm equipment. The place is provided with modern barns and residences.

All the stock is registered, even to the hens and turkeys. This is a part of that ranch that has added to its income. Mrs. MacRae will move to Portland within a few days and eventually plans a trip to France and England to visit relatives.

C. P. Ragsdale, purchaser of the ranch, recently disposed of a large wheat and sheep ranch he owned at Joseph. He will take immediate possession of the MacRae ranch.

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.
