### WALL STREET PROFITS WILL BREAK ALL RECORDS THIS CHRISTMAS

(By Lowell Mellett, United Press Staff Correspondent.)  
NEW YORK, Dec. 15.—The drippings from the overflowing vats of fat rendered in Wall Street from the munitions trade with warring Europe, will be distributed this week and next to employees as Christmas gifts that break all past records.

The fat dripping of today would have made a feast for both employers and employees during the long holidays of 1915 before the European war. Of course, all the record-breaking profits do not come directly out of the sale of powder and shrapnel and hospital supplies but in which the trading out were materials that is behind the great stimulation of the street.

The bankers and brokers have it to give this year and they will never miss it. The only slight cloud on the horizon of the professional trader at this time of good will is the suggestion from Germany of peace. But this has been blown almost entirely away by the chill winds which greeted it in the allied capitals.

On a million shares in the stock exchange the profit to the brokers in round numbers is \$250,000. Actually the profits of brokers are much greater because the tabulated figures comprise only stocks handled in hundred share lots or more.

Brokers dealing directly on the New York stock exchange received \$5,000,000 in commissions in the month of November off the trading in lots of a hundred or more it was estimated.

They had this much income if they didn't earn another penny. But there is no law against broker buying or selling stocks for himself, which is one way big profits are made.

"We've been too busy handling other people's orders," one broker complained ruefully, "to do much for ourselves."

There is the case, however, of one young man who worked as a stenographer a year ago and is now said to

be worth \$250,000 which is stowed away in a bank, the money made out of a brokerage business set up on \$5000. His operations have all been on the curb market.

In the stock exchange with a \$75,000 seat paid for by the firm for whom he was a telephone reporter five years ago is Robert C. Nanke.

Most Wall Street stenographers, however, will go without seats on the exchange. They will have to be content with \$100 to \$500. The latter sum is the figure predicted today for the smaller wage earners in the banking house of J. P. Moran and company, though formal announcement of the firms has not been made.

### Amusements

What the press agents say about Pendleton's present and coming attractions.

John Emerson, who was chosen by Mary Pickford to direct the first picture produced by her own film corporation, has shown masterly work in "Less Than the Dust," which is the title of the play written by Hector Turnbull. One of the scenes is a street in an East India city in which the director has shown wonderful skill for his detail. It is a narrow, winding thoroughfare filled with people of a cosmopolitan variety in every shade of costume, making a remarkable picture as they pass between the rows of shops and picturesque bazaars kept by the brown skin natives. Here Mary Pickford makes a striking figure leading a camel and again followed by a crowd of street urchins as she passes along with a water jar poised on her head.

### QUIT MEAT WHEN KIDNEYS BOTH

#### TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacist; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

### FEW FOLKS HAVE GRAY HAIR NOW

#### DRUGGIST SAYS LADIES ARE USING RECIPES OF SAGE TEA AND SULPHUR.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

PORTLAND, Dec. 15.—Excellent tone is showing all through the livestock trade, with only nominal receipts at North Portland over night.

Situation in the mutton and lamb trade is intensely firm.
