## "Naughty Rebecca"

SME'S A 12-CYLINDER JOYFEST.

### SAVED BY A BOY'S "FIRST AID."

Improved Hournquet Kept Playmate From Bleeding to Death.

HADDONFIELD, N. J., Dec. 15.—But for the presence of mind and knowledge of "first aid" displayed by Conrad Sharpley, 11 years old, Albert Stewart, 10 years old, probably would have died from loss of blood, according to Dr. W. H. Long who looked after the case. Young Stewart was jammed against a window in the public school during some skylarking of older boys and his hand went

through a pane. Two arteries of a wrist were severed and the blood gushed forth in a double stream. Young Sharpley whisked out his handkerchief, improvised a tourniquet about the wrist of the injured lad and stopped the flow of blood.

One applauds the exertions of the diet squad, but one suspects that its members will not voluntarily continue to diet.

Ever notice that the compliments some people hand you always leave a bitter taste?

## PORTLAND PROPOSES CITY LIGHT PLANT

Council Believes Current Can Be Obtained More Cheaply If Furnished by a Municipal Establishment.

PORTLAND, Dec. 16.—In recommending to the city council yesterday an award of contract to the Portland Railway, Light & Power Company for lighting the streets and public buildings during the next two years, City Commissioner Daly submitted a report in which he outlines plans for a campaign to establish a municipal lighting plant.

The two-year contract was awarded to the Portland Railway, Light & Power company at a rate of \$51 a year for each arc light supplied with current from overhead wires and \$62.50 for those supplied from underground lines. The bid also provides a straight 2 cents a kilowatt hour for incandescent service. The Northwestern Electric Company submitted a higher bid on a five year basis.

Realizing that a move is to be made for the establishment of a municipal lighting plant, the council granted the two-year contract rather than one for five years. On a five-year basis the Portland Railway, Light & Power company bid provided a lower rate than for the shorter contract.

For several months engineers have been conducting investigations in the Bull Run water reserve to determine the feasibility of a power plant. Mr. Daly says a report on this will be ready in detail about February 1.

The plan will be to put before the voters the question of issuing possibly between \$1,000,000 and \$2,000,000 in bonds for the establishment of the plant. It is figured a distribution system equal to that now belonging to the Portland Railway, Light & Power Company within the city can be established for \$500,000.

The purpose is merely to provide current for the lighting of streets and public buildings. Mr. Daly says engineers have figured that this can be handled so that the city can get much more light for streets at less cost. The cost under present conditions is \$290,000 a year. This Mr. Daly says is \$125 for each horsepower a year. He says the municipal lighting plant will be able to produce the power for \$120 a horsepower a year.

## LIBERAL RUN OF HOGS IN PORTLAND

PORTLAND, Dec. 16.—There was a liberal run of hogs in the North Portland yards over night. Trend of the trade was considered steady, with prices practically unchanged from recent days. While the bulk of the sales of top quality have been made of late around \$9.50, still something extra select, such as arrived on Monday, would bring the extra 15c quoted on this basis.

General hog market price range: Prime heavy, 225-250 lbs. \$9.75@9.85; Prime light, 200-225 lbs. 9.65@9.75; Good hogs 9.50@9.65; Ordinary mixed lots 9.00@9.50.

Cattle Market Steady.

Condition of the cattle market trade at North Portland are favorable, with no apparent change in quotations for the day. In fact, the market for cattle has held practically uniform since Monday. Real good stuff has been lacking, but all sorts of stuff has found a good demand around current figures.

General cattle market range: Best beef steers \$7.50@7.55; Good beef steers 6.50@7.00; Best beef cows 5.75@6.25; Ordinary to good 5.25@5.50; Best heifers 6.00@6.25; Bulls 3.25@3.50; Calves 5.00@7.00; Stocker-feeder steers 4.00@5.00; Stocker-feeder cows 3.50@3.50.

Contract Sheep Arrive.

Aside from the cattle stuff from the Willamette valley, there were no arrivals in the mutton division of the North Portland market over night.

Market for sheep and lambs in general remains firm. Killers are depending entirely upon their own feeding at this time, because of the lack of open market offerings.

General mutton and lamb market: Best east of mountain lambs \$9.75@10.00; Best valley lambs 9.75; Yearling wethers 8.50@8.75; Ewes 6.25@7.25; Goats 5.25.

Friday Livestock Shippers. Hogs—D. H. Holly, Adrain, 1 load; P. A. Miller, 1 load; W. M. Thompson, Weiser, Idaho, 1 load; J. S. Flint, Junction City, 1 load; J. E. Smith, Donald, 1 load; Tim Derr, McMinnville, 1 load; L. H. Robinson, Amity, 1 load; G. A. French, Airle, 1 load; L. A. Thomas, West Stayton, 1 load.

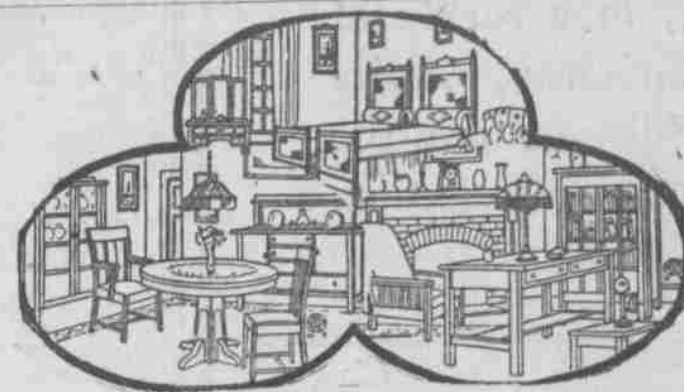

Mixed stuff—M. M. Hoctor, Lyle, Wash., 1 load cattle and hogs; C. E. Lucke, Molalla, 2 loads calves, hogs and sheep; P. B. Decker, Silverton, 1 load cattle, hogs and sheep; H. L. McFadden, Harrisburg, 1 load cattle and hogs.

A drop of 25c a barrel in the price of all grades of flour took effect in the local market during the morning. The extreme weakness in the wheat market at Chicago during the early season gave the flour trade here further weakness and another drop of 25c a barrel was expected at any moment. This would place the price of patent down to \$7.50 per barrel or 40c below the extreme price of the season to date.

The decline in the Chicago wheat market during the morning was extremely sensational, although this was by no means reflected in the foreign situation. Liverpool gain reported spot wheat unchanged and a steady tone was indicated for cargoes on the London market.

Back of East Oregonian.

The Chicago decline was apparently caused by the foreign news talk, but was due more or less to the fact that many small interests have been widely speculating in wheat and at the first sign of impending weakness all tried to get from under by dumping their long stuff.

Millstuffs market is extremely firm locally, with a further advance of \$2.50 for bran and \$3.50 for shorts. All the business in this line is local, no California trade being reported. In fact there is not enough stuff available for outside shipment.

Flour—Selling price: Patent, \$7.80; Willamette valley, \$7.90; local straight \$7.00@7.40; bakers' local, \$7.60@7.80; Montana spring, \$9.00; export, \$14.20; whole wheat, \$8.20; graham, \$8.00; rye flour, \$8.75 per barrel. Hay—Buying price, new crop: Willamette valley timothy, fancy, \$17; eastern Oregon-Idaho fancy timothy, \$21; alfalfa, \$18@20; valley vetch, \$14@14.50; cheat, \$14@14.50; clover \$14.

Grain Sacks—1916, nominal; No. 1 Calcutta, 11 1-4@11 3-8 in car lots; less amounts are higher.

Millstuffs—Selling price: Bran, \$26.50; shorts, \$30.50. Rolled Oats—\$7.50@8.00 per barrel. Rolled Barley—\$41@42 per ton. Portland wheat market went to smash following the sharp decline in

IN POUND.

The following described animal has been taken up by the Marshal of the City of Pendleton, to-wit: One bay mare with suckling colt, weight about 1000 pounds, branded on left shoulder, not visible; age about 11 years.

If said animal is not claimed by the owners or those entitled to its possession, costs and expenses paid and taken away within ten days from the date hereof, then at 2 o'clock p. m. of the 18th day of December, 1916, the said animal will be sold to the highest bidder, at public auction for cash, at the City Pound, 312 West Webb Street, in said City of Pendleton, the proceeds of such sale to be applied to the payment of such costs and expenses of making sale.

Dated this 6th day of December, 1916.

T. B. GURDANE, City Marshal.

Chicago. Bids for December delivery on the Portland Merchants Exchange were 8 to 10c lower than the previous day.

December oats bids were down 10c a ton, while barley was off \$1 a ton.
