UNMARRIED MAY GET \$4000 EXEMPTION ALSO

WASHINGTON, Jan. 4.—Treasury department officials ruled today that \$4000 exemption from the income tax law granted to heads of families applies not only to married persons, but to others maintaining dependents over whom they exercise "family control."

The original income tax law named as beneficiaries of the \$4000 exemption married men living with their wives and married women living with their husbands. The act of last September, changing the rates of taxation named "heads of families."

"For this purpose," reads the department's ruling, "a head of a family is held to be a person who actually supports and maintains one or more individuals who are closely connected with them by blood relationship."

## WARRING NATIONS SHOULD MAKE OWN PEACE SAYS LODGE

(J. P. Yoder.)

WASHINGTON, Jan. 4.—Declaring that the people fighting the war ought to make their own peace, and correcting slight remarks against the Fernstorff speech yesterday, Lodge opened the fight against the measure of the Hitchcock resolution endorsing President Wilson's note this afternoon.

He said: "The endorsement of the note, with the idea of a world guaranty would involve such an entanglement and contravention of the traditional American policy of aloofness. When we abandon our traditional policy of separation we are taking a long step and ought to know where we are going."

"I think the people who are fighting ought to make their own peace. Neutrals are specifically excluded in Germany's reply."

Immediately as Lodge concluded Lewis assumed the fight for the administration. He contended the Hitchcock resolution of endorsement does not ask approval of the contents of the note but merely approves the action of the president in sending the note. Lewis says he approves the contents. He dodged the query as to whether he is willing to accept an amendment to the resolution. He declared Wilson's secret diplomacy was preferable to Roosevelt's with a bludgeon.
