### TO SLAUGHTER PREDATORY ANIMALS.

(Continued from Page 1.)

**Sheepmen Take Initiative.**  
While the sheepmen are taking the initiative in this matter, horsemen and cattlemen are co-operating with them as they, too, are great sufferers from coyotes, wolves and other predatory beasts. The proposed tax would be levied only against sheep, horses and cattle.

Mr. Burgess has only just returned from Salt Lake where he attended the annual convention of the National Woolgrowers' association. While there he served as a member of a special committee which drafted resolutions pertaining to a uniform bounty of \$2.50 on coyotes, \$15 on wolves and \$25 on cougars. It also recommended a uniform method of identification by requiring the whole hide of the animal to be produced and the cutting off of the two front paws, such a uniform bounty would eliminate the practice of several states paying bounty on the same animal.

**Situation is Acute.**  
The situation as regards predatory animals is much more acute now than ever before owing to the spread of rabies through coyotes. This situation is not alone confined to Oregon, Mr. Burgess stating that reports

received at the national convention of half a dozen states where the disease is doing great damage.

E. P. Averill, district inspector for the biological survey with headquarters in this city, bears out the statement of Mr. Burgess that the rabies is more serious now than ever before. He declares every man brings to him fresh appeals for federal aid.

The infected area in Oregon now comprises the whole of eastern Oregon from the Nevada line to the Columbia river, according to Mr. Averill. He states that cattlemen and horsemen are losing even more heavily than the sheepmen. He has received a report from Manager Clerk of the Alvord ranch in Harney county telling of the loss of 150 cattle in the past few months. One of the recent losses is Thomas W. Lawson, now in the limelight of the "leak" investigation. A \$1500 bull on his central Oregon ranch was recently bitten by a rabid coyote.

**Menace to Human Life.**  
As evidence that the rabies constitutes a menace to human life as well as to stock, Mr. Averill cites the fact that the state health officer has given the Pasteur treatment to 25 to 50 persons in Oregon during the past year. He has just received a report of the death of a man from rabies in Idaho

and a death has also occurred in Nevada.

The government's work is separate from the state's bounty system and sheepmen believe the two will be able to exterminate predatory animals eventually.

### POLAR EXPLORERS TO HAVE LUXURIOUS FARE

**Capt. Amundsen Takes 600 Pounds of Candy, Other Delicacies.**

CHICAGO, Jan. 18.—When Roald Amundsen, the explorer, left Chicago today for Washington, it was apparent that the food supply on the expedition to the North Pole upon which he is preparing to embark will consist of something more than whale blubber and soup tablets.

Preparatory for the six years' absence in the Arctic, he purchased 600 pounds of candy and quantities of other delicacies including ripe olives, sweet pickles, pickled pigs feet, dried fruits, nuts and apple butter.

A ton of meat has been purchased for each of the ten men who will set out on the expedition. This includes roast mutton, roast beef, ox tails, pork, stewed kidney, ox tongue, lamb tongue, ham loaf, veal loaf, ox marrow and summer sausage.

also purchased tea, coffee, cigars, baking powder, dried eggs, dried milk, cheese and canned vegetables. In all 50,000 cans of food will be carried on the voyage.

During the trip each of the ten explorers will consume 100 pounds of coffee, if he drinks his share. The ship will carry two tons of it and two tons of sugar.

### SAVES CASH FROM SHIP.

**Paymaster Brings \$75,000 Off Stranded Milwaukee.**

EUREKA, Cal., Jan. 19.—The stranded cruiser Milwaukee, whose crew was taken off safely last night, was washed further toward shore near here today. As the hull continued to fill with water, hope of salvaging the vessel faded.

Navy salvagers have abandoned efforts to save the submarine H-3, which the Milwaukee was trying to pull off the beach when the big ship was swept ashore.

The paymaster of the Milwaukee returned to the ship this morning and brought off \$75,000. Personal effects of the officers and men also were removed today.

Preparations for salvage work were discussed by Lieut. William G. Newton, in command of the Milwaukee and J. M. Fraser and R. J. Porter heads of wrecking companies.

There were fifteen meetings of committees, clubs, etc., held in the library during December at which the total attendance was five hundred and sixty nine. The largest gathering was for the Christmas program given by the Lincoln school at which two hundred were present.

When a man refuses to rub his glasses at an Annette Kellerman show that is modesty.

Pendleton people ought to be good gymnasts, the slippery sidewalks giving them such good practice.

U. S. SENATOR OWEN  
WASHINGTON, Jan. 18.—Congress has before it today the joint resolution introduced by Senator Owen, designed to take away from the United States supreme court the power to declare an act of congress unconstitutional. The assumption of this power by the federal courts, Owen declares, takes away from the "sovereignty of the people of the United States."

A MINER'S COUGH  
is the entering wedge for bronchitis, pleurisy, pneumonia or consumption. But it is a mistake to take alcoholic mixtures or drugged pills—they leave the system weaker than before. SCOTT'S EMULSION is taken by thousands of miners because it relieves the cold and builds up strength by helping the blood. Don't Risk Substitutes. Depend on Scott's Emulsion.

### DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breat Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.
