ANOTHER MOUTH TO FEED.
We've got another mouth to feed.
From out our little store;
To satisfy another's need.

IT IS DESTINY

BEFORE tribal or community government was set up each individual had to care for his own safety; individual armament was the order and it had to be.

taken at present but it will be taken in due time because it is destiny.

HIGHLY PRODUCTIVE WHEAT

WHEAT breeding by the Experiment Station at the State College of Washington during the last two years has resulted in the production of several new and exceptional varieties the value of which was strongly emphasized by Dr. Ira D. Cardiff, director of the station, in a recent interview.

Among these varieties, reports Dr. Cardiff, one, known as "triple," has averaged a yield of 50 bushels an acre. Another of the hybrids has yielded an average of more than 46 bushels. Both these varieties grade on the market as "Fife," yet outyield Fife by from ten to fourteen bushels per acre, outyield standard Red Russian by approximately the same amount, and exceed the yield of Forty-fold per acre by fifteen bushels.

In the dry district, upon summer fallow ground, the variety known as station hybrid No. 143 produced 54 bushels per acre. Of the spring wheat, Early Baart ranked highest with an average of 52 bushels, also raised on summer fallow ground.

WORK IS A BLESSING, NOT AN EVIL

ACCORDING to Judge Gatens of Portland, a man who can afford to buy an auto should not require his daughter to work. In the case the judge had in mind he may have been right, but the doctrine he espouses is subject to many limitations. It carries the inference that all work is drudgery to be shunned. Instead of being such an evil work under proper conditions is the greatest blessing in the world.

The state senate has voted to abolish the state tax commission; now if we could just do away with the necessity of levying any taxes all will be lovely.

C. S. Jackson has always been a staunch friend of Pendleton and it was fitting that he should have been presented with a gift that will never wear out.

The people voted for the bone dry amendment and from all indications the legislature will give them what they want.

The munitions makers may not like the newest peace proposal any better than they did the former one.

Us and Spokane and St. Paul and some other big fellows are going out among 'em.

This is no sort of time for any sheep to get affected with scab.

Our auto show is going to be a real affair.

DO YOU KNOW...

That the annual rainfall of Pendleton is less than 15 inches or about one-fourth the normal precipitation at New Orleans?
That Pendleton once had a baseball team called the "Howling Wolves"?
That Louis W. Hill seems to have a case on Pendleton and the Round-Up?
That C. W. Brownfield was at one time in the cents furnishing goods business in Pendleton?

RECEIVING ELECTORAL VOTE OF MAINE

SENATORS SALISBURY, FERNALD & JOHNSON.
Senator Willard Caulsbark, of Delaware, president pro tem of the senate, receiving the electoral vote of Maine from Senator Bert M. Fernald, of Maine, and Senator Charles F. Johnson, of Maine, on the steps of the Capitol at Washington.

That Umatilla county people would be richer had the blue sky law been thought of sooner?

That such distinguished citizens as Judge Marsh, George Hartman, Frank Saling and Clark Nelson once claimed Weston as their home?

28 Years Ago Today

(From the Daily East Oregonian, Jan. 23, 1889.)

Dr. J. M. Pruitt spent all last night on Butter creek being called to see Mrs. Jessie Moore who is very ill.

Born to the wife of William Duff on Saturday, Jan. 19 a boy.

Tom Laceyfield informs the East Oregonian that last Sunday being called away hurriedly by a neighbor he left his door unlocked, forgetting to take a \$10 bill with him which he had collected day before; when he returned he found someone had rummaged his cabin from top to bottom, turning things upside down generally and taking the money, which fortunately was all there was in the house.

The classic waters of the Umatilla are said to contain some very fine trout and several goodly strings of the beauties have been caught by enthusiastic disciples of Isaac Walton.

C. C. Hubbard, the contractor is causing the erection of a handsome residence on his property on Nob Hill the foundation of which has just been laid.

George Peebler, the Echo granger is in town today.

A carload of zinc ornaments with which to beautify the new court house arrived this morning.

JUST THE GIST

SALISBURY, Ore., Jan. 23.—Laws of interest to the grocers will be called to the attention of the state legislature during the second annual convention of the Oregon Retail Grocers' Association, which opened its three day session here today. The convention will also give the solons the grocery trade's opinion of several important measures now pending.

The meeting was called to order this morning by Vice President Geo. Cuisler. Mayor Keyes welcomed the delegates to Salem. Governor Withcomb delivered the principal address of the day on "The State and the Merchant."

In the afternoon the ten cent loaf of bread was discussed and boosted by H. P. Rittman and J. D. Mickie spoke on the pure food laws. Tomorrow the delegates will visit state institutions.

SEATTLE, Wash., Jan. 23.—In spite of hard examinations, student wrestlers of the University of Washington are hard at work today getting in shape for the big meet with the Oregon Aggies at Corvallis, February 23. The squad is short a good 135-pounder, but his gap will be filled if Talbot returns to school next month. Bonilton will represent Washington at 115 pounds and Easterbrook will probably grapple for his school at 125.

ASTORIA, Ore., Jan. 23.—A class of 250 will graduate from Astoria's high school this semester if all goes well in the examinations, which are in full swing today. They conclude Thursday and the results should be known soon afterward.

Boise, Idaho, Jan. 23.—One of the most important measures before the state legislature today is a proposition to establish a university extension course at the penitentiary for the education of prisoners.

ASTORIA, Ore., Jan. 23.—Alfred Hodges, formerly of the Victoria, B. C., Y. M. C. A., will take charge of the gymnasium work at the Astoria "Y" early in February.

GRANTS PASS, Ore., Jan. 23.—Philip Robin, U. S. A., until recently in charge of the recruiting in the Coos Bay district, is in command of getting soldiers for Uncle Sam's army in the Grants Pass and Salem divisions today. He was promoted to this post for his efficient work at Marshfield.

ROSEBURG, Ore., Jan. 23.—Three hundred businessmen from all parts of Douglas county are expected to be on hand tonight in Roseburg for the meeting of the Roseburg Merchants' Association. B. F. Knapp, secretary of the Portland Association of Creditors, is to be the principal speaker. The meeting is for the purpose of getting together and exchanging ideas.

FRUITCAKE 40 YEARS OLD, A WEDDING TREAT

SALT LAKE CITY, Jan. 23.—A fruit cake, 46 years old, baked by the mother of D. C. Walker of Anaconda, Mont., was served at the wedding breakfast here following the marriage of Mr. Walker and Miss Laura Lee of Butte, Montana.

SON OF EXPATRIATED AMERICAN MADE SECRETARY TO LLOYD GEORGE.

MAJ. JOHN J. ASTOR.

LONDON, Jan. 23.—Premier David Lloyd George has appointed Major John Jacob Astor, son of Lord William Waldorf Astor, the expatriated American, as one of his secretaries. Major Astor is the conservative member of Parliament from Plymouth.

Poorly ventilated, drafty school rooms are a frequent source of colds. Contact with children who have colds is another cause. Damp clothing and wet feet are often responsible for that croupy cough, sore throat and tight chest. Dr. King's New Discovery is the remedy for your children when they catch cold. Grown-ups like it too. For nearly 50 years it has been used in bronchial affections with satisfactory results. It quickly loosens the cough and checks the cold. Your druggist has sold it for years. Try it.

Pendleton's Proposed Mausoleum.

A Question Answered

TO THOSE who have stood with bared head in the rain or snow at the grave of a friend or relative, and have undergone the distressing experience of having the final ceremonies conducted with unseemly haste under circumstances both disagreeable and dismal, the thought has invariably arisen: "Why has not some one devised some means of doing away with this horrible practice?" Such a way has been devised, and the question answered.

NO matter how inclement the weather, or disagreeable the conditions without, the entrance halls of our mausoleums form commodious chapels, dry and well lighted, in which the last rites over the bodies of friends or relatives are conducted without hurry, amid comfortable surroundings. Instead of the casket being lowered into the damp earth under depressing conditions, it is carefully and quietly placed in an appropriate white tomb. Instead of the sound of earth falling upon the casket, the opening is hermetically sealed with a concrete slab faced with a marble table for inscription.

THE principal disinfecting and deodorizing agents used are formaldehyde and quick lime—the most searching and effective known, to science. These are contained in central tanks connected with each crypt by pipes, and by means of these patented devices, the general sanitary condition of the modern mausoleum is as perfect as those of a residence.

SO nearly does this system of entombment meet the demands of grief-stricken love, that the sentiment in favor of it throughout the United States and Canada has reached the proportions of a wave of reform. Several hundred community mausoleums, containing from 70 to 1500 compartments each, have already been constructed.

SAFE SANE SANITARY
Mausoleum to be erected in Olyney Cemetery. Make your reservations now.

Portland Mausoleum Co.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

GIVE "CALIFORNIA SYRUP OF FIGS" IF CROSS, SICK, FEVERISH, CONSTIPATED.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children, it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

For John Jacob Astor, son of Lord William Waldorf Astor, the expatriated American, as one of his secretaries. Major Astor is the conservative member of Parliament from Plymouth.
