### 14-YEAR-OLD GIRL KEEPS REVENUE MEN AT BAY

**BILOXI Mass., Feb. 6.**—Sarah Golna, fourteen, armed with rifle and revolver, held off for two hours a band of United States revenue officers raiding the moonshine still of her father in the dense woods of Greene county, north of here, this morning.

V. J. A. Tuco, deputy internal revenue collector, and four deputies crept up on the mountain still. The girl attacked them first with a rifle, then with a revolver, firing a dozen shots, all missing. The officers did not fire.

When her ammunition was exhausted the plucky guardian of the whiskey plant, still defiant, was captured and placed in jail. Her father, Billie Golna; her brother, W. A. Golna, also were taken. Her mother and one brother escaped.

Sarah, who is characterized by the revenue officers as a "half wild mountain girl," is not to be prosecuted for shooting at the officers.

## Daily Chats With the Housewife

**TO CLEAN CHIMNEY.**  
A trip through the housefurnishing department of one of our big department stores is an education in itself. Every time an interested housekeeper makes such a trip she sees something new that she feels she must have. One of the latest things that have been put on the market is a powder, which when sprinkled over the fire, will clean the pipes and chimneys of soot.

This does away with the hated task of cleaning stoves and furnaces; saves coal, as it is much harder to heat a room or an oven when the pipes are covered with soot, and also keeps the pipes from rusting, for the soot collects moisture and starts the rust.

**OVERHEATED AIR.**  
A rise of temperature in the surrounding air diminishes the amount of oxygen consumed and the amount of dioxide discharged. A fall of temperature has the opposite effect. In addition, the overheated air forms a hot jacket around the body, which prevents the radiation of heat necessary to keep the body in a healthy condition. With a sedentary occupation a temperature of from 84 to 79 should be maintained for comfort and health.

**PASTE OILCLOTH COVER.**  
Paste your oilcloth on to the kitchen table with ordinary flour paste, and you will find that it wears twice as long as when tacked on. The oilcloth does not move and wrinkle when wiping it, and so does not crack and soak up water.

**SHOES IN A SUGAR BUCKET.**  
A very good-looking accessory for the dainty boudoir may be made from the old-fashioned wooden water bucket, which is not often seen these days of package goods. Remove the handle and paint and enamel the outside black; paint or stencil a bouquet of bright colors on the cover, and a little vine running around it, near the top, or a band of contrasting colors. Line it with cretonne, black with bright flowers, like the stencil, and make pockets all around inside for my lady's best shoes and slippers. A pair of shoe trees for each pocket may be covered with black satin and tied with bright ribbons. This may be used as a stool when putting on the shoes. Of course, the painting may be done to match the furnishings and hangings, but the black will be most effective.

**A WOMAN'S VOCATION.**  
One of our modern writers has said "A woman is as efficient in business as a man—when she is."

The reason why sometimes she is not so efficient is that her health may fail. But the wise business woman knows now what to do when attacked by the ailments peculiar to the so-called "weaker sex." That greatest of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound, has been freeing women from such ailments for forty years. Try it, if you suffer from such an ailment, and insure your competency and efficiency in the business world—Adv.

Saturation of the automobile market is not so distressing to the ordinary citizen as saturation of certain drivers of joy wagons.

### J. ADAM BEDE.

J. Adam Bede was congressman from Minnesota for eight years. During the time that he occupied a seat in our national legislative halls he was widely known as the "Humorist of the House," so witty were his sayings and so excellent his humor. Often when in the midst of the ordinary work of congress, when there were many empty

seats and general listlessness, Bede would rise to speak. Immediately the empty seats would fill and the feeling of listlessness change to one of intense interest.

Mr. Bede has spoken before some of the largest audiences in America and always makes a hit. In presidential campaigns he has made speaking tours and has been given the big city dates for this work by the Republican committee in nearly every instance.

### SHOWS HOW STOMACH ACTS.

**BALTIMORE, Feb. 6.**—Before a clinic of nearly 500 students of the medical department of the University of Maryland, Dr. Louis Gregory Cole of Cornell University this morning gave a remarkable lecture on the working of the human stomach. The lecture was illustrated by moving pictures which showed the actual reflex movement of the stomach.

Prof. Cole is the first man to have successfully radiographed the pyloric reflex and peristalsis and the pictures were interesting in the extreme.

During the lecture Dr. Cole gave credit to Prof. John C. Memminger of the University of Maryland as the pioneer discoverer of the use of X-rays as a means of diagnosing and recognizing abnormal states of the heart and stomach.

Dr. Memminger was the first to learn that the X-ray could be used to recognize ulcer of the stomach.

## For Grippe, For Colds—

## Hot Lemonade at Bedtime

MOST children can avoid colds and grippe if a few precautions are taken. In bad weather plenty of hot lemonade followed by a warm night's sleep is a valuable help. Good for grown folks, too.

Be sure the lemons are "Sunkist" and the water is piping hot.

## California's Sunkist Uniformly Good Lemons

When you order lemons, ask for Sunkist, the uniformly good California lemon. Sunkist are waxy, tart and juicy. See that they reach you in the clean, crisp tissue wrappers stamped "Sunkist." They will stay fresh much longer if you leave them in these wrappers until you use them. Always have at least a half dozen in the house.

A call has been sent forth by Thomas Allen, a former member of the Fourth Virginia volunteer infantry.
