Kirkpatrick, John Halley, Jr., and Henry Clark.

## I. O. O. F. DISTRICT CONVENTION FEB. 24

Will Be Held in This City With R. Alexander Presiding; 100 or 500 Odd Fellows Expected.

Between 400 and 500 Odd Fellows from over the county are expected to be present Saturday in this city at the annual district convention of the I. O. O. F. and preparations are being made by Integrity and Eureka lodges of this city to make the occasion a memorable one.

The convention will open at 10 a. m. with President R. Alexander presiding. He will make the address of welcome. During the morning the grand lodge degree will be conferred upon all past grands in the county. The addresses for the morning and afternoon sessions will be made by Grand Master Henry S. Westbrook of the Oregon grand lodge, George E. Kellough of Walla Walla, past grand master of the Washington grand lodge, E. E. Sharon, secretary of the grand lodge, and by the president of the Washington district convention.

In the evening there will be a banquet for all Odd Fellows in attendance and this will be followed by an exemplification of the third degree. By teams from the Adams, Weston, Freedom and Integrity lodges, all of the thirteen lodges of the county are expected to have big representations here.

The committee on arrangements is composed of H. J. Taylor, I. E. Young, R. F. Kirkpatrick, Frank Whetstone, S. F. Bowman and C. L. Bonney. The officers of the convention, elected last year at Pilot Rock, are: President, R. Alexander; vice-president, M. L. Watts of Athens; secretary, I. E. Young and treasurer, G. W. Bradley.

## Ladies! At Last We Have Them—

Those much wanted, eagerly looked for wash materials such as beautifully flowered Voiles, Flaxons and Organdies. We also received a fine assortment of plain Seco silks, dotted silk mulls, in the late beautiful shades. The popular white cotton gabardines with large sport stripes are here, and are especially smart, also a splendid selection of spring Wool Dress Goods such as plain Serges, Cicilians, Plaids Etc. Of course it is needless to tell you that our prices are much lower than any merchants in the community, but it is an actual fact, that, by us purchasing in large quantities for 125 stores we can obtain this merchandise much lower than any one in the dry goods business and therefore can offer them to you at a much lower price.

## NEW GARAGE MAY BE ERECTED FOR USE BY PENDLETON AUTO CO.

That J. W. McCormach, of the Pendleton Auto Company has purchased the Livermore property at the corner of Court and Johnson streets and will erect a new garage upon the same is the substance of a report in circulation today. Owing to the absence of Mr. McCormach from the city the report could not be verified. The property has a frontage of 90 feet on Court streets and is 120 feet deep on Johnson.

It is understood Mr. McCormach wishes the new garage because his business has grown too large for his present quarters, thus necessitating additional room. The new garage will be particularly valuable for display purpose.

### DEMOCRATS LEAD REVOLT OVER IMMIGRATION BILL

REPRESENTATIVE J. L. BURNETT REPRESENTATIVE CLAUDE KITCHIN

The president's veto of the immigration bill, which has been the pet measure of Representative John L. Burnett of Alabama through many sessions of congress, was the cause of the first serious overthrow of President Wilson's authority among the members of his own party in the house. Representatives Burnett and Claude Kitchin, the latter the democratic leader of the house, voted to pass the bill over the president's veto.

## After the Show

The Automobile Show is over. You have seen all the cars—now, what other car has so many desirable features as the Franklin? Style, finish, luxury, were the features that kept our Franklin cars in the spot light of public interest. Lightweight, simplicity, flexibility, economy, safety, are the big features that caused the really serious consideration of Franklin design and construction. Direct air cooling makes possible the only perfectly cooled automobile engine. One that will stand any test you can demand of it.—(proven by the 360 mile low gear demonstration). It eliminates the 177 superfluous parts of the average water cooling system, together with all the annoyances of freezing in winter and boiling water in summer. The elimination of all this weight and bulk makes possible light weight and flexible construction, which with full ball bearing construction gives economy of operation that cannot be approached by other types of automobile construction. Economy of gasoline and lubricating oil are proven facts. Three—5,000 to 10,000 miles per set. (Many Franklins get 11,000 to 20,000 out of a tire). Ask any Franklin owner. See us. Ride in a Franklin—drive it—be doubly convinced, then let us have your order while we can give you an early delivery date.

## CUBAN BALL PLAYER HAS REVOLUTIONIST DAD

MERITO ACOSTA

Recent dispatches from Cuba telling of the revolt of the Cuban army and the flight of some units to the interior mention the name of General Baldomero Acosta as one of the leaders of the revolt. The general is the father of Merito Acosta, the well-known ball player, who at present is playing on the Washington team.

## KRYPTOK GLASSES K THE INVISIBLE BIFOCAL

are for people of all ages who require a double vision lens. They combine two pairs of glasses in one, two clear crystal lenses are fused into one, yet they look exactly like single vision lenses, no lines or seams to make the wearer look old or freakish. # BUICK

LEADS IN SALES BECAUSE IT LEADS IN PERFORMANCE.

Those who attended the auto show will remember there was always a crowd around the BUICK stripped chassis. They were admiring the sturdiness of construction, the powerful valve-in-head motor, the shock absorbing spring arrangement and many different essentials in construction and selection of materials that have kept BUICK up-keep to the minimum.

Let us demonstrate what these features mean to YOU on the road.

Cars here for immediate delivery, but we advise you to order NOW as the eastern freight congestion makes uncertain future deliveries.
