

SAY MEN, HOW DOES THIS BILL STRIKE YOU?

The Dolly Sisters, Yancei and Rosiska, co-stars of "His Bridal Night," a new three-act farce, consider Mary Gardner's \$5000 lingerie bill, recently commented on in the New York newspapers, as "not so much."

"As there are two of us, our lingerie bill last year was \$10,000 in American money," say the charming twin dancers. In proof thereof, the Dolly sisters exhibit the following itemized statement of account which appears, like the carte du jour in smart Parisian restaurants, to list nothing as vulgar as prices, only the sum total.

SHORT SKIRTS MEAN BIGGER MEAT BILLS

PHILADELPHIA, Feb. 28.—Short skirts mean bigger butchers' (not to speak of doctor's) bills, says Miss Jane Newcomb, a state college extension lecturer. She told this discovery to a gathering of Quakers here, Miss Newcomb also finds:

Short skirts and silk stockings make a girl eat so much she becomes bad tempered.

An inch from the skirt means a pound of beefsteak inside.

Highly colored dresses are very dangerous and make a girl irritable.

A calico dress is better than imitation silk.

A woman's first duty is to make herself as beautiful as she can.

USES FOR SANDPAPER.

Always keep a piece of finest sandpaper in the kitchen, if your cake or bread should brown a bit too much you can rub it off more smoothly than if a grater is used. If anything sticks or burns on pans the fine sandpaper cleans more easily than anything else.

THE POPULAR SPORTS SUIT

Sport suits, the ever popular and ever becoming, fill a long felt want in milady's wardrobe. Four patch pockets lend distinction to this clever little model.

SUMMER COATS ARE CHIC SAYS SHOPPER

(By S. W. S.)

Are you one who thinks you do not care for coats in summer? I am sure you would linger and gaze and change your mind if you could see all the chic creations I have viewed this morning. Also I talked with the head buyer, just arrived from New York with ideas still warm, so to speak, from the fashion center.

She tells me that the foundation for milady's toilette for the summer should be first, a blue suit, and then plunge right into the sport clothes. And of course, this means a sport coat, for all collars are on sport lines. High colors predominate and sport materials are used even in the long coats.

New Materials. Loopine is a new material used in the creation of some of the summer coats, and greatly resembles the wool sponge, only somewhat coarser in weave. One exceedingly smart model displayed in this cloth has all the latest style features combined in it, having first, the striking combination of two colors, seen so much this season. The body of the coat is olive green, but collar, cuffs and deep flange is in light tan. It has the big enveloping shawl collar, and the deep pockets are made by cutting the flange higher on each side, forming the top of the pocket, which is fastened by a large button. The very deep flange presents you with the new barre effect, which has rolled in on us from across the seas and is called by our French neighbors the tonneau effect. The narrow belt looped in front makes the finishing touch.

And the things they do with belts these days. They have them wind and twist and loop and fold, go through a buttonhole here and behind a button there until your poor brain is added in trying to follow them. Many start from under a large button on the pocket, but most of them from the side seams. As to where they will end is the Chinese puzzle for you to solve for yourself.

Another sport material holding great favor this season is the khaki kooj which is just as nice as it sounds, for it was just created to flutter gaily in the cool breezes on a sunny day. The coats of this material are generally brilliantly striped, some with purple stripes on a gray background, also the new Kentucky greened down by the smoke gray as a background. Silk tricoline, some times called silk sublime, is a cool looking sports material, while in the coarser weaves are the gunny burk, the burella cloth, the wool velours, and the plaids and checks.

One smart model in the black and white check that would be appropriate for street or automobile has the deep hem, the sailor collar finished with streamers of black in the front, while the new touch is given by having the fullness in the back slit up to the waistline. A new name for an old color that promises to be popular the coming season is the minuet, which is no more or less than burgundy. A new coat in this color has heavy silk stitching in white on collars and cuffs, thus adding the necessary summer touch.

Linings. Not to be overlooked are the fancy linings seen in all the new coats. The pussy willow silk seems to be employed the most, all in Japanese and Chinese figures, and in exceptionally bright colors. Linings, according to our friend, the buyer from New York, are going to play an important part in my lady's wardrobe. One serviceable, light weight coat for summer motoring is in solid gray, seasoned by a fancy lining of gold, with Japanese birds and trellises scattered picturesquely about on it. Large pockets and narrow belt finish this model.

Pleats are seen in the sport coats. One model "de luxe" is in solid white Mallon cloth in the meadowbrook pattern, which is sort of a trolly work design. A deep yoke is on back and front, from which hangs full pleats held in by a long narrow belt. For the rest there are buttons of the material and two pockets patched on flat.

LINGERIE DRESSES

Lovely new lingerie dresses have organie collars and cuffs, prettily trimmed with hand embroidery in white or colors.
