Crowds have been thronging the grocery department all day to see the displays, visit the booths and watch the distribution of gifts. Yesterday afternoon between the hours of 1 and 5 over 600 people called and this record will be eclipsed today.

"Off the Tray" Lunches.

So successful was the experiment of serving "off the tray" lunches to passengers on O-W, R. & N. trains No. 7 and 8 between Pendleton and Spokane that the railroad company has arranged to extend the service to all passenger trains on the main line, effective yesterday. The first service was started last October, the dining car waiters passing through the train with trays of coffee, sandwiches, doughnuts and pie which passengers in the day coaches found a pleasant help to the high cost of living.

Inspects P. H. S. Departments.
A compliment to the manual training department of the Pendleton high school is being paid in the visit this afternoon of Supt. L. McCullough of the La Grande schools and Supervisor Harold Mason of the manual training department of La Grande high school. They are securing from Supervisor Chloupek the local course in gas engines, forging and concrete work as well as figures on the cost of equipment and buildings, their intention being to add these courses to the La Grande schools next year. Supervisor Chloupek is also assisting them in outlining a course in primary hand-

work and art. They arrived on No. 17 today and will return on No. 18.

It will provide a rare opportunity for sheepmen of this locality. The car has been shown in several places in Oregon and has always drawn large crowds. The object of the car is to teach the wool grower the value of a working knowledge of the market grades and classes of wool, and to demonstrate the benefits to be obtained through better methods and preparation of wool for the market.

The jury must decide the ownership of the auto.

Our Window

Was the most popular place in town yesterday and today. We hope that you had the opportunity to drop by and see the most beautiful and latest Models and Colors in the city. We sincerely trust that we have proven to the people of Pendleton that the Golden Rule receives the very last word in fashions sooner than any other ladies ready-to-wear establishment. You probably imagined that the price of those window garments were away out of sight, let us surprise you, and see if you do not think we undersell all competitors. The suit is \$18.50, that Champagne Crepe de Chine dress is \$18.50, the Yellow and Gold Silk is \$1.69 per yard. The shoes are only \$4.98 and \$5.90, the fancy hose are 49c a pair. WE LEAD, OTHERS FOLLOW

Fee for the city, that's an hour's argument. Plaintiff is closing with another two hour argument. The instructions will take in the neighborhood of an hour.

Attorneys Fight Each Other.
As the argument proceeds it becomes more and more apparent that the attorneys for the various opponents are fighting each other rather than standing together in opposing the plaintiff. They seem to take it for granted that the jury will give the plaintiff a verdict and each is trying to place the responsibility for the accident upon one or more of the other defendants.

Burnet in his argument contended that each of the four is liable, and rehearsed the evidence tending to show the negligence of each. He made a very strong appeal to the jury in favor of the plaintiff, detailing the injuries and suffering which she has already endured and presenting the probabilities and possibilities of permanent injury.

Raley Springs Surprise.

Col. Raley sprang a surprise when he did what other attorneys referred to as a "right about face" in his argument he abandoned his first contention that there had been no negligence. He declared positively that the evidence had convinced him that there had been negligence, but he contended that it was the negligence of the contractors in failing properly to brace and support the false front. It was this contention that led Stewer to speak the second time. He denied vehemently that his clients had been negligent, declaring they had taken every possible precaution, dictated by their knowledge and experience in carpentry and by their familiarity with local conditions, to safeguard the structure. He contended that it was an extraordinary wind that blew it down. Moreover he placed the responsibility for placing the structure there upon the Peoples Warehouse.

Says Estate Was Drugged In.

Mr. Carter contended that his client had been literally dragged into the case inasmuch as the trustee of the estate had no knowledge of the presence of the false front which was a departure from the plans and specifications upon which the contract for the improvement work was based. He declared it could be raised in justice to make his client liable.

Judge Pee this afternoon is seeking to absolve the city from all blame for the accident.

Considerable importance will attach to the instructions which the court gives the jury inasmuch as there are serious contentions as to the comparative legal responsibility of the defendants.

MANY APPLY FOR LAND ON PROJECT

(East Oregonian Special.)
HERMISTON, March 2.—Yesterday was the first day for filing on the second unit of the West Extension of the Umatilla Project, and the local reclamation office has been kept busy all day with applicants. The second unit comprises about 1300 acres of fine alfalfa land, located around the new town of Boardman, along the Columbia river. A record of the filings made on those forty-acre homesteads will be sent in to the U. S. land office at the Dalles where a drawing will be held on March 6th.

Prof. J. E. Larson of the Oregon Agricultural College was the chief speaker at a meeting held in the Civic Center rooms Wednesday afternoon for the benefit and instructions of the farmers of the project. A large and interested audience heard Prof. Larson's highly instructive address on "The Growing of Alfalfa." Other splendid addresses at this meeting were given by H. W. Allen, of the Umatilla Experiment Farm on "The Raising of Vetch," C. H. Roberts, prominent farmer on the Western Land & Irrigation project on "Production of Alfalfa Seed," and F. A. Winters on "Soil Cover As a Profitable Crop." The next meeting of this nature will probably be held in the future.

Clarence Meade, prominent farmer of the North Ridge district of the project, will leave Sunday with his family for Hartland, Washington, where they will make their home in the future, having traded their

farm here for one near Hartland. J. F. Redland is the new owner of the Meade farm, and he will move here at once with his family. Mr. Redland is an extensive dairyman, and will bring a large herd of fine dairy cows to the project.

E. W. Mack, Hermiston druggist, has purchased the mercantile store building and stock of E. H. Blayden of Boardman. His son, S. C. Mack, will have charge of the store.

Carl Voyer came up this afternoon on the local from Boardman. S. R. Oldaker went to Portland last night for a short visit.

Dr. M. S. Kern of Pendleton, was looking after business interests here the first of the week.

Mrs. F. C. McKenzie returned home from Portland where she has been ill for some time. She is very much improved and was able to make the trip alone.

One of the prettiest parties of the season was that given by Mrs. J. Herbert Strohm yesterday afternoon when she entertained at auction bridge honoring Mrs. Gerald W. Bohn and Mrs. Edmund L. Davis, two charming and much-loved young Hermiston matrons who are leaving the city soon for their new homes. The rooms were beautifully decorated in daffodils and other spring flowers. Mrs. Strohm's guests were Mrs. W. T. Roberts, Mrs. C. O. Wainwright, Mrs. George Rayhall, Mrs. C. S. McNaught, Mrs. J. F. McNaught, Mrs. J. T. Hinckle, Mrs. E. P. Dodd, Mrs. E. T. Fraser, Mrs. H. D. Newell, Mrs. W. J. Warner, Mrs. Joe Ralph, Mrs. Thos. Campbell, Mrs. M. D. Scroggs, Mrs. J. W. (Don) Campbell, Mrs. J. D. Watson, Mrs. W. N. Ross, Mrs. M. J. GERMANS RELY ON THESE TWO FOR SALVATION

GEN. VON HINDENBURG and GEN. VON LUDENDORFF

On these two mighty men the Germans, and in fact the Austrians, Turks and Hungarians, rely for salvation. They are responsible for the break with the United States. General von Hindenburg and General von

Ludendorff, the one chief of the general staff and the other chief of staff, were taken to Berlin from the eastern front, and today von Hindenburg has become a greater hero in Germany than the Kaiser. Von Ludendorff is hardly less popular.
