pany ever produced, will be presented by Selwyn & Company at the Oregon theater on Friday, March 3. The fame of this rollicking farce of Temperament and Temperament ran over the country within the first six weeks of its spectacular engagement at the Eltinge Theater, New York, and the demand for it came with increasing avidity from north, east, south and west. The continued appreciation of the New York critics increased the out-of-New-York belief that "Fair and Warmer" was all that its sponsors claimed for it, and, if anything, more; so that at the Hopwood masterpiece was the most shining of the present season, the prominent feature of the theater's prospects. It will be produced here with an ideal company of farceurs.

WILL BANISH 28 IRISH. LONDON, March 6.—Twenty-eight persons have been arrested in Ireland, Henry E. Duke, chief secretary for Ireland, told the house of commons. The arrests were made under the defense of the realm act.

It was not proposed to try these men, Mr. Duke said. A competent military authority having decided to issue the orders under the defense of the realm regulations prohibiting them from residing in Ireland, this had been done.

Jack Dillon, one of the nationalist leaders, in moving an adjournment of the house in order to call attention to the arrests, declared that the situation in Ireland was extremely serious and said the government had taken good care that it should remain so. These arrests, Mr. Dillon said, showed a sign of change of policy in Ireland; the men were being banished without any reason being assigned.

A GOOD WINTER HABIT

Many people dread winter because the sudden climatic changes bring colds, grippe, rheumatism, tonsillitis or bronchitis. But thousands of well-informed men and women today avoid much sickness for themselves and their children by taking a few bottles of Scott's Emulsion to make richer blood, fortify the membranes of the throat and chest and create body warmth to resist sickness. Soldiers at war receive cod liver oil; it will also strengthen you.

RODMAN LAW REPORTED ILL AND PENNILESS.

NEW YORK, March 6.—Rodman Law, the daredevil aviator, who has thrilled thousands by his "death-defying" feats in the air, is reported ill and penniless, a discharged charity patient from the Kings county hospital. Law suffered from an injury incurred when he leaped from a balloon recently at Trenton, N. J. The parachute failing to work properly, it had been supposed that Law was well fixed, some of his hair-raising stunts having brought him large sums from motion picture concerns. Mrs. Law asserts, however, that most of this has gone and that just now Law is "up against it." Law says that as soon as he recovers "his crutches he will be back at the "death-defying" stuff again and re-establish the family fortune.
