Adding Machine Takes Fire.

There was a little flurry of excitement in the First National Bank last evening when the celluloid keyr caught iftre from some unknown cause. R was after banking hours but the elerical force was still workins. It is believed that a coal from the janitor's pipe fell on the inflammable keys. In a minute the whole top of the machine was after, the flames shooting up four feet. The fire was easily extinguished.

In returning through Wyoming and idaho from his visit in Texas, Roy Buchanac, head of the dry goods department of the Peoples Warehouse, mw evidences of the tle-up of freight traffic which is making it difficult to secure anything from the east. Near Montpeller, idaho, he declares there is about ten miles of freight waiting is about ten miles of freight waiting to be moved. Blockades have so fiel up the roads that it is almost impos-sible to move the freight.

Kids May skate on Walks.

Children on roller skates may skate on the sidewalks but they must keep off the payements. This was the sentiment of the city council last evening. The matter of preparing an ordinance to keep the children off the tyreets was brought up last evening by Councilman Phelps. With so many aurios on the streets, children on skates are aways in danger if they use the payement for a rink, it was contended. Certain objections to skating on the walks developed that the children have some warm friends in the council, Councilman Murphimaking it particularly emphatic that he would not be a party to barring the "kids" from the walk s.

Is placing orders now for 500,000 army shoes and the same amount again in 30 days, making 1,000,000 in all. This is not many, but with such a scarcity it will mean quite a hole in the market. The shoes for next fall that are being shown by the manufacturers, are advanced in price anywhere from 60c to \$1.50 wholesale on a single pair over last year's market. Do you realize what you will have to pay for the families shoes next winter? A word to the wise is sufficient. The Golden Rule have not advanced their shoes to any great degree this year, as the other merchants have done. If you have the where-with-all, to do it, come in now and stock up at the present prices. Look these over.

Fifteen Men Out for Track.

Although track season in the high school does not formally begin until Monday, ten to fifteen men are turning chit every evening. Judging from the amount of "pep" shown the cross country race to be held March 23 will be a lively affair. Manager Reed has secured three good medals for first, second and third places in this race. About fifteen men are expected to try

these medals. Anyway, the winter styles have accustomed the world to the promised short skirted bathing suits.

HOLDS EVERY WORTH WHILE RECORD

There are no important world's records which refer to a stock car that the Hudson Super-Six hasn't won. The best former records are too easy for the Super-Six. The events are too easily won. For instance, in the 24-hour record, 1819 miles, it exceeded the best former record by 52%.

And the Super-Six made the best time in the world's greatest hill-climb up Pike's Peak. The best time for 100 miles. The greatest distance covered in one hour and the fastest time for a stock chassis at the rate 1021/2 miles an hour.

Here we prove again that the Hudson Super-Six has more endurance than we have ever claimed for

What can be more convincing than that round trip across the continent made with a Hudson Super-Six light weight 7-passenger Phaeton? previous records were made with roadsters and stripped cars, but the Hudson at all times carried three, and sometimes four passengers, and with its baggage weighed in excess of 5,000 pounds,

Remember that the Super-Six is a Hudson invention controlled by Hudson patents.

A hundred cars have motors of like cylinder capacity. Many cars have more cylinders. But in the Super-Six vibration has been reduced to almost nothing. That adds 80% to efficiency.
