

Beautiful Blouses of Georgette Crepe

The gorgeous colors of these attractive new waists make them the necessary finish to your new spring suit.

This sheer though durable fabric has all the requirements for dressy waists and still can be tubbed with the same satisfaction as any cotton material.

The plainer models are trimmed with tucks and hemstitching while those more elaborate have trimming of silk or yarn embroidery, steel and colored beadwork, while almost all have the large collars. In many instances the handkerchief frill is a feature.

All are moderately priced from \$5.00 upwards.

You'll Need a Separate Skirt

We are showing a wonderful assortment of separate skirts in solid colors as well as novelty plaids, checks and stripes. Poplin, gabardine, serge, chuddah cloth, tweeds, worsteds and velour are the all-wool materials made in attractive street, sports and dress styles that will surely appeal to you. The prices range from \$5.00 to \$15.00.

A Fit for Every Foot in Quality Footwear

We're holding fast to quality in our shoes despite the largely increased cost of everything that enters into the making. Leather, linings, and labor are all on the up grade but despite the changed conditions we are able to offer you GOOD, SMART SHOES at not very greatly advanced prices.

WE RECEIVED THIS MORNING THE FOLLOWING NEW SPRING STYLES IN WOMEN'S SHOES AND WE INVITE YOUR INSPECTION:

All Grey Buck, French heel, lace boots, Juanita last, very smart and full of class. Priced at \$10.00

COLUMBIA SO LOW BOAT CAN'T LAND AT UMATILLA DOCK

"TWIN CITIES" FIRST BOAT UP RIVER THIS SPRING HAS HARD LUCK.

Mrs. F. E. James Goes to Pendleton to Take Treatment for Bites on Arm Inflicted by Bulldog; Other News Notes.

(East Oregonian Special.)

UMATILLA, March 9.—Mrs. F. E. James went up to Pendleton the first of the week to have Dr. Parker treat her arm, a bulldog having bitten it. The dog is not believed to have the rabies, but will be closely watched. The Twin Cities, the first boat up the river this spring, is having bad luck. The river being so low she was unable to land, so the ferry boat took the freight. There were quite a number of automobiles for Pendleton and Wallula.

Mrs. Roy Pauls and E. J. Withey were Pendleton visitors Tuesday.

Mr. H. L. Merrick and son were up to Pendleton this week.

Mr. Wenghal had his mother up to Pendleton to consult a doctor.

Lee Joynes and A. F. Bude of Walla Walla, registered at the Duncan Wednesday. They are down to get their cars which came up on the Twin Cities.

Mrs. J. H. and Mrs. Fred Pullington were Hermiston visitors Wednesday.

PRESSES CLOTHES; PRICE FIVE SPUDS

Patrons Who Call "Bluff" Find It Cheaper, However, to Pay Coin.

CHICAGO, March 9.—P. H. Crocker who conducts a chain of tailoring shops in the loop, has placed signs in his windows advertising that suits or overcoats will be pressed in exchange for five potatoes.

Five of the spuds rapidly becoming obsolete, from latest reports, are exhibited in his windows. Customers who called Crocker's bluff found that it wasn't a bluff at all. Crocker means business. He is a potato bug. A few who went out to get potatoes found they couldn't get five potatoes for 25 cents. At least so they reported, and they decided that the cheaper way to have their suits pressed was to pay the two bits in coin.

"No, this is not an effort to corner the potato market," said the tailor. "I believe that five potatoes are worth more than 25 cents and I bring the potato proceeds home to my wife and make a great hit with her. The way things are going I may get up a new price scale to include eggs, onions and bread in exchange for tailoring services. Why not?"

Britain Gives Notice She Will Make Own Ammunition After Present Month.

PHILADELPHIA, March 9.—Munition makers in this country have been notified by the British government that all contracts for the manufacture of shrapnel and other shells must be completed by March 31, and that on that date all contracts in existence for these war materials will lapse.

It is explaining that anticipating the extension of the German submarine blockade and the increasing difficulty of sending material across the water the British government during the last year has brought its production of munitions to a point where it is no longer necessary to import them.

That this move would be made by the British has been known for this country for six months.

Very few of the contractors will be unable to finish their contracts within the specified time and the monetary loss will be small.

Note the Great Improvements on the New 1917

DO YOU KNOW...

That Helix was first named Oxford, but that the postoffice department objected because there was an Oxford, Ohio?

That Herb Thompson and Dave Nelson made the most appreciated speeches at the community banquet last evening?

That a roundy and electric plant used to stand where now is the Lincoln school?

That Irvo La Dow used to sell crockery and glassware, and in earlier days was considered one of the best landscape painters in these parts?

That John Halley, Jr., used to be associated with Sam Jackson and L. E. Cox in the ownership of the East Oregonian?

That Gibbon took its name from General John Gibbon of the U. S. army?

TO PLANT VACANT LOTS

Interest Boys and Girls in Food Supply Problem.

TACOMA, March 9.—In a session behind closed doors of the county commissioners today steps were taken toward cooperation of federal, state and county officials in a plan for food preparedness, said to have the support of the war department and department of agriculture. This plan would enlist boys' and girls' clubs to plant vacant lots and other available ground in vegetables and in the country districts would aid them in raising live stock.

The commissioners voted \$400 to be used in this work and it was stated that the federal government, through the department of agriculture, would expend a similar amount in the county and that the Washington state college would add another \$400, making \$1200 available for launching the work. It is understood that the federal government has offered to expend \$400 toward the expenses of eight leaders in as many counties in Washington, to take charge of gardening and stock raising by boys' and girls' clubs, and that five counties already have made application for such leaders.

Nothing so paralyzes the bogey man as to drag him into the light.

SANITARIUM ROMANCE RESULTS IN WEDDING

CINCINNATI, March 9.—A romance which began a year ago at the Battle Creek sanitarium had its sequel today in the wedding of Elmer E. Scott of Madison, Ind., and Miss Fannie Peron, of Battle Creek, who until two weeks ago was social secretary of the sanitarium.

Mr. and Mrs. Scott left immediately after the ceremony for a wedding trip to Atlantic City, whence they will go to Washington.

Your Freckles

Need Attention in March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use othine—double strength.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful that it is sold by druggist under guarantee to refund the money if you fail. Get an ounce of othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.

DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Comfort

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on the temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.
