MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

IF CROSS, FEVERISH, SICK, HELIOUS, CLEAN LITTLE LIVER AND BOWELS.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again. Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other with contempt.

The Dallas School Term Shortened to Stay Within Budget.

THE DALLAS, Ore., March 19.—The Dallas school board held a meeting Friday night to elect teachers for the coming school year. With the exception of two teachers, the entire present staff was re-elected; the two changes being effected on account of age, it was said.

To bring the salaries within the new "economy" budget passed earlier by popular vote, the school term was shortened to nine months.

The previous election of a city superintendent, S. W. Moore, has not yet been made authentic by the state department of public instruction, which considers his credits not sufficient for an Oregon certificate.

COURAGE SAVES SHODONFELC
Oceania Vance Ketches San Francisco After Much Boasting.

SAN FRANCISCO, March 19.—With her seams calked with blankets and a tale of the courage of a handful of brave seamen who have fought valiantly with the tempestuous elements for the last 45 days to save their lives and ship, the schooner Oceania Vance, 31 days out from Sydney bound for Port Angeles, put into port last night in distress.

A strong easterly gale was encountered on January 26. For a week the schooner was in the throes of the hurricane. The Oceania Vance will be put into drydock and repaired before proceeding north.

UNDER THE CAPITOL DOME.

WASHINGTON, March 20.—Sometimes a man knows so much about his job that it doesn't make any difference whether he is a democrat or a republican—he holds his job anyway. There are several like that in Washington, and one of them is Dr. Hugh Smith. What Dr. Smith doesn't know about fish isn't worth knowing. But then, he ought to know something about fish, since he is the head of the United States Bureau of Fisheries.

From 1905 to 1913 Dr. Smith was a fish expert—just an ordinary fish expert; then he became chief of the bureau at \$4,000 a year. He knows all kinds of fish, knows them by their proper names and can tell you just what waters they come from. In fact, he knows as much about fish that politics can't remove him from office.

It might be well to remember that the lengthening of the day doesn't prolong the reckoning of a thirty day's obligation.

CAPTAIN MADE RICH BY COLLISION AT SEA

Sells His Ship for \$325,000, Gets Damages Too, and Now He Will Go to War.

LONDON, March 19.—Thornton D. Hooper, an American, of Philadelphia, left that port for Europe just seven months ago as captain of the sailing vessel Edith A. Cummins, jointly owned by himself and his father.

The ship was in collision with another vessel in British waters and had great difficulty in making port. For five months Captain Hooper waited to have his claims adjusted. In the meantime he received an offer of \$325,000 for his damaged vessel. He closed the bargain, which is said to represent more than three times what he and his father paid for the vessel.

He found it necessary to remain for an additional two months for the adjustment of his collision claims and today received what is said to be a very substantial sum for damages, the case being settled out of court. But in the meantime the bellicose atmosphere had its effect and today Captain Hooper notified the American consulate that he had enlisted in the Canadian army.

W. H. PAGE TO STAY IN LONDON DURING WAR

President Has Asked Him To, it is Understood There, and He Has Consented.

LONDON, March 19.—President Wilson has requested Walter Hines

Page to remain American ambassador in London until the war ends, it is understood here, and Mr. Page has agreed to do so.

Lastimo, a well known European portrait painter, sent from his studio today to the American embassy a portrait of Mr. Page to be hung there among the paintings of his predecessors, among them having been John Quincy Adams, Joseph H. Choate and Whitelaw Reid.

Fifteen intimate friends contributed the money for this portrait and handed a check for the amount to Mrs. Page last summer when she was on a visit to New York with her husband.
