LOWELL ARGUES FOR ANOTHER VOTE UPON COMMISSION SYSTEM

Speakers at Men's Forum Urge Adoption of New Form of City Management; Judge Lowell Makes Principal Address.

The opening guns of what will probably be a new campaign for the adoption of commission form of government in Pendleton were fired last evening at the monthly meeting of the Men's Forum in the Presbyterian church. Judge S. A. Lowell was the principal speaker in urging the new government but others also spoke in behalf of it.

Twice Pendleton has voted upon the new form of government and both times it has lost. Judge Lowell last evening ascribed the defeat to the wet element, to the gamblers and to men who had "pet projects in view which they feared might be disturbed by the commissioners." He stated that these elements are no longer potent in Pendleton and expressed the belief that now is an opportune time to present the question again. A special election at which there is no other question would be held, he stated.

In his address, Judge Lowell rehearsed the history of municipal government in America and told something of the birth of the commission form in the rebuilding of Galveston after the destruction of that city by the tidal wave. There are now over 400 cities which have adopted it, he said.

In concluding his address, he said: "There are two general schemes of

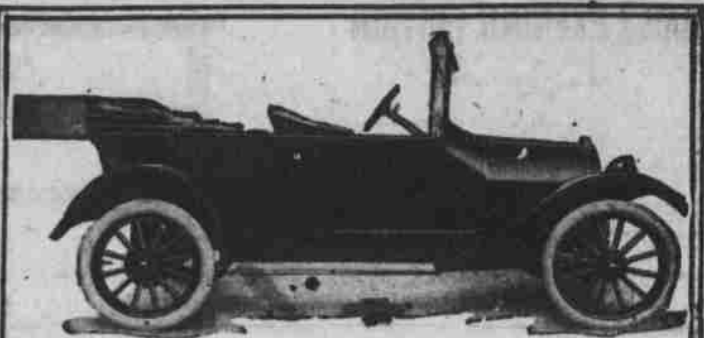

One Month Old Baby Had Dry Scale On Head Hair All Came Out Healed By Cuticura

"When my baby was only one month old he commenced to break out on his head with pimples which would dry up and leave a scale that would not come off. The pimples were small and in patches, and his hair all came out. The eruption seemed to itch as he would scratch, and he was restless.

"I finally used Cuticura Soap and Ointment. I noticed an improvement from the start, and I only used one box of Cuticura Ointment with the Cuticura Soap for about three weeks when his head was healed, and his hair came in soft and silky." (Signed) Mrs. J. H. Perry, Yoder, Colo., Oct. 17, 1916.

You may rely on Cuticura Soap and Ointment to care for your skin, scalp, hair and hands. Nothing better to clear the skin of pimples, blotches, redness and roughness, the scalp of dandruff and itching and the hands of chapping and soreness. Besides the Soap has no superior for all toilet and nursery uses. Do not confound these delicate, fragrant, super-creamy emollients with coarsely medicated, often dangerous preparations urged as substitutes.

For Free Samples by Return Mail address post-card: "Cuticura, Dept. R, Boston." Sold everywhere.

CHEVROLET
"Four-Ninety" Touring Car \$635
F. O. B. PENDLETON

The Chevrolet Four-Ninety Touring Car is a car of ideal economy. It gives you the most value for your money. The Chevrolet delivers the maximum power to the rear wheels. It accomplishes this feat through simplicity of mechanism. This compels directness of action. The result is more power and speed and less fuel and expense. The path of Chevrolet power is short and direct. The vaporized fuel enters directly into the valve-in-head motor. The impact of explosion strikes full against the piston head. It is an act of face-to-face co-operation. The fullness of the force is exerted immediately on the rear wheels. No friction of a second or horse-power is unduly spent. The Unit power plant type of construction does the business. And the result is, of course, that you ride faster and farther on one gallon of gasoline in this particular model. That is economy. And that is what you will find in the Chevrolet Four-Ninety. We are the authorized agents for Pendleton and Umatilla county.

29 HARVARD MEN DIE AT FRONT
Sixteen Were Killed in Action, Says University Report.
CAMBRIDGE, Mass., March 21.—Twenty-nine alumni of Harvard university have died as a result of the European war, according to statistics made public today. Sixteen were killed in action.

ALTA THURSDAY AND FRIDAY.

commission government, one wherein the duties and authority are directly exercised by the commissioners. They are therein both legislative and administrative and executive officers. The other, better known as the managerial form, leaves the commissioners as the legislative body and the board of final decision, and there is a general manager elected by them, and to them responsible, who transacts the real business of the city. This regards a city as a great business enterprise and is managed as such. Portland has the first system, pure commission government. La Grande the latter, the managerial form.

The advantages claimed for the new system, and they seem to be borne out by experience, are the following: (1) Efficiency, (2) economy, (3) responsibility, (4) attention to public business, (5) more efficient and more just enforcement of the law.

"Under the commission form of government public officers are paid and it is axiomatic that no man ever ought to be asked to perform public service without any pay. The state, the municipality, requires a class of service of the highest character. It can never receive such gratuitously. The salary is unimportant, because it will usually be saved over and over again by reason of prompt and careful attention to public business when a man is paid.

The most important factor however lies in the fixing of personal responsibility. Under either form of commission government some one is responsible, and there can be no throwing of such responsibility upon some one else. Under such circumstances the work of the public becomes a matter of pride, and is well and faithfully done.

"Under the old system no man can ever run down a blunder or fix responsibility. If he ventures on that effort he will be sent in circles until he is dizzy. The mayor will refer him to the council, the council to some committee, the committee to the marshal or recorder, that official back to the mayor, and no responsibility can ever be discovered. That condition can never arise under the new scheme. If there be a manager he is the man behind the gun. If there be none then such commissioner is assigned a department, and he is wholly responsible for its conduct, for instance the mayor who is also a commissioner is given public health, another commissioner the police, and a third the streets. In the several departments there is a single man who must take all responsibility and there can be no shirking.

The Evening Line-Up
Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.

BROWNSVILLE, TEXAS, Mr. Chas. Baker writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad coughs, and we give it to our children and recommend it freely as a safe remedy, for it contains no opiates."

TALLMAN & CO.

APPEAL FOR STARVING STOCK
HELENA, Mont., March 21.—The Montana railroad commission today appealed to the railroads to rush food to starving stock. Serious losses of cattle and sheep are feared.
