for the raising of sheep in small lots by farmers everywhere possible.

Those who advise the raising of a few sheep by small farmers point out the small number of sheep in America compared with American needs. There are but 50,000,000 sheep in the United States whereas it is contended there is room for the raising of 150,000,000. England, which in area is smaller than Oregon, has 30,000,000 sheep or three fifths as many as the entire United States. Ohio which is entirely a small farm sheep state has more sheep than Oregon, a state where sheep are raised in large holdings by exclusive sheepgrowers.

Will not present prices for mutton and for wool greatly stimulate the raising of sheep in small bands, thus adding to the profits of the farmer who follows diversification?

Watson & Luhrs are filling the new court house orders rapidly and are turning out a large amount of work for this structure.

Jethro Hardwick recently lost 300 head of sheep on Despain Gulch, the animals having eaten of salt peter spread on the pasture by some unprincipled miscreant.

MARCH SNOW.

March, you are foolin' us with your snow!
Maybe you're thinkin' we do not know
That under its blanket of drifted white
The delicate crocus is peeping to light.
The pale arbutus has started to bud,
And the robin is feelin' life's song in his blood!

March, you are foolin' us with your sleet!
Maybe you think you can stay the sweet
That is waitin' to burst with the daffodil.
That is waitin' to pipe from the clover hill.
That is waitin' to run with the wind o' the sea
Up through the valley and over the leat!

March, you are foolin' us with your snow!
Under it all there's that delicate glow
Of the jasmine's gold and the violet's blue,
And maybe tomorrow the spring'll come true,
And off with a shuckle you'll cast the cloak—
That is part of your foolin' and part of your joke!

THE EUROPEAN CROP

Of vast importance in Europe just now is the question as to whether the crop will be early or late. It is a pressing subject particularly in central Europe because the food supply is running low. "We must hold out 120 days for the new crop," Dr. Heim, leader of the Bavarian Peasant party is credited as having said recently. A feature of the situation is that crops are not early in Germany and Austria. No part of Germany is below the latitude of Bismarck, N. D.; no part of Austria-Hungary is south of Sioux City. In latitude Hungary is like Minnesota, which state is always a late crop state. Second in importance to the arrival of the new crop in Europe is the question as to its abundance. The central powers have 120,000,000 people depending upon the products of their own soil with outside commerce completely shut off. Under such conditions it is easy to forecast that the problem of peace this summer is going to depend not only upon military movements but also on the behavior of the soil.

PROFITS IN SHEEP RAISING

NE farmer adjoining Pendleton known chiefly as a wheat man has 300 head of sheep on his place from which it is said he will be able to turn off \$3000 in products this year if he desires to do so. In other words he will be able to secure a reasonable farm income from a purely side issue.

The facts are interesting in that they show the excellent profits to be had from sheep raising. The sheep business is so good that there is agitation

A GREAT FRENCH LAWYER

MAITRE FERNAND LABORI, who died in Paris last Wednesday, was in America on a lecturing tour about five years ago, cut short by an acute illness. His death in Paris recalls the incidents of his career which gave him a place in the history of France.

In this the name of Alfred Dreyfus dominates, and this marks the most critical controversy in history of this generation in the French republic. The Dreyfus case is memorable. Dreyfus, an officer on the general staff of the French army, was accused of having sold military secrets to Germany. Upon the testimony presented before the court-martial, Dreyfus was adjudged guilty, and his punishment was of the harshest—exile and imprisonment upon the Isle du Diabole, off the coast of Guiana, where he was subjected to cruel impositions.

Soon a persistent demand was made for a review of the Dreyfus case; and Labori was called as counsel. What he did in behalf of his client is conspicuous as an instance of the demonstration of truth in the face of grave official error sustained by nation-wide acceptance. As the proceedings advanced, there were developments of forgery, some suicides, disruption of the war office and the general staff of the army, and a revolution which brought back Dreyfus from his shackles in Guiana to his place at home with military reinstatement.

The decision of the supreme court saying that the Adamson eight hour law is constitutional has a different ring from the speeches delivered last fall by a certain man named Hughes and by numerous orators of lesser fame.

Some day there may be more than a rumor of a revolt in Germany; the Russian revolution may give dissatisfied Teutons an idea upon which they will act.

The Western Union business is an index to Pendleton's growth.

DO YOU KNOW--

That the site of the Eastern Oregon State Hospital was known as Middleton even before it was known as Swift's Station and that it was at Middleton that the county of Unadilla was formally organized?

That the first white settlement of any kind in Unadilla county was the Catholic mission established above this city Nov. 27, 1847, two days before the Whitman massacre?

That the boxing bouts held here since Mayor Best put the ban on the game more than a year ago?

That Pendleton's annual death rate is 0.85?

That Crater Lake received its present name in 1889 and before that was known variously as Deep Blue Lake, Mysterious Lake, Lake Majesty and Lake Mystery?

That Judge Lowell is a descendant of the Pizzini fathers?

THE GOOD JUDGE OVER-HEARD THE TRAVELERS TALKING W-B CUT TOBACCO.

YOU SAY YOU ENJOY GOOD TOBACCO; THEN TAKE A CHEW OF THIS W-B CUT AND TELL ME HOW IT GOES.

I DO ENJOY GOOD TOBACCO AND HAVE A CHEW IN MY MOUTH NOW—IT'S W-B CUT TOO!

HE'S OF STANDING USE TOBACCO OF THE BEST QUALITY.

ITS natural that a gentlemanly feeling should prompt one man to tell another about W-B CUT Chewing, so he, too, may enjoy the contentment there is in rich, sappy tobacco—and also avoid so much chewing and spitting.

The common-sense of it appeals to people with brains. There's no getting 'round facts, W-B will save a man money—a little chew lasts and satisfies. A 10c pouch goes twice as far as ten cents' worth of the old ordinary kind of chewing.

S.S.S.

The three great letters representing something which means so much to your individual health, as well as to the nation's health.

Why?

BECAUSE it has carried into thousands of American homes—HEALTH! The one thing all people desire.

BECAUSE it has the essential qualities to restore to your veins and arteries healthy blood, which is necessary to good health.

BECAUSE it is a purely vegetable remedy, guaranteed not to contain minerals of any kind.

BECAUSE it has genuine merit; otherwise it could not have stood the test for fifty years, as it has done.

Get S. S. S. at any drug store. There are dealers who will offer "something just as good." Don't be persuaded. Demand the genuine. The only object of a dealer in substituting is to make an additional profit.

Rheumatism, Catarrh, Malaria, and nearly all skin disorders are from impure blood and can be cured.
